INTEGRITY DIVIDEND HARVEST FUND—FUND SUMMARY

Investment Objectives

The Integrity Dividend Harvest Fund (the “Fund”) seeks to maximize total return by emphasizing high current income with long term appreciation as a secondary objective, consistent with preservation of capital.

Fees and Expenses of the Fund

This table describes the fees and expenses that you may pay if you buy, hold, and sell shares of the Fund. **You may pay other fees, such as brokerage commissions and other fees to financial intermediaries, which are not reflected in the tables and examples below.** You may qualify for sales charge discounts with respect to purchases of Class A shares of the Fund if you and your family invest, or agree to invest in the future, at least \$50,000 in the Fund or in other funds in the Integrity/Viking family of funds. More information about these and other discounts is available from your financial professional and in “The Shares Offered; Class A Shares” and “How to Reduce Your Sales Charge” on page 44 and 47, respectively, of the Fund’s prospectus, Appendix A of the Fund’s prospectus, and “Purchase and Redemption of Shares” on page B-51 of the Fund’s statement of additional information.

Shareholder Fees (fees paid directly from your investment)	Class A Shares	Class C Shares	Class I Shares
Maximum Sales Charge (Load) Imposed on Purchases (as a percentage of offering price)	5.00%	None	None
Maximum Deferred Sales Charge (Load) (as a percentage of the lesser of purchase price or redemption proceeds)	1.00%	1.00%	None
Maximum Sales Charge (Load) Imposed on Reinvested Dividends	None	None	None
Redemption Fee	None	None	None
Exchange Fee	None	None	None
Annual Fund Operating Expenses (expenses that you pay each year as a percentage of the value of your investment)			
Management Fees	0.75%	0.75%	0.75%
Distribution and Service (12b-1) Fees	0.25%	1.00%	None
Other Expenses	<u>0.43%</u>	<u>0.43%</u>	<u>0.43%</u>
Total Annual Fund Operating Expenses	1.43%	2.18%	1.18%
Fee Waivers and Expense Reimbursements ⁽¹⁾	<u>(0.48%)</u>	<u>(0.48%)</u>	<u>(0.48%)</u>
Total Annual Fund Operating Expenses After Fee Waivers and Expense Reimbursements ⁽¹⁾	0.95%	1.70%	0.70%

⁽¹⁾ The Fund’s investment adviser, Viking Fund Management, LLC (“Viking Management,” “investment manager,” or the “Adviser”), has contractually agreed to waive fees and reimburse expenses through November 29, 2024 so that Total Annual Fund Operating Expenses After Fee Waivers and Expense Reimbursements (excluding taxes, brokerage fees, commissions, extraordinary and non-recurring expenses, and acquired fund fees and expenses) do not exceed 0.95% of average daily net assets for Class A shares, 1.70% of average daily net assets for Class C shares, and 0.70% of average daily net assets for Class I shares. This expense limitation agreement may only be terminated or modified prior to November 29, 2024 with the approval of the Fund’s Board of Trustees. The terms of the expense limitation agreement provide that Viking Management is entitled to recoup such amounts waived or reimbursed for a period of up to three years from the date on which Viking Management waived fees or reimbursed expenses for the Fund. The Fund will make repayments to the Adviser only if such repayment does not cause the annual Fund operating expenses (after the repayment is taken into account) to exceed both (1) the expense limitation in place when such amounts were waived and (2) the Fund’s current expense limitation.

Example—This example is intended to help you compare the cost of investing in the Fund with the costs of investing in other mutual funds. The example assumes you invest \$10,000 in the Fund for the time periods indicated and then either redeem or do not redeem your shares at the end of a period. The example also assumes that your investment has a 5% return each year, that the Fund’s operating expenses remain the same, and that the contractual expense limitation agreement remains in place for the first year. Although your actual costs may be higher or lower, based on these assumptions your costs would be:

	Redemption			No Redemption
	Class A Shares	Class C Shares	Class I Shares	Class C Shares
1 Year	\$ 592	\$ 273	\$ 72	\$ 173
3 Years	\$ 885	\$ 636	\$ 327	\$ 636
5 Years	\$ 1,199	\$ 1,126	\$ 603	\$ 1,126
10 Years	\$ 2,088	\$ 2,476	\$ 1,389	\$ 2,476

Portfolio Turnover—The Fund pays transaction costs, such as commissions, when it buys and sells securities (or “turns over” its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in annual fund operating expenses or in the Example, affect the Fund’s performance. During the most recent fiscal period, the Fund’s portfolio turnover rate was 22.79% of the average value of its portfolio.

Principal Investment Strategies

To pursue its objective, the Fund normally invests at least 80% of its net assets, plus the amount of any borrowings for investment purposes, in dividend-paying equity securities, including common stock and preferred stock, of companies. In addition, under normal

market conditions, the Fund invests at least 65% of its net assets in equity securities that have consistently increased dividends for a period of at least 10 years. In determining whether a company has increased its dividend for a period of at least 10 years, the Fund's Portfolio Management Team ("Team") will account for the effect of any stock splits or spin-offs and exclude special dividends.

Although the investment process results in the Fund holding primarily large-cap companies, the Fund may invest in companies of any size. In selecting securities, the Team considers a combination of factors, including, but not limited to, dividend yield, dividend growth rate, earnings growth, price-to-earnings (P/E) multiples, valuation, credit rating, balance sheet strength, and volatility. The Team emphasizes dividend yield in selecting stocks for the Fund because the Team believes that, over time, dividend income can contribute significantly to total return and is a more consistent source of investment return than capital appreciation.

While the Fund does not concentrate in any one industry, from time to time, based on economic conditions, it may make significant investments in certain sectors.

The Fund may invest up to 30% of its net assets in foreign equity securities, including common stock and preferred stock.

The Team may consider selling a security if, among other considerations, the issuer's business fundamentals have deteriorated or the issuer fails to raise its dividend.

Principal Risks

As with all mutual funds, there is the risk that you could lose money through your investment in the Fund. Many factors affect the Fund's net asset value and performance. An investment in the Fund is not a deposit of a bank and is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency.

Dividend-Paying Stock Risk: Because the Fund can only distribute what it earns, the Fund's distributions to shareholders could decline when dividend income from stocks in the Fund's portfolio declines. The Fund's emphasis on dividend-paying stocks involves the risk that such stocks may fall out of favor with investors and underperform the market. Also, a company may reduce or eliminate its dividend, which could affect the Fund's ability to generate income. Key factors that might cause a company to reduce or eliminate its dividend include deteriorating fundamentals or changes in priority of the uses of capital, among other factors.

General Market Risk: There is no assurance that the Fund will meet its investment objective. The prices of the securities in which the Fund invests may fluctuate as a result of market factors such as interest rates, credit spreads, or commodity prices, and the Fund's share price and the value of your investment may change. Since the value of the Fund's shares can go up or down, it is possible to lose money by investing in the Fund.

Preferred Stock Risk: Preferred stocks are subject to the risks associated with other types of equity securities, such as potential volatility, as well as additional risks, such as risks related to deferral and omission of distributions; credit and subordination risk; interest rate risk; call, reinvestment and income risk; liquidity risk; risks related to limited voting rights; and risks related to special redemption rights.

- *Deferral and Omission Risk:* Preferred securities may include provisions that permit the issuer, at its discretion, to defer or omit distributions for a stated period without any adverse consequences to the issuer.
- *Credit and Subordination Risk:* Credit risk is the risk that a preferred security will decline in price or the issuer of the security will fail to make dividend, interest or principal payments when due because the issuer experiences a decline in its financial status. Preferred securities are generally subordinated to bonds and other debt instruments in a company's capital structure in terms of having priority to corporate income, claims to corporate assets and liquidation payments, and therefore will be subject to greater credit risk than more senior debt instruments.
- *Interest Rate Risk:* Interest rate risk is the risk that preferred securities will decline in value because of changes in market interest rates. When market interest rates rise, the market value of such securities generally will fall. Preferred securities with longer periods before maturity may be more sensitive to interest rate changes.
- *Call, Reinvestment and Income Risk:* During periods of declining interest rates, an issuer may be able to exercise an option to redeem its issue at par earlier than scheduled which is generally known as call risk. The risk that the Fund may be forced to reinvest in lower yielding securities is known as reinvestment risk. Another risk associated with a declining interest rate environment is that the income from the Fund's portfolio may decline over time when the Fund invests the proceeds from new share sales at market interest rates that are below the portfolio's current earnings rate.
- *Liquidity Risk:* Certain preferred securities may be substantially less liquid than many other securities, such as common stocks or U.S. Government securities. Illiquid securities involve the risk that the securities will not be able to be sold at the time desired by the Fund or at prices approximating the value at which the Fund is carrying the securities on its books.
- *Limited Voting Rights Risk:* Generally, traditional preferred securities offer no voting rights with respect to the issuer unless preferred dividends have been in arrears for a specified number of periods, at which time the preferred security holders may elect a number of directors to the issuer's board. Generally, once all the arrearages have been paid, the preferred security holders no longer have voting rights. Hybrid-preferred security holders generally have no voting rights.

- **Special Redemption Rights Risk:** In certain varying circumstances, an issuer of preferred securities may redeem the securities prior to a specified date. For instance, for certain types of preferred securities, a redemption may be triggered by a change in U.S. federal income tax or securities laws. As with call provisions, a redemption by the issuer may negatively impact the return of the security held by the Fund.

Sector Risk: To the extent that the Fund focuses on particular sectors from time to time, the Fund may be subject to greater risk of the adverse developments in such areas of focus than a fund that invests in a wider variety of sectors.

Risks of Foreign Securities (including Depositary Receipts): The Fund may invest in securities of non-U.S. issuers which have special risks. These risks include international economic and political developments, foreign government actions including restrictions on payments to non domestic persons such as the Fund, less regulation, less information, currency fluctuations, and interruptions in currency flow. The Fund’s investments in foreign securities are typically in the form of sponsored or unsponsored depositary receipts, such as American Depositary Receipts (“ADRs”), which are subject to risks similar to those associated with other foreign securities. In addition, ownership of unsponsored depositary receipts may not entitle the Fund to financial and other reports from the issuer of the underlying security and certain costs related to the receipts that would otherwise be borne by the issuer of a sponsored depositary receipt may be passed through, in whole or in part, to holders of unsponsored receipts. Moreover, investments in depositary receipts may be less liquid and more volatile than the underlying shares in their primary trading market. If a depositary receipt is denominated in a different currency than its underlying securities, the Fund will be subject to the currency risk of both the investment in the depositary receipt and the underlying security. Any distributions paid to the holders of depositary receipts are usually subject to a fee charged by the depositary. Holders of depositary receipts may have limited voting rights, and investment restrictions in certain countries may adversely impact the value of depositary receipts because such restrictions may limit the ability to convert the equity shares into depositary receipts and vice versa. Such restrictions may cause the equity shares of the underlying issuer to trade at a discount or premium to the market price of the depositary receipts.

Risks of Investments in Smaller Companies: The securities of mid-capitalization and small-capitalization companies involve greater risks than those associated with larger, more established companies and may be subject to more abrupt or erratic price movements. Securities of such issuers may lack sufficient market liquidity to enable the Fund to effect sales at an advantageous time or without a substantial drop in price. Both mid-capitalization and small-capitalization companies often have narrower markets and more limited managerial and financial resources than larger, more established companies. As a result, their performance can be more volatile and they face greater risk of business failure, which could increase the volatility of the Fund’s portfolio. Generally, the smaller the company size, the greater these risks become.

Valuation Risk: The sales price the Fund could receive for any particular portfolio investment may differ from the Fund’s valuation of the investment, particularly for securities that trade in thin or volatile markets or that are valued using a fair value methodology.

Cybersecurity Risk: Cybersecurity breaches may allow an unauthorized party to gain access to Fund assets, customer data, or proprietary information, or cause the Fund and/or its service providers to suffer data corruption or lose operational functionality. The Fund’s share price may decline as a result of unauthorized actions taken during a security breach or subsequent market activity in response to the security breach.

Fund Performance

The following bar chart and table provide some indication of the risks of investing in the Fund. The Fund’s past performance (before and after taxes) is not necessarily an indication of how the Fund will perform in the future. Updated performance information is available at www.integrityvikingfunds.com or by calling 800-276-1262.

The bar chart below shows the variability of the Fund’s performance from year to year for Class A shares. The bar chart and highest/lowest quarterly returns that follow do not reflect sales charges, and if these charges were reflected, the returns would be less than those shown.

During the periods shown in the bar chart, the highest return for a quarter was 15.20% (quarter ended December 30, 2022) and the lowest return for a quarter was -20.05% (quarter ended March 31, 2020). The Fund's calendar year-to-date total return as of September 30, 2023 was -4.92%.

The table below shows the Fund's average annual total returns for 1, 5, and 10 years for Class A shares, and for 1 year, 5 years, and since inception for Class C and Class I shares, and how they compare with those of a broad measure of market performance. The return information below reflects applicable sales charges. After-tax returns are calculated using the historical highest individual federal marginal income tax rates and do not reflect the impact of any state and local taxes. After-tax returns are shown for Class A shares only; after-tax returns for Class C and Class I shares will vary. Actual after-tax returns depend on an investor's tax situation and may differ from those shown, and after-tax returns shown are not relevant to investors who hold their Fund shares through tax-advantaged arrangements, such as 401(k) plans or individual retirement accounts ("IRAs").

Average Annual Total Returns
(for the periods ended December 31, 2022)

	<u>1 Year</u>	<u>5 Years</u>	<u>10 Years</u>	<u>Since Inception</u>
Class A (inception date: May 1, 2012)				
Return Before Taxes	-2.22%	6.91%	10.11%	—
Return After Taxes on Distributions On Distributions and Sale of Fund Shares	-2.22% -0.70%	6.07% 5.72%	8.98% 8.23%	— —
Class C (inception date: August 3, 2015)				
Return Before Taxes	1.14%	7.21%	—	8.87%
Class I (inception date: August 1, 2016)				
Return Before Taxes	3.18%	8.28%	—	8.98%
Russell 1000 Value TR Index ⁽¹⁾ (reflects no deduction for fees, expenses, or taxes)	-7.54%	6.67%	10.29%	8.10% (Class C) 8.55% (Class I)
S&P 500® TR Index ⁽²⁾ (reflects no deduction for fees, expenses, or taxes)	-18.11%	9.42%	12.56%	10.56% (Class C) 11.32% (Class I)

⁽¹⁾ The Russell 1000 Value TR Index is an index of approximately 1,000 of the largest companies in the U.S. equity market. The Russell 1000 is a subset of the Russell 3000 Index. It represents the top companies by market capitalization.

⁽²⁾ The S&P 500® TR Index is a market-capitalization-weighted index of the 500 largest U.S. publicly traded companies by market value.

Management

Investment Adviser—Viking Fund Management, LLC is the Fund's investment adviser.

Portfolio Managers—Shannon D. Radke, Senior Portfolio Manager and President of Viking Fund Management, LLC, has served as the Fund's portfolio manager since May 2012. Josh Larson, Portfolio Manager, has served as the Fund's portfolio manager since May 2012. Michael Morey, Portfolio Manager, has served as the Fund's portfolio manager since May 2012. Trey Welstad, Portfolio Manager, has served as the Fund's portfolio manager since May 2015.

Purchase and Sale of Fund Shares

You may purchase, redeem, or exchange shares of the Fund on any day the New York Stock Exchange is open for business. You may purchase, redeem, or exchange shares of the Fund either through a financial advisor or directly from the Fund.

The minimum initial purchase or exchange into the Fund is \$1,000 (\$50 for accounts opened through an automatic investment plan account and \$250 for an IRA account). The minimum subsequent investment is \$50. The Fund may, however, accept investments of smaller initial or subsequent amounts at its discretion. Class I shares are not available for IRAs or employer sponsored IRAs unless purchased through a fee-based advisory account with a financial intermediary. You may contact the Fund's transfer agent, Integrity Fund Services, LLC, by mail at PO Box 759, Minot, ND 58702, or by calling 800-601-5593.

Tax Information

The Fund's distributions will generally be taxed as ordinary income or capital gains, unless you are investing through a tax-advantaged arrangement, such as a 401(k) plan or an IRA. Such tax-advantaged arrangements may be taxed later upon a withdrawal from those arrangements.

Payments to Broker-Dealers and Other Financial Intermediaries

If you purchase the Fund through a broker-dealer or other financial intermediary (such as a bank), the Fund and its related companies may pay the intermediary for the sale of Fund shares and related services. These payments may create a conflict of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend the Fund over another investment. Ask your salesperson or visit your financial intermediary's Web site for more information.

INTEGRITY DIVIDEND SUMMIT FUND—FUND SUMMARY

Investment Objectives

The Integrity Dividend Summit Fund (the “Fund”) seeks to maximize qualified dividend income with long term appreciation as a secondary objective.

Fees and Expenses of the Fund

This table describes the fees and expenses that you may pay if you buy, hold, and sell shares of the Fund. **You may pay other fees, such as brokerage commissions and other fees to financial intermediaries, which are not reflected in the tables and examples below.** You may qualify for sales charge discounts with respect to purchases of Class A shares of the Fund if you and your family invest, or agree to invest in the future, at least \$50,000 in the Fund or in other funds in the Integrity/Viking family of funds. More information about these and other discounts is available from your financial professional and in “The Shares Offered; Class A Shares” and “How to Reduce Your Sales Charge” on page 44 and 47, respectively, of the Fund’s prospectus, Appendix A of the Fund’s prospectus, and “Purchase and Redemption of Shares” on page B-51 of the Fund’s statement of additional information.

	Class A Shares	Class C Shares	Class I Shares
Shareholder Fees (fees paid directly from your investment)			
Maximum Sales Charge (Load) Imposed on Purchases (as a percentage of offering price)	5.00%	None	None
Maximum Deferred Sales Charge (Load) (as a percentage of the lesser of purchase price or redemption proceeds)	1.00%	1.00%	None
Maximum Sales Charge (Load) Imposed on Reinvested Dividends	None	None	None
Redemption Fee	None	None	None
Exchange Fee	None	None	None
Annual Fund Operating Expenses (expenses that you pay each year as a percentage of the value of your investment)			
Management Fees	0.75%	0.75%	0.75%
Distribution and Service (12b-1) Fees	0.25%	1.00%	None
Other Expenses	11.71%	11.70%	11.67%
Total Annual Fund Operating Expenses	12.71%	13.45%	12.42%
Fee Waivers and Expense Reimbursements	(11.72%)	(11.71%)	(11.68%)
Total Annual Fund Operating Expenses After Fee Waivers and Expense Reimbursements ⁽¹⁾	0.99%	1.74%	0.74%

⁽¹⁾ The Fund’s investment adviser, Viking Fund Management, LLC (“Viking Management” or the “Adviser”), has contractually agreed to waive fees and reimburse expenses through November 29, 2024, so that Total Annual Fund Operating Expenses After Fee Waivers and Expense Reimbursements (excluding taxes, brokerage fees, commissions, extraordinary and non-recurring expenses, and acquired fund fees and expenses) do not exceed 0.99% of average daily net assets for Class A shares, 1.74% of average daily net assets for Class C shares, and 0.74% of average daily net assets for Class I shares. This expense limitation agreement may only be terminated or modified prior to November 29, 2024 with the approval of the Fund’s Board of Trustees. The terms of the expense limitation agreement provide that Viking Management is entitled to recoup such amounts waived or reimbursed for a period of up to three years from the date on which Viking Management waived fees or reimbursed expenses for the Fund. The Fund will make repayments to the Adviser only if such repayment does not cause the annual Fund operating expenses (after the repayment is taken into account) to exceed both (1) the expense limitation in place when such amounts were waived and (2) the Fund’s current expense limitation.

Example—This example is intended to help you compare the cost of investing in the Fund with the costs of investing in other mutual funds. The example assumes you invest \$10,000 in the Fund for the time periods indicated and then either redeem or do not redeem your shares at the end of a period. The example also assumes that your investment has a 5% return each year, that the Fund’s operating expenses remain the same, and that the contractual expense limitation agreement remains in place for the first year. Although your actual costs may be higher or lower, based on these assumptions your costs would be:

	Redemption			No Redemption
	Class A Shares	Class C Shares	Class I Shares	Class C Shares
1 Year	\$ 596	\$ 277	\$ 76	\$ 177
3 Years	\$ 1,952	\$ 1,733	\$ 1,454	\$ 1,733

Portfolio Turnover— The Fund pays transaction costs, such as commissions, when it buys and sells securities (or “turns over” its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in annual fund operating expenses or in the Example, affect the Fund’s performance. During the most recent fiscal period, the Fund’s portfolio turnover rate was 11.50% of the average value of its portfolio.

Principal Investment Strategies

To pursue its objective, the Fund normally invests at least 80% of its net assets, plus the amount of any borrowings for investment purposes, in dividend-paying equity securities, including common stock and preferred stock. For the purpose of this policy, the Fund considers dividend-paying equity securities to be the common or preferred stock of a company that has paid a dividend in the current or preceding calendar year or for which the company has announced a dividend in the current calendar year. In addition, under normal

conditions, the Fund invests at least 65% of its net assets in equity securities that pay current dividends at a rate (yield) at least double that of the current yield of S&P 500.

Although the investment process results in the Fund holding primarily large-cap companies, the Fund may invest in companies of any size. In selecting securities, the Team considers a combination of factors, including, but not limited to, dividend yield, dividend growth rate, earnings growth, price-to-earnings (P/E) multiples, valuation, credit rating, balance sheet strength, and volatility. The Team emphasizes dividend yield in selecting stocks for the Fund because the Team believes that, over time, dividend income can contribute significantly to total return and is a more consistent source of investment return than capital appreciation. In determining whether to invest in common or preferred stock, the Team will consider a number of factors including its macroeconomic and market outlook.

While the Fund does not concentrate in any one industry, from time to time, it may make significant investments in certain economic sectors as a result of the investment process. The Team's macroeconomic and market outlook will drive sector selection.

The Fund may invest up to 30% of its net assets in foreign securities. The Fund's investments in foreign securities are typically in the form of sponsored or unsponsored depositary receipts, such as American Depositary Receipts ("ADRs"). The Team's macroeconomic and market outlook, along with geographic location and other factors, will drive the Adviser's selection of and allocation among foreign securities.

The Team may consider selling a security if, among other considerations, its business fundamentals have deteriorated.

The Fund is non-diversified, meaning that it can concentrate its investments in a more limited number of issuers than a diversified fund.

Principal Risks

As with all mutual funds, there is the risk that you could lose money through your investment in the Fund. Many factors affect the Fund's net asset value and performance. An investment in the Fund is not a deposit of a bank and is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency.

Dividend-Paying Stock Risk: Because the Fund can only distribute what it earns, the Fund's distributions to shareholders could decline when dividend income from stocks in the Fund's portfolio declines. The Fund's emphasis on dividend-paying stocks involves the risk that such stocks may fall out of favor with investors and underperform the market. Also, a company may reduce or eliminate its dividend, which could affect the Fund's ability to generate income. Key factors that might cause a company to reduce or eliminate its dividend include deteriorating fundamentals or changes in priority of the uses of capital, among other factors.

General Market Risk: There is no assurance that the Fund will meet its investment objective. The prices of the securities in which the Fund invests may fluctuate as a result of market factors such as interest rates, credit spreads, or commodity prices, and the Fund's share price and the value of your investment may change. Since the value of the Fund's shares can go up or down, it is possible to lose money by investing in the Fund.

Non-Diversified Fund Risk. Because a relatively high percentage of the Fund's assets may be invested in the securities of a limited number of issuers, the Fund's portfolio may be more susceptible to any single event impacting the market value and returns of any one issuer than a diversified fund.

Preferred Stock Risk: Preferred stocks are subject to the risks associated with other types of equity securities, such as potential volatility, as well as additional risks, such as risks related to deferral and omission of distributions; credit and subordination risk; interest rate risk; call, reinvestment and income risk; liquidity risk; risks related to limited voting rights; and risks related to special redemption rights.

- *Deferral and Omission Risk:* Preferred securities may include provisions that permit the issuer, at its discretion, to defer or omit distributions for a stated period without any adverse consequences to the issuer.
- *Credit and Subordination Risk:* Credit risk is the risk that a preferred security will decline in price or the issuer of the security will fail to make dividend, interest or principal payments when due because the issuer experiences a decline in its financial status. Preferred securities are generally subordinated to bonds and other debt instruments in a company's capital structure in terms of having priority to corporate income, claims to corporate assets and liquidation payments, and therefore will be subject to greater credit risk than more senior debt instruments.
- *Interest Rate Risk:* Interest rate risk is the risk that preferred securities will decline in value because of changes in market interest rates. When market interest rates rise, the market value of such securities generally will fall. Preferred securities with longer periods before maturity may be more sensitive to interest rate changes.
- *Call, Reinvestment and Income Risk:* During periods of declining interest rates, an issuer may be able to exercise an option to redeem its issue at par earlier than scheduled which is generally known as call risk. The risk that the Fund may be forced to reinvest in lower yielding securities is known as reinvestment risk. Another risk associated with a declining interest rate

environment is that the income from the Fund's portfolio may decline over time when the Fund invests the proceeds from new share sales at market interest rates that are below the portfolio's current earnings rate.

- *Liquidity Risk:* Certain preferred securities may be substantially less liquid than many other securities, such as common stocks or U.S. Government securities. Illiquid securities involve the risk that the securities will not be able to be sold at the time desired by the Fund or at prices approximating the value at which the Fund is carrying the securities on its books.
- *Limited Voting Rights Risk:* Generally, traditional preferred securities offer no voting rights with respect to the issuer unless preferred dividends have been in arrears for a specified number of periods, at which time the preferred security holders may elect a number of directors to the issuer's board. Generally, once all the arrearages have been paid, the preferred security holders no longer have voting rights. Hybrid-preferred security holders generally have no voting rights.
- *Special Redemption Rights Risk:* In certain varying circumstances, an issuer of preferred securities may redeem the securities prior to a specified date. For instance, for certain types of preferred securities, a redemption may be triggered by a change in U.S. federal income tax or securities laws. As with call provisions, a redemption by the issuer may negatively impact the return of the security held by the Fund.

Valuation Risk: The sales price the Fund could receive for any particular portfolio investment may differ from the Fund's valuation of the investment, particularly for securities that trade in thin or volatile markets or that are valued using a fair value methodology.

Sector Risk: To the extent that the Fund focuses on particular sectors from time to time, the Fund may be subject to greater risk of the adverse developments in such areas of focus than a fund that invests in a wider variety of sectors.

Risks of Foreign Securities: Foreign markets can be more volatile than U.S. markets. The Fund's returns and net asset value may be affected by fluctuations in currency exchange rates or political or economic conditions in a particular country or region. In some foreign markets, it may not be possible for the Fund to repatriate capital, dividends, interest and other income from a particular country or governmental entity.

Risks of Depositary Receipts: Depositary receipts are subject to risks similar to those associated with other foreign securities. In addition, ownership of unsponsored depositary receipts may not entitle the Fund to financial and other reports from the issuer of the underlying security and certain costs related to the receipts that would otherwise be borne by the issuer of a sponsored depositary receipt may be passed through, in whole or in part, to holders of unsponsored receipts. Moreover, investments in depositary receipts may be less liquid and more volatile than the underlying shares in their primary trading market. If a depositary receipt is denominated in a different currency than its underlying securities, the Fund will be subject to the currency risk of both the investment in the depositary receipt and the underlying security. Any distributions paid to the holders of depositary receipts are usually subject to a fee charged by the depositary. Holders of depositary receipts may have limited voting rights, and investment restrictions in certain countries may adversely impact the value of depositary receipts because such restrictions may limit the ability to convert the equity shares into depositary receipts and vice versa. Such restrictions may cause the equity shares of the underlying issuer to trade at a discount or premium to the market price of the depositary receipts.

Risks of Investments in Smaller Companies: The securities of mid-capitalization and small-capitalization companies involve greater risks than those associated with larger, more established companies and may be subject to more abrupt or erratic price movements. Securities of such issuers may lack sufficient market liquidity to enable the Fund to effect sales at an advantageous time or without a substantial drop in price. Both mid-capitalization and small-capitalization companies often have narrower markets and more limited managerial and financial resources than larger, more established companies. As a result, their performance can be more volatile and they face greater risk of business failure, which could increase the volatility of the Fund's portfolio. Generally, the smaller the company size, the greater these risks become.

Cybersecurity Risk: Cybersecurity breaches may allow an unauthorized party to gain access to Fund assets, customer data, or proprietary information, or cause the Fund and/or its service providers to suffer data corruption or lose operational functionality. The Fund's share price may decline as a result of unauthorized actions taken during a security breach or subsequent market activity in response to the security breach.

Fund Performance

Fund performance is not included in this prospectus because the Fund has not been in operation for a full calendar year. Performance information will be shown after the Fund has been in operation for one calendar year. At that time, annual performance information will provide some indication of the risks of investing in the Fund by showing the variability of the Fund's performance from year to year for Class A Shares and by comparing the Fund's performance to a broad measure of market performance. The Fund's performance will also be available at www.integrityvikingfunds.com or by calling 800-276-1262. The Fund's past performance (before and after taxes) will not necessarily be an indication of how the Fund will perform in the future.

Management

Investment Adviser—Viking Fund Management, LLC is the Fund's investment adviser.

Portfolio Managers—Shannon D. Radke, Senior Portfolio Manager and President of Viking Fund Management, LLC, has served as the Fund’s portfolio manager since its inception on May 1, 2023. Josh Larson, Portfolio Manager, has served as the Fund’s portfolio manager since its inception on May 1, 2023. Michael Morey, Portfolio Manager, has served as the Fund’s portfolio manager since its inception on May 1, 2023. Trey Welstad, Portfolio Manager, has served as the Fund’s portfolio manager since its inception on May 1, 2023.

Purchase and Sale of Fund Shares

You may purchase, redeem, or exchange shares of the Fund on any day the New York Stock Exchange is open for business. You may purchase, redeem, or exchange shares of the Fund either through a financial advisor or directly from the Fund.

The minimum initial purchase or exchange into the Fund is \$1,000 (\$50 for accounts opened through an automatic investment plan account and \$250 for an IRA account). The minimum subsequent investment is \$50. The Fund may, however, accept investments of smaller initial or subsequent amounts at its discretion. Class I shares are not available for IRAs or employer sponsored IRAs unless purchased through a fee-based advisory account with a financial intermediary. To conduct transactions directly with the Fund, you may contact the Fund’s transfer agent, Integrity Fund Services, LLC, by mail at PO Box 759, Minot, ND 58702, or by calling 800-601-5593.

Tax Information

The Fund’s distributions will generally be taxed as ordinary income or capital gains, unless you are investing through a tax-advantaged arrangement, such as a 401(k) plan or an IRA. Such tax-advantaged arrangements may be taxed later upon a withdrawal from those arrangements.

Payments to Broker-Dealers and Other Financial Intermediaries

If you purchase the Fund through a broker-dealer or other financial intermediary (such as a bank), the Fund and its related companies may pay the intermediary for the sale of Fund shares and related services. These payments may create a conflict of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend the Fund over another investment. Ask your salesperson or visit your financial intermediary’s Web site for more information.

INTEGRITY GROWTH & INCOME FUND—FUND SUMMARY

Investment Objectives

The Integrity Growth & Income Fund (the “Fund”) seeks to provide long-term growth of capital with dividend income as a secondary objective.

Fees and Expenses of the Fund

This table describes the fees and expenses that you may pay if you buy, hold, and sell shares of the Fund. **You may pay other fees, such as brokerage commissions and other fees to financial intermediaries, which are not reflected in the tables and examples below.** You may qualify for sales charge discounts with respect to purchases of Class A shares of the Fund if you and your family invest, or agree to invest in the future, at least \$50,000 in the Fund or in other funds in the Integrity/Viking family of funds. More information about these and other discounts is available from your financial professional and in “The Shares Offered; Class A Shares” and “How to Reduce Your Sales Charge” on page 44 and 47, respectively, of the Fund’s prospectus, Appendix A of the Fund’s prospectus, and “Purchase and Redemption of Shares” on page B-51 of the Fund’s statement of additional information.

	Class A Shares	Class C Shares	Class I Shares
Shareholder Fees (fees paid directly from your investment)			
Maximum Sales Charge (Load) Imposed on Purchases (as a percentage of offering price)	5.00%	None	None
Maximum Deferred Sales Charge (Load) (as a percentage of the lesser of purchase price or redemption proceeds)	1.00%	1.00%	None
Maximum Sales Charge (Load) Imposed on Reinvested Dividends	None	None	None
Redemption Fee	None	None	None
Exchange Fee	None	None	None
Annual Fund Operating Expenses (expenses that you pay each year as a percentage of the value of your investment)			
Management Fees	1.00%	1.00%	1.00%
Distribution and Service (12b-1) Fees	0.25%	1.00%	None
Other Expenses	0.58%	0.58%	0.58%
Total Annual Fund Operating Expenses	1.83%	2.58%	1.58%
Fee Waivers and Expense Reimbursements ⁽¹⁾	(0.59%)	(0.59%)	(0.59%)
Total Annual Fund Operating Expenses After Fee Waivers and Expense Reimbursements ⁽¹⁾	1.24%	1.99%	0.99%

⁽¹⁾ The Fund’s investment adviser, Viking Fund Management, LLC (“Viking Management,” “investment manager,” or the “Adviser”), has contractually agreed to waive fees and reimburse expenses through November 29, 2024 so that Total Annual Fund Operating Expenses After Fee Waivers and Expense Reimbursements (excluding taxes, brokerage fees, commissions, extraordinary and non-recurring expenses, and acquired fund fees and expenses) do not exceed 1.24% of average daily net assets for Class A shares, 1.99% of average daily net assets for Class C shares, and 0.99% of Class I shares. This expense limitation agreement may only be terminated or modified prior to November 29, 2024 with the approval of the Fund’s Board of Trustees. The terms of the expense limitation agreement provide that Viking Management is entitled to recoup such amounts waived or reimbursed for a period of up to three years from the date on which Viking Management waived fees or reimbursed expenses for the Fund. The Fund will make repayments to the Adviser only if such repayment does not cause the annual Fund operating expenses (after the repayment is taken into account) to exceed both (1) the expense limitation in place when such amounts were waived and (2) the Fund’s current expense limitation.

Example—This example is intended to help you compare the cost of investing in the Fund with the costs of investing in other mutual funds. The example assumes you invest \$10,000 in the Fund for the time periods indicated and then either redeem or do not redeem your shares at the end of a period. The example also assumes that your investment has a 5% return each year, that the Fund’s operating expenses remain the same, and that the contractual expense limitation agreement remains in place for the first year. Although your actual costs may be higher or lower, based on these assumptions your costs would be:

	Redemption			No Redemption
	Class A Shares	Class C Shares	Class I Shares	Class C Shares
1 Year	\$ 620	\$ 302	\$ 101	\$ 202
3 Years	\$ 992	\$ 746	\$ 441	\$ 746
5 Years	\$ 1,389	\$ 1,318	\$ 805	\$ 1,318
10 Years	\$ 2,495	\$ 2,871	\$ 1,828	\$ 2,871

Portfolio Turnover—The Fund pays transaction costs, such as commissions, when it buys and sells securities (or “turns over” its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in annual fund operating expenses or in the Example, affect the Fund’s performance. During the most recent fiscal period, the Fund’s portfolio turnover rate was 4.29% of the average value of its portfolio.

Principal Investment Strategies

Under normal market conditions, the Fund is managed using a blended growth and income investment strategy. The Fund seeks to invest primarily in domestic common stocks, balancing its investments between growth and dividend-paying stocks, depending on where value

is in the stock market. The Fund may also invest in stocks that are currently not paying dividends, but offer prospects for future income or capital appreciation.

The Fund's investment adviser, Viking Fund Management, LLC (the "Investment Adviser") makes its investment decisions utilizing a top-down approach which focuses on sector weightings given the Investment Adviser's broader economic and market outlook. Individual companies are then selected by considering a number of factors that may include, but are not limited to, revenue growth, earnings growth rate, dividend yield, price-to-earnings (P/E) multiples, strength of balance sheet, and price momentum. Although the Fund may invest in companies of any size, the investment adviser prefers large cap companies for the Fund. Subject to its attention to responsible investment criteria described below, the Fund is not constrained by investments in any particular segment of the stock market.

The Investment Adviser seeks to emphasize companies that it believes both offer attractive investment opportunities and demonstrate a positive awareness of their impact on the society in which they operate. Factors considered may include:

- fairness of employment policies and labor relations;
- involvement in the community;
- efforts and strategies to minimize the negative impact of business activities and products on the environment and to embrace alternatives to reduce polluting and unnecessary animal suffering; and
- management and board governance.

In addition, the Investment Adviser does not intend to invest in companies that it believes derive material revenue from gambling, firearms, pornography, the production of alcohol or tobacco, or non-humanitarian business operations in countries considered State Sponsors of Terrorism by the U.S. Secretary of State.

The Fund's portfolio management team may consider selling a security if, among other considerations, its business fundamentals have deteriorated.

Principal Risks

As with all mutual funds, there is the risk that you could lose money through your investment in the Fund. Many factors affect the Fund's net asset value and performance. An investment in the Fund is not a deposit of a bank and is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency.

General Market Risk: There is no assurance that the Fund will meet its investment objective. The prices of the securities in which the Fund invests may fluctuate as a result of market factors such as interest rates, credit spreads, or commodity prices, and the Fund's share price and the value of your investment may change. Since the value of the Fund's shares can go up or down, it is possible to lose money by investing in the Fund.

Style Risk: The Fund is managed according to an investment strategy that at times reflects either growth or value style investing, and therefore is subject to the risks associated with these styles. One risk is that a growth investing style may fall out of favor with investors for a period of time during which the Fund may underperform other funds that employ a different style. In addition, growth stocks typically are more volatile than value stocks due to their relatively high valuations and sensitivity to investor perceptions of the issuer's growth potential. As a result, the price of a growth stock may experience a larger decline on a forecast of lower earnings or other negative development, than would a value stock. Furthermore, because the value of growth companies is a function of their expected earnings growth, there is a risk that such earnings growth may not occur or cannot be sustained. Value stocks may continue to be undervalued by the market for extended periods, including the entire period during which the stock is held by the Fund. Additionally, the events that the Investment Adviser believed would cause the stock price to increase may not occur as anticipated or at all. Moreover, a stock judged to be undervalued actually may be appropriately priced at a low level.

Responsible Investing Risk: The Fund's responsible investment criteria could cause it to underperform similar funds that do not have such criteria. Among the reasons for this are: ethically aware companies could fall out of favor with investors or fail to perform as well as companies that do not fit the Fund's responsible investment criteria; stocks that do not meet the responsible investment criteria could outperform those that do; and the responsible investment criteria could cause the Fund to sell or avoid stocks that subsequently perform well.

Liquidity Risk: Certain securities in which the Fund invests may be less readily marketable and may be subject to greater fluctuation in price than other securities. These features may make it more difficult to sell or buy a security at a favorable price or time.

Market Valuation Risk: Some companies that are growing very fast have unreasonable valuations by traditional valuation techniques. Since these companies' stock prices do not reflect the usual relationships between price and corporate earnings or income, their stocks tend to be extraordinarily volatile and speculative.

Dividend-Paying Stock Risk: Because the Fund can only distribute what it earns, the Fund’s distributions to shareholders could decline when dividend income from the dividend-paying stocks in the Fund’s portfolio declines. Investments in dividend-paying stocks involve the risk that such stocks may fall out of favor with investors and underperform the market. Also, a company may reduce or eliminate its dividend, which could affect the Fund’s ability to generate income. Key factors that might cause a company to reduce or eliminate its dividend include deteriorating fundamentals or changes in priority of the uses of capital, among other factors.

Risks of Investments in Smaller Companies: The securities of mid-capitalization and small-capitalization companies involve greater risks than those associated with larger, more established companies and may be subject to more abrupt or erratic price movements. Securities of such issuers may lack sufficient market liquidity to enable the Fund to effect sales at an advantageous time or without a substantial drop in price. Both mid-capitalization and small-capitalization companies often have narrower markets and more limited managerial and financial resources than larger, more established companies. As a result, their performance can be more volatile and they face greater risk of business failure, which could increase the volatility of the Fund’s portfolio. Generally, the smaller the company size, the greater these risks become.

Valuation Risk: The sales price the Fund could receive for any particular portfolio investment may differ from the Fund’s valuation of the investment, particularly for securities that trade in thin or volatile markets or that are valued using a fair value methodology.

Cybersecurity Risk: Cybersecurity breaches may allow an unauthorized party to gain access to Fund assets, customer data, or proprietary information, or cause the Fund and/or its service providers to suffer data corruption or lose operational functionality. The Fund’s share price may decline as a result of unauthorized actions taken during a security breach or subsequent market activity in response to the security breach.

Fund Performance

The following bar chart and table provide some indication of the risks of investing in the Fund. The Fund’s past performance (before and after taxes) is not necessarily an indication of how the Fund will perform in the future. Updated performance information is available at www.integrityvikingfunds.com or by calling 800-276-1262.

Effective as of October 20, 2022, the Fund changed its name from the Integrity ESG Growth & Income Fund to the Integrity Growth & Income Fund.

Since August 1, 2009, the Fund has been managed by Viking Fund Management, LLC. The results from February 1, 2007 to July 31, 2009 were achieved while the Fund was managed by Integrity Money Management, Inc. (“Integrity Money Management”). The results from April 25, 2005 to January 31, 2007 were achieved while the Fund was managed by Integrity Money Management and IPS Advisory, Inc., the Fund’s sub-adviser. The results prior to April 25, 2005 were achieved while the Fund was managed by a different investment adviser that used different investment strategies and techniques.

The bar chart below shows the variability of the Fund’s performance from year to year for Class A shares. The bar chart and highest/lowest quarterly returns that follow do not reflect sales charges, and if these charges were reflected, the returns would be less than those shown.

During the ten-year period shown in the bar chart, the highest return for a quarter was 15.39% (quarter ended June 30, 2020) and the lowest return for a quarter was -17.43% (quarter ended March 31, 2020). The Fund’s calendar year-to-date total return as of September 30, 2023 was 11.65%.

The table below shows the Fund’s average annual total returns for 1, 5, and 10 years for Class A shares, and for 1 year, 5 years, and since inception for Class C and Class I shares, and how they compare with those of a broad measure of market performance. The return information below reflects applicable sales charges. After-tax returns are calculated using the historical highest individual federal marginal income tax rates and do not reflect the impact of any state and local taxes. After-tax returns are shown for Class A shares only; after-tax returns for Class C and Class I shares will vary. Actual after-tax returns depend on an investor’s tax situation and may differ

from those shown, and after-tax returns shown are not relevant to investors who hold their Fund shares through tax-advantaged arrangements, such as 401(k) plans or individual retirement accounts (“IRAs”).

Average Annual Total Returns
(for the periods ended December 31, 2022)

	<u>1 Year</u>	<u>5 Years</u>	<u>10 Years</u>	<u>Since Inception</u>
Class A				
Return Before Taxes	-25.24%	7.85%	9.69%	—
Return After Taxes on Distributions	-25.20%	7.08%	8.41%	—
Return After Taxes on Distributions and Sale of Fund Shares	-18.95%	6.18%	7.60%	—
Class C (inception date: August 3, 2015)				
Return Before Taxes	-22.67%	8.38%	—	8.13%
Class I (inception date: August 1, 2016)				
Return Before Taxes	-21.11%	9.23%	—	10.58%
S&P 500® TR Index ⁽¹⁾ (reflects no deduction for fees, expenses, or taxes)	-18.11%	9.42%	12.56%	10.56% (Class C) 11.32% (Class I)

⁽¹⁾ The S&P 500® TR Index is a market-capitalization-weighted index of the 500 largest U.S. publicly traded companies by market value.

Management

Investment Adviser—Viking Fund Management, LLC is the Fund’s investment adviser.

Portfolio Managers—Josh Larson, Portfolio Manager, has served as the Fund’s portfolio manager since May 2013. Trey Welstad, Portfolio Manager, has served as the Fund’s portfolio manager since May 2015.

Purchase and Sale of Fund Shares

You may purchase, redeem, or exchange shares of the Fund on any day the New York Stock Exchange is open for business. You may purchase, redeem, or exchange shares of the Fund either through a financial advisor or directly from the Fund.

The minimum initial purchase or exchange into the Fund is \$1,000 (\$50 for accounts opened through an automatic investment plan account and \$250 for an IRA account). The minimum subsequent investment is \$50. The Fund may, however, accept investments of smaller initial or subsequent amounts at its discretion. Class I shares are not available for IRAs or employer sponsored IRAs, unless purchased through a fee-based advisory account with a financial intermediary. You may contact the Fund’s transfer agent, Integrity Fund Services, LLC, by mail at PO Box 759, Minot, ND 58702, or by calling 800-601-5593.

Tax Information

The Fund’s distributions will generally be taxed as ordinary income or capital gains, unless you are investing through a tax-advantaged arrangement, such as a 401(k) plan or an IRA. Such tax-advantaged arrangements may be taxed later upon a withdrawal from those arrangements.

Payments to Broker-Dealers and Other Financial Intermediaries

If you purchase the Fund through a broker-dealer or other financial intermediary (such as a bank), the Fund and its related companies may pay the intermediary for the sale of Fund shares and related services. These payments may create a conflict of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend the Fund over another investment. Ask your salesperson or visit your financial intermediary’s Web site for more information.

INTEGRITY HIGH INCOME FUND—FUND SUMMARY

Investment Objectives

The Integrity High Income Fund (the “Fund”) seeks to provide a high level of current income with capital appreciation as a secondary objective.

Fees and Expenses of the Fund

This table describes the fees and expenses that you may pay if you buy, hold, and sell shares of the Fund. **You may pay other fees, such as brokerage commissions and other fees to financial intermediaries, which are not reflected in the tables and examples below.** You may qualify for sales charge discounts with respect to purchases of Class A shares of the Fund if you and your family invest, or agree to invest in the future, at least \$50,000 in the Fund or in other funds in the Integrity/Viking family of funds. More information about these and other discounts is available from your financial professional and in “The Shares Offered; Class A Shares” and “How to Reduce Your Sales Charge” on page 44 and 47, respectively, of the Fund’s prospectus, Appendix A of the Fund’s prospectus, and “Purchase and Redemption of Shares” on page B-51 of the Fund’s statement of additional information.

	Class A Shares	Class C Shares	Class I Shares
Shareholder Fees (fees paid directly from your investment)			
Maximum Sales Charge (Load) Imposed on Purchases (as a percentage of offering price)	4.25%	None	None
Maximum Deferred Sales Charge (Load) (as a percentage of the lesser of purchase price or redemption proceeds)	1.00%	1.00%	None
Maximum Sales Charge (Load) Imposed on Reinvested Dividends	None	None	None
Redemption Fee	None	None	None
Exchange Fee	None	None	None
Annual Fund Operating Expenses (expenses that you pay each year as a percentage of the value of your investment)			
Management Fees	0.85%	0.85%	0.85%
Distribution and Service (12b-1) Fees	0.25%	1.00%	None
Other Expenses	<u>0.58%</u>	<u>0.58%</u>	<u>0.58%</u>
Total Annual Fund Operating Expenses	1.68%	2.43%	1.43%
Fee Waivers and Expense Reimbursements ⁽¹⁾	<u>(0.69%)</u>	<u>(0.69%)</u>	<u>(0.69%)</u>
Total Annual Fund Operating Expenses After Fee Waivers and Expense Reimbursements ⁽¹⁾	0.99%	1.74%	0.74%

⁽¹⁾ The Fund’s investment adviser, Viking Fund Management, LLC (“Viking Management,” “investment manager,” or the “Adviser”), has contractually agreed to waive fees and reimburse expenses through November 29, 2024 so that Total Annual Fund Operating Expenses After Fee Waivers and Expense Reimbursements (excluding taxes, brokerage fees, commissions, extraordinary and non-recurring expenses, and acquired fund fees and expenses) do not exceed 0.99% of average daily net assets for Class A shares, 1.74% of average daily net assets for Class C shares, and 0.74% of average daily net assets for Class I shares. This expense limitation agreement may only be terminated or modified prior to November 29, 2024 with the approval of the Fund’s Board of Trustees. The terms of the expense limitation agreement provide that Viking Management is entitled to recoup such amounts waived or reimbursed for a period of up to three years from the date on which Viking Management waived fees or reimbursed expenses for the Fund. The Fund will make repayments to the Adviser only if such repayment does not cause the annual Fund operating expenses (after the repayment is taken into account) to exceed both (1) the expense limitation in place when such amounts were waived and (2) the Fund’s current expense limitation.

Example—This example is intended to help you compare the cost of investing in the Fund with the costs of investing in other mutual funds. The example assumes you invest \$10,000 in the Fund for the time periods indicated and then either redeem or do not redeem your shares at the end of a period. The example also assumes that your investment has a 5% return each year, that the Fund’s operating expenses remain the same, and that the contractual expense limitation agreement remains in place for the first year. Although your actual costs may be higher or lower, based on these assumptions your costs would be:

	Redemption			No Redemption
	Class A Shares	Class C Shares	Class I Shares	Class C Shares
1 Year	\$ 522	\$ 277	\$ 76	\$ 177
3 Years	\$ 868	\$ 692	\$ 384	\$ 692
5 Years	\$ 1,237	\$ 1,233	\$ 716	\$ 1,233
10 Years	\$ 2,272	\$ 2,714	\$ 1,654	\$ 2,714

Portfolio Turnover—The Fund pays transaction costs, such as commissions, when it buys and sells securities (or “turns over” its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in annual fund operating expenses or in the Example, affect the Fund’s performance. During the most recent fiscal period, the Fund’s portfolio turnover rate was 15.41% of the average value of its portfolio.

Principal Investment Strategies

The Fund invests in a group of low-quality, high-risk, high yield corporate debt obligations. Under normal circumstances, at least 80% of the Fund’s net assets (plus any borrowings made for investment purposes) will be invested in corporate bonds rated Baa by Moody’s Investors Service (“Moody’s”) or BBB by S&P Global Ratings (“S&P”) or lower. As a result, this includes high yield/lower-rated debt

securities (also known as “junk” bonds) that are rated by an independent rating agency to be non-investment grade (e.g., BB or lower by S&P or Ba or lower by Moody’s). Because of their low credit quality, these securities typically pay higher interest rates to compensate investors for the substantial credit risk they assume. The Fund may also invest in corporate issues that have defaulted. In addition, the Fund may invest in Rule 144A securities, which are generally privately placed securities purchased by qualified institutional buyers. While there are no restrictions on maturity, the Fund’s portfolio generally has an average maturity of less than ten years. The Fund seeks capital appreciation from selling bonds above the purchase price.

To select the securities in which to invest, the Fund’s sub-adviser conducts fundamental credit research on each issuer. The Fund will buy securities that the sub-adviser believes are attractively priced relative to current and expected fundamentals. The Fund may consider selling a security if, among other considerations, the issuer’s business fundamentals have deteriorated.

Principal Risks

As with all mutual funds, there is the risk that you could lose money through your investment in the Fund. Many factors affect the Fund’s net asset value and performance. An investment in the Fund is not a deposit of a bank and is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency.

Lower-Quality Debt Risk: Lower-quality debt securities (also known as “junk bonds”) and certain types of other securities involve greater risk of default or price changes due to changes in the credit quality of the issuer. The value of lower-quality debt securities and certain types of other securities often fluctuates in response to company, political, or economic developments and can decline significantly over short periods of time or during periods of general or regional economic difficulty. Lower-quality debt securities can be thinly traded or have restrictions on resale, making them difficult to sell at an acceptable price. The default rate for lower-quality debt securities is likely to be higher during economic recessions or periods of high interest rates.

Credit Risk: Credit risk is the risk that the credit strength of an issuer will weaken and/or an issuer of a security will fail to pay principal and interest in a timely manner, reducing the Fund’s total return. The Fund may invest in securities that are not investment grade and are generally considered speculative because they present a greater risk of loss, including default, than higher quality debt securities. Credit risk may be substantial for the Fund.

Interest Rate Risk: Interest rate risk is the risk that debt securities will decline in value because of changes in interest rates. As nominal interest rates rise, the value of certain debt securities held by the Fund is likely to decrease. Debt securities with longer maturities tend to be more sensitive to changes in interest rates, usually making them more volatile than securities with shorter maturities.

Income Risk: Income risk is the risk that the income from the Fund’s portfolio will decline because of falling market interest rates. This can result when the Fund invests the proceeds from new share sales, or from matured or called bonds, at market interest rates that are below the portfolio’s current earnings rate.

General Market Risk: There is no assurance that the Fund will meet its investment objective. The prices of the securities in which the Fund invests may fluctuate as a result of market factors such as interest rates, credit spreads, or commodity prices, and the Fund’s share price and the value of your investment may change. Since the value of the Fund’s shares can go up or down, it is possible to lose money by investing in the Fund.

Liquidity Risk: Certain securities in which the Fund invests may be less readily marketable and may be subject to greater fluctuation in price than other securities. These features may make it more difficult to sell or buy a security at a favorable price or time.

Management Risk: The Fund’s overall success depends on the sub-adviser’s ability to choose productive securities for the Fund. If the sub-adviser is unable to successfully choose productive securities, the Fund may underperform other funds with similar investment objectives.

Market Volatility Risk: Market volatility risk is the risk that the value of the securities in which the Fund invests may go up or down in response to the prospects of individual companies and/or general economic conditions. Price changes may be temporary or may last for extended periods. Volatile financial markets may expose the Fund to greater market and liquidity risk.

Valuation Risk: The sales price the Fund could receive for any particular portfolio investment may differ from the Fund’s valuation of the investment, particularly for securities that trade in thin or volatile markets or that are valued using a fair value methodology.

Cybersecurity Risk: Cybersecurity breaches may allow an unauthorized party to gain access to Fund assets, customer data, or proprietary information, or cause the Fund and/or its service providers to suffer data corruption or lose operational functionality. The Fund’s share price may decline as a result of unauthorized actions taken during a security breach or subsequent market activity in response to the security breach.

Fund Performance

The following bar chart and table provide some indication of the risks of investing in the Fund. The Fund's past performance (before and after taxes) is not necessarily an indication of how the Fund will perform in the future. Updated performance information is available at www.integrityvikingfunds.com or by calling 800-276-1262.

Prior to August 1, 2009, the Fund was managed by Integrity Money Management, Inc. Since August 1, 2009, the Fund has been managed by Viking Fund Management, LLC. In addition, effective May 5, 2008, the Fund replaced its sub-adviser. Accordingly, the results prior to May 5, 2008 were achieved while the Fund was sub-advised by its previous sub-advisor, and its investment strategies and techniques differed from those of, and may have produced different investment results than those achieved by, J.P. Morgan Investment Management Inc., which became the Fund's sub-adviser effective May 5, 2008.

The bar chart below shows the variability of the Fund's performance for Class A shares. The bar chart and highest/lowest quarterly returns that follow do not reflect sales charges, and if these charges were reflected, the returns would be less than those shown.

During the ten-year period shown in the bar chart, the highest return for a quarter was 8.47% (quarter ended June 30, 2020) and the lowest return for a quarter was -11.48% (quarter ended March 31, 2020). The Fund's calendar year-to-date total return as of September 30, 2023 was 4.19%.

The table below shows the Fund's average annual total returns for 1, 5, and 10 years for Class A and Class C shares, and for 1 year, 5 years, and since inception for Class I shares, and how they compare with those of a broad measure of market performance. The return information below reflects applicable sales charges. After-tax returns are calculated using the historical highest individual federal marginal income tax rates and do not reflect the impact of any state and local taxes. After-tax returns are shown for Class A shares only; after-tax returns for Class C and Class I shares will vary. Actual after-tax returns depend on an investor's tax situation and may differ from those shown, and after-tax returns shown are not relevant to investors who hold their Fund shares through tax-advantaged arrangements, such as 401(k) plans or individual retirement accounts ("IRAs").

Average Annual Total Returns
(for the periods ended December 31, 2022)

	<u>1 Year</u>	<u>5 Years</u>	<u>10 Years</u>	<u>Since Inception</u>
Class A				
Return Before Taxes	-13.16%	1.56%	3.22%	—
Return After Taxes on Distributions	-14.75%	-0.33%	1.10%	—
Return After Taxes on Distributions and Sale of Fund Shares	-10.66%	0.40%	1.50%	—
Class C				
Return Before Taxes	-10.93%	1.67%	2.88%	—
Class I (inception date: August 1, 2016)				
Return Before Taxes	-9.08%	2.69%	—	3.82%
Bloomberg Barclays Capital U.S. Corporate High-Yield Bond Index ⁽¹⁾ (reflects no deduction for fees, expenses, or taxes)	-11.19%	2.31%	4.03%	3.67% (Class I)

⁽¹⁾ The Bloomberg Barclays Capital U.S. Corporate High-Yield Bond Index is an unmanaged index measures the USD-denominated, high yield, fixed-rate corporate bond market.

Management

Investment Adviser—Viking Fund Management, LLC is the Fund's investment adviser.

Sub-Adviser—J.P. Morgan Investment Management Inc. ("JPMIM") is the Fund's investment sub-adviser.

Portfolio Managers—Robert L. Cook, a Managing Director of JPMIM, and Thomas Hauser, a Managing Director of JPMIM, have served as the Fund’s portfolio managers since May 2008 and are jointly responsible for the day-to-day management of the Fund’s portfolio.

Purchase and Sale of Fund Shares

You may purchase, redeem, or exchange shares of the Fund on any day the New York Stock Exchange is open for business. You may purchase, redeem, or exchange shares of the Fund either through a financial advisor or directly from the Fund.

The minimum initial purchase or exchange into the Fund is \$1,000 (\$50 for accounts opened through an automatic investment plan account and \$250 for an IRA account). The minimum subsequent investment is \$50. The Fund may, however, accept investments of smaller initial or subsequent amounts at its discretion. Class I shares are not available for IRAs or employer sponsored IRAs, unless purchased through a fee-based advisory account with a financial intermediary. You may contact the Fund’s transfer agent, Integrity Fund Services, LLC, by mail at PO Box 759, Minot, ND 58702, or by calling 800-601-5593.

Tax Information

The Fund’s distributions will generally be taxed as ordinary income or capital gains, unless you are investing through a tax-advantaged arrangement, such as a 401(k) plan or an IRA. Such tax-advantaged arrangements may be taxed later upon a withdrawal from those arrangements.

Payments to Broker-Dealers and Other Financial Intermediaries

If you purchase the Fund through a broker-dealer or other financial intermediary (such as a bank), the Fund and its related companies may pay the intermediary for the sale of Fund shares and related services. These payments may create a conflict of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend the Fund over another investment. Ask your salesperson or visit your financial intermediary’s Web site for more information.

INTEGRITY MID-NORTH AMERICAN RESOURCES FUND—FUND SUMMARY

Investment Objective

The Integrity Mid-North American Resources Fund (the “Fund”) seeks to provide long-term capital appreciation.

Fees and Expenses of the Fund

This table describes the fees and expenses that you may pay if you buy, hold, and sell shares of the Fund. **You may pay other fees, such as brokerage commissions and other fees to financial intermediaries, which are not reflected in the tables and examples below.** You may qualify for sales charge discounts with respect to purchases of Class A shares of the Fund if you and your family invest, or agree to invest in the future, at least \$50,000 in the Fund or in other funds in the Integrity/Viking family of funds. More information about these and other discounts is available from your financial professional and in “The Shares Offered; Class A Shares” and “How to Reduce Your Sales Charge” on page 44 and 47, respectively, of the Fund’s prospectus, Appendix A of the Fund’s prospectus, and “Purchase and Redemption of Shares” on page B-51 of the Fund’s statement of additional information.

	Class A Shares	Class C Shares	Class I Shares
Shareholder Fees (fees paid directly from your investment)			
Maximum Sales Charge (Load) Imposed on Purchases (as a percentage of offering price)	5.00%	None	None
Maximum Deferred Sales Charge (Load) (as a percentage of the lesser of purchase price or redemption proceeds)	1.00%	1.00%	None
Maximum Sales Charge (Load) Imposed on Reinvested Dividends	None	None	None
Redemption Fee	None	None	None
Exchange Fee	None	None	None
Annual Fund Operating Expenses (expenses that you pay each year as a percentage of the value of your investment)			
Management Fees	0.50%	0.50%	0.50%
Distribution and Service (12b-1) Fees	0.50%	1.00%	None
Other Expenses	0.56%	0.56%	0.56%
Total Annual Fund Operating Expenses	1.56%	2.06%	1.06%
Fee Waivers and Expense Reimbursements ⁽¹⁾	(0.06%)	(0.06%)	(0.06%)
Total Annual Fund Operating Expenses After Fee Waivers and Expense Reimbursements ⁽¹⁾	1.50%	2.00%	1.00%

⁽¹⁾ The Fund’s investment adviser, Viking Fund Management, LLC (“Viking Management,” “investment manager,” or the “Adviser”), has contractually agreed to waive fees and reimburse expenses through November 29, 2024 so that Total Annual Fund Operating Expenses After Fee Waivers and Expense Reimbursements (excluding taxes, brokerage fees, commissions, extraordinary and non-recurring expenses, and acquired fund fees and expenses) do not exceed 1.50% of average daily net assets for Class A shares, 2.00% of average daily net assets for Class C shares, and 1.00% of average daily net assets for Class I shares. This expense limitation agreement may only be terminated or modified prior to November 29, 2024 with the approval of the Fund’s Board of Trustees. The terms of the expense limitation agreement provide that Viking Management is entitled to recoup such amounts waived or reimbursed for a period of up to three years from the date on which Viking Management waived fees or reimbursed expenses for the Fund. The Fund will make repayments to the Adviser only if such repayment does not cause the annual Fund operating expenses (after the repayment is taken into account) to exceed both (1) the expense limitation in place when such amounts were waived and (2) the Fund’s current expense limitation.

Example—This example is intended to help you compare the cost of investing in the Fund with the costs of investing in other mutual funds. The example assumes you invest \$10,000 in the Fund for the time periods indicated and then either redeem or do not redeem your shares at the end of a period. The example also assumes that your investment has a 5% return each year, that the Fund’s operating expenses remain the same, and that the contractual expense limitation agreement remains in place for the first year. Although your actual costs may be higher or lower, based on these assumptions your costs would be:

	Redemption			No Redemption
	Class A Shares	Class C Shares	Class I Shares	Class C Shares
1 Year	\$ 645	\$ 303	\$ 102	\$ 203
3 Years	\$ 962	\$ 640	\$ 331	\$ 640
5 Years	\$ 1,302	\$ 1,103	\$ 579	\$ 1,103
10 Years	\$ 2,259	\$ 2,385	\$ 1,289	\$ 2,385

Portfolio Turnover—The Fund pays transaction costs, such as commissions, when it buys and sells securities (or “turns over” its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in annual fund operating expenses or in the Example, affect the Fund’s performance. During the most recent fiscal period, the Fund’s portfolio turnover rate was 41.75% of the average value of its portfolio.

Principal Investment Strategies

Under normal market conditions, the Fund will invest at least 80% of its net assets (plus any borrowings made for investment purposes) in the stock of domestic and foreign issuers that are participating or benefitting from the development of the resources in the Mid-North America area, encompassing the states of Arkansas, Colorado, Illinois, Iowa, Kansas, Louisiana, Minnesota, Mississippi, Missouri,

Montana, Nebraska, New Mexico, North Dakota, Oklahoma, South Dakota, Texas, Wisconsin, and Wyoming; and the Canadian provinces of Alberta, Manitoba, and Saskatchewan (herein referred to as the “Region”). To pursue this strategy, the Fund invests primarily in companies that are (i) headquartered or maintain their principal place of business in the Region, or (ii) during the issuer’s most recent fiscal year, derived at least 50% of their revenues from goods produced or sold, investments made, or services performed in the Region, or (iii) during the issuer’s most recent fiscal year, have at least 50% of their assets in the Region, each as determined at the time of purchase.

The Fund may invest in companies of any size. The companies in which the Fund invests may include smaller companies that have recently commenced operations and do not have significant revenues. The Fund’s investment adviser, Viking Fund Management, LLC (the “Investment Adviser”), will invest a significant amount of the Fund’s assets (although not exclusively) in companies it believes to have investment potential in the natural resources area (primarily energy and to a lesser extent, agribusiness, precious metals, and metals and mining), as well as in the companies that serve these sectors and/or service the Region. In connection with investing in companies engaged in the energy sector, the Fund may invest in companies that engage in hydraulic fracturing (which involves the injection of water, sand and chemicals under pressure into rock formations to stimulate oil or natural gas production). The Fund will invest primarily in the securities of U.S. issuers, but it may also invest in the securities of foreign issuers. The Fund’s investments in the securities of foreign issuers are typically in the form of depositary receipts, such as American Depositary Receipts (“ADRs”).

The Fund’s portfolio management team considers a variety of factors when choosing investments for the Fund such as: (i) identifying companies and industries that appear to have the potential for above-average long-term performance based on projections of supply and demand of a resource and the state of the market; and/or (ii) identifying companies that are expected to show above-average growth over the long term as well as those that appear to be trading below their true worth. The Fund’s portfolio management team may consider selling a security if, among other considerations, its business fundamentals have deteriorated.

Principal Risks

As with all mutual funds, there is the risk that you could lose money through your investment in the Fund. Many factors affect the Fund’s net asset value and performance. An investment in the Fund is not a deposit of a bank and is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency.

Risks of the Energy Sector: The Fund may invest significantly in securities of companies in the energy sector. The energy sector is often cyclical and highly dependent on commodities prices. Securities prices for companies in the energy sector are affected by a variety of factors related to worldwide energy prices, exploration costs, energy conservation efforts and production spending. The performance of these companies and the prices of these securities are subject to changes in currency exchange rates, government regulation, world events and weather, depletion of natural resources and economic conditions, as well as market, economic and political risks of the countries where energy companies are located or do business. The price of oil, natural gas and other fossil fuels could decline significantly and experience significant volatility, and adversely impact companies operating in the energy sector. Further, companies in the energy sector may be at an increased risk of civil liability and environmental damage claims, and are also subject to the risk of loss from terrorism.

Geographic or Regional Risk: The Fund is managed to take advantage of what the Investment Adviser views as unique opportunities within the Region. The geographic limitations of such an approach pose special risks that should be understood by investors. Geographic limitations prevent the Fund from investing in other places where the opportunities may be greater. The economy of the Region may underperform that of other areas, creating a drag on performance relative to more geographically diverse funds. Moreover, the Fund will be more susceptible to events negatively affecting the Region than more geographically diverse funds. The geographic limitation may limit the degree of business diversification of the Fund, thus making returns more volatile than in more geographically diversified investments.

Regulatory Risk: The Fund may invest in companies that are subject to significant federal, state, and local government regulation in virtually every aspect of their operations, including how facilities are constructed, maintained, and operated, environmental and safety controls, and the prices they may charge for the products and services they provide. Various governmental authorities have the power to enforce compliance with these regulations and the permits issued under them, and violators are subject to administrative, civil and criminal penalties, including civil fines, injunctions, or both. Stricter laws, regulations, or enforcement policies could be enacted in the future which would likely increase compliance costs and may adversely affect the operations and financial performance of a significant number of the companies in which the Fund invests.

Risks of Legislation and Regulatory Initiatives Relating to Hydraulic Fracturing: The Fund may invest in companies that engage in hydraulic fracturing. Federal, state, and local legislation and regulatory initiatives relating to hydraulic fracturing (also referred to as “fracking”) could result in increased costs and additional operating restrictions or delays affecting a significant portion of the companies in which the Fund invests. Any federal, state or local laws, implementing regulations or other legal requirements imposing disclosure, regulatory or reporting obligations on, or otherwise limiting, the hydraulic fracturing process, may make it more difficult and expensive to perform hydraulic fracturing, which, for affected companies, could result in limitations on the productive capability of certain oil and gas wells, operational delays, and increased costs of compliance and doing business and, in addition, could adversely affect the value of such companies’ securities.

Risks of the Agribusiness Sector: The Fund may invest in companies involved in agribusiness. Companies involved in agribusiness are subject to numerous risks, including cyclicalities of revenues and earnings, economic recession, currency fluctuations, changing consumer tastes, extensive competition, weather conditions, quotas, product liability litigation, and governmental policies, regulation and subsidies. Generally, agribusiness is affected by the economic health of consumers. A weak economy and its effect on consumer spending would adversely affect agribusiness companies. Other risks of the agribusiness sector include consolidation, domestic and international politics, and excess capacity. In addition, agribusiness companies may be significantly affected by volatility of commodity prices, import controls, liability for environmental damage, depletion of resources, and mandated expenditures for safety and pollution control devices.

General Market Risk: There is no assurance that the Fund will meet its investment objective. The prices of the securities in which the Fund invests may fluctuate as a result of market factors such as interest rates, credit spreads, or commodity prices, and the Fund's share price and the value of your investment may change. Since the value of the Fund's shares can go up or down, it is possible to lose money by investing in the Fund.

Style Risk: The Fund is managed according to an investment strategy that at times reflects either growth or value style investing, and therefore is subject to the risks associated with these styles. One risk is that a growth investing style may fall out of favor with investors for a period of time during which the Fund may underperform other funds that employ a different style. In addition, growth stocks typically are more volatile than value stocks due to their relatively high valuations and sensitivity to investor perceptions of the issuer's growth potential. As a result, the price of a growth stock may experience a larger decline on a forecast of lower earnings or other negative development, than would a value stock. Furthermore, because the value of growth companies is a function of their expected earnings growth, there is a risk that such earnings growth may not occur or cannot be sustained. Value stocks may continue to be undervalued by the market for extended periods, including the entire period during which the stock is held by the Fund. Additionally, the events that the Investment Adviser believed would cause the stock price to increase may not occur as anticipated or at all. Moreover, a stock judged to be undervalued actually may be appropriately priced at a low level.

Sector and Sector Weightings Risk: Market conditions, interest rates, and economic, regulatory, or financial developments could significantly affect a single sector and the securities of companies in that sector could react similarly to these or other developments. Since the Fund invests significantly in relatively few sectors, primarily the energy sector, it has more exposure to the price movements of this sector than funds that diversify their investments among many sectors.

Risks of Foreign Securities (including Depositary Receipts): The Fund may invest in securities of non-U.S. issuers, which have special risks. These risks include international economic and political developments, foreign government actions including restrictions on payments to non-domestic persons such as the Fund, less regulation, less information, currency fluctuations, and interruptions in currency flow. The Fund's investments in foreign securities are typically in the form of sponsored or unsponsored depositary receipts, such as ADRs, which are subject to risks similar to those associated with other foreign securities. In addition, ownership of unsponsored depositary receipts may not entitle the Fund to financial and other reports from the issuer of the underlying security and certain costs related to the receipts that would otherwise be borne by the issuer of a sponsored depositary receipt may be passed through, in whole or in part, to holders of unsponsored receipts. Moreover, investments in depositary receipts may be less liquid and more volatile than the underlying shares in their primary trading market. If a depositary receipt is denominated in a different currency than its underlying securities, the Fund will be subject to the currency risk of both the investment in the depositary receipt and the underlying security. Any distributions paid to the holders of depositary receipts are usually subject to a fee charged by the depositary. Holders of depositary receipts may have limited voting rights, and investment restrictions in certain countries may adversely impact the value of depositary receipts because such restrictions may limit the ability to convert the equity shares into depositary receipts and vice versa. Such restrictions may cause the equity shares of the underlying issuer to trade at a discount or premium to the market price of the depositary receipts.

Liquidity Risk: Certain securities in which the Fund invests may be less readily marketable and may be subject to greater fluctuation in price than other securities. These features may make it more difficult to sell or buy a security at a favorable price or time.

Risks of Investments in Smaller Companies: The securities of mid-capitalization and small-capitalization companies involve greater risks than those associated with larger, more established companies and may be subject to more abrupt or erratic price movements. Securities of such issuers may lack sufficient market liquidity to enable the Fund to effect sales at an advantageous time or without a substantial drop in price. Both mid-capitalization and small-capitalization companies often have narrower markets and more limited managerial and financial resources than more established companies. As a result, their performance can be more volatile and they face greater risk of business failure, which could increase the volatility of the Fund's portfolio. Generally, the smaller the company size, the greater these risks become.

Valuation Risk: The sales price the Fund could receive for any particular portfolio investment may differ from the Fund's valuation of the investment, particularly for securities that trade in thin or volatile markets or that are valued using a fair value methodology.

Cybersecurity Risk: Cybersecurity breaches may allow an unauthorized party to gain access to Fund assets, customer data, or proprietary information, or cause the Fund and/or its service providers to suffer data corruption or lose operational functionality. The Fund's share price may decline as a result of unauthorized actions taken during a security breach or subsequent market activity in response to the security breach.

Fund Performance

The following bar chart and table provide some indication of the risks of investing in the Fund. The Fund's past performance (before and after taxes) is not necessarily an indication of how the Fund will perform in the future. Updated performance information is available at www.integrityvikingfunds.com or by calling 800-276-1262.

Effective as of November 29, 2019, the Fund changed its name from the Williston Basin/Mid-North America Stock Fund to the Integrity Mid-North American Resources Fund. Effective November 10, 2008, the Fund changed its name from the Integrity Small Cap Growth Fund to the Williston Basin/Mid-North America Stock Fund, and the Fund's principal investment strategies were also changed significantly. With respect to periods prior to November 10, 2008, the performance figures included reflect the performance of the Fund prior to these changes.

Since August 1, 2009, the Fund has been managed by Viking Fund Management, LLC. The results from September 19, 2003 until July 31, 2009 were achieved while the Fund was managed by Integrity Money Management, Inc.

The bar chart below shows the variability of the Fund's performance from year to year for Class A shares. The bar chart and highest/lowest quarterly returns that follow do not reflect sales charges, and if these charges were reflected, the returns would be less than those shown.

During the ten-year period shown in the bar chart, the highest return for a quarter was 35.51% (quarter ended December 31, 2020) and the lowest return for a quarter was -50.28% (quarter ended March 31, 2020). The Fund's calendar year-to-date total return as of September 30, 2023 was 1.14%.

The table below shows the Fund's average annual total returns for 1, 5, and 10 years for Class A shares, and for 1 year, 5 years, and since inception for Class C and Class I shares, and how they compare with those of a broad measure of market performance as well as a more specialized index comprised of companies included in the S&P Composite 1500 that are members of the energy sector. The return information below reflects applicable sales charges. After-tax returns are calculated using the historical highest individual federal marginal income tax rates and do not reflect the impact of any state and local taxes. After-tax returns are shown for Class A shares only; after-tax returns for Class C and Class I shares will vary. Actual after-tax returns depend on an investor's tax situation and may differ from those shown, and after-tax returns shown are not relevant to investors who hold their Fund shares through tax-advantaged arrangements, such as 401(k) plans or individual retirement accounts ("IRAs").

Average Annual Total Returns
(for the periods ended December 31, 2022)

	<u>1 Year</u>	<u>5 Years</u>	<u>10 Years</u>	<u>Since Inception</u>
Class A				
Return Before Taxes	22.48%	-0.56%	0.81%	—
Return After Taxes on Distributions	22.43%	-0.66%	0.47%	—
Return After Taxes on Distributions and Sale of Fund Shares	17.43%	-0.29%	0.66%	—
Class C (inception date: May 1, 2014)				
Return Before Taxes	27.31%	-0.07%	—	-3.10%
Class I (inception date: August 1, 2016)				
Return Before Taxes	29.83%	0.94%	—	3.23%
S&P Composite 1500® TR Index⁽¹⁾ (reflects no deduction for fees, expenses, or taxes)	-17.78%	9.15%	12.40%	10.45% (Class C) 11.09% (Class I)
S&P Composite 1500® Energy TR Index⁽²⁾ (reflects no deduction for fees, expenses, or taxes)	63.77%	8.35%	5.16%	2.59% (Class C) 8.63% (Class I)

⁽¹⁾ The S&P Composite 1500® TR Index is an index that combines three mutually exclusive leading indices: the S&P 500, the S&P Midcap 400 and the S&P SmallCap 600. This index is a broad measure of the investable U.S. equity market.

⁽²⁾ The S&P Composite 1500® Energy TR Index comprises those companies included in the S&P Composite 1500® TR Index that are classified as members of the GICS® energy sector.

Management

Investment Adviser—Viking Fund Management, LLC is the Fund’s investment adviser.

Portfolio Managers—Shannon D. Radke, Senior Portfolio Manager and President of Viking Fund Management, LLC, has served as the Fund’s portfolio manager since February 2010. Michael Morey, Portfolio Manager, has served as the Fund’s portfolio manager since May 2013.

Purchase and Sale of Fund Shares

You may purchase, redeem, or exchange shares of the Fund on any day the New York Stock Exchange is open for business. You may purchase, redeem, or exchange shares of the Fund either through a financial advisor or directly from the Fund.

The minimum initial purchase or exchange into the Fund is \$1,000 (\$50 for accounts opened through an automatic investment plan account and \$250 for an IRA account). The minimum subsequent investment is \$50. The Fund may, however, accept investments of smaller initial or subsequent amounts at its discretion. Class I shares are not available for IRAs or employer sponsored IRAs, unless purchased through a fee-based advisory account with a financial intermediary. You may contact the Fund’s transfer agent, Integrity Fund Services, LLC, by mail at PO Box 759, Minot, ND 58702, or by calling 800-601-5593.

Tax Information

The Fund’s distributions will generally be taxed as ordinary income or capital gains, unless you are investing through a tax-advantaged arrangement, such as a 401(k) plan or an IRA. Such tax-advantaged arrangements may be taxed later upon a withdrawal from those arrangements.

Payments to Broker-Dealers and Other Financial Intermediaries

If you purchase the Fund through a broker-dealer or other financial intermediary (such as a bank), the Fund and its related companies may pay the intermediary for the sale of Fund shares and related services. These payments may create a conflict of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend the Fund over another investment. Ask your salesperson or visit your financial intermediary’s Web site for more information.

INTEGRITY SHORT TERM GOVERNMENT FUND—FUND SUMMARY

Investment Objective

The Integrity Short Term Government Fund (the “Fund”) seeks to achieve a high and stable rate of total return, when and as opportunities are available in the context of preserving capital in adverse markets.

Fees and Expenses of the Fund

This table describes the fees and expenses that you may pay if you buy, hold, and sell shares of the Fund. **You may pay other fees, such as brokerage commissions and other fees to financial intermediaries, which are not reflected in the tables and examples below.** You may qualify for sales charge discounts with respect to purchases of Class A shares of the Fund if you and your family invest, or agree to invest in the future, at least \$50,000 in the Fund or in other funds in the Integrity/Viking family of funds. More information about these and other discounts is available from your financial professional and in “The Shares Offered; Class A Shares” and “How to Reduce Your Sales Charge” on page 44 and 47, respectively, of the Fund’s prospectus, Appendix A of the Fund’s prospectus, and “Purchase and Redemption of Shares” on page B-51 of the Fund’s statement of additional information.

	Class A Shares	Class I Shares
Shareholder Fees (fees paid directly from your investment)		
Maximum Sales Charge (Load) Imposed on Purchases (as a percentage of offering price)	2.00%	None
Maximum Deferred Sales Charge (Load) (as a percentage of the lesser of purchase price or redemption proceeds)	None	None
Maximum Sales Charge (Load) Imposed on Reinvested Dividends	None	None
Redemption Fee	None	None
Exchange Fee	None	None
Annual Fund Operating Expenses (expenses that you pay each year as a percentage of the value of your investment)		
Management Fees	0.30%	0.30%
Distribution and Service (12b-1) Fees	0.25%	None
Other Expenses	0.78%	0.78%
Acquired Fund Fees and Expenses	0.01%	0.01%
Total Annual Fund Operating Expenses ⁽¹⁾	1.34%	1.09%
Fee Waivers and Expense Reimbursements ⁽²⁾	(0.53%)	(0.53%)
Total Annual Fund Operating Expenses After Fee Waivers and Expense Reimbursements ⁽²⁾	0.81%	0.56%

⁽¹⁾ Acquired Fund Fees and Expenses are expenses indirectly incurred by the Fund through its investments in one or more underlying funds, including money market funds. Because these costs are indirect, the Total Annual Fund Operating Expenses do not correlate to the ratios of expenses to average net assets in the Fund’s most recent annual report.

⁽²⁾ The Fund’s investment adviser, Viking Fund Management, LLC (“Viking Management,” “investment manager,” or the “Adviser”), has contractually agreed to waive fees and reimburse expenses through November 29, 2024, so that Total Annual Fund Operating Expenses After Fee Waivers and Expense Reimbursements (excluding taxes, brokerage fees, commissions, extraordinary and non-recurring expenses, and acquired fund fees and expenses) do not exceed 0.80% of average daily net assets for Class A shares and 0.55% of average daily net assets for Class I shares. This expense limitation agreement may only be terminated or modified prior to November 29, 2024, with the approval of the Fund’s Board of Trustees. Viking Management may recoup such amounts waived or reimbursed for a period of up to three years from the date of the reimbursement or waiver. The Fund will make repayments to the Adviser only if such repayment does not cause the annual Fund operating expenses (after the repayment is taken into account) to exceed both (1) the expense limitation in place when such amounts were waived or reimbursed and (2) the Fund’s current expense limitation. Any similar amounts waived or reimbursed under an agreement for the benefit of the Predecessor Fund prior to the date of the Reorganization are not eligible for repayment.

Example—This example is intended to help you compare the cost of investing in the Fund with the costs of investing in other mutual funds. The example assumes you invest \$10,000 in the Fund for the time periods indicated and then either redeem or do not redeem your shares at the end of a period. The example also assumes that your investment has a 5% return each year, that the Fund’s operating expenses remain the same, and that the contractual expense limitation agreement remains in place for the first year. Although your actual costs may be higher or lower, based on these assumptions your costs would be:

	Class A Shares	Class I Shares
1 Year	\$ 280	\$ 56
3 Years	\$ 562	\$ 291
5 Years	\$ 864	\$ 544
10 Years	\$ 1,724	\$ 1,269

Portfolio Turnover— The Fund pays transaction costs, such as commissions, when it buys and sells securities (or “turns over” its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in annual fund operating expenses or in the Example, affect the Fund’s performance. During the most recent fiscal period, the Fund’s portfolio turnover rate was 60.63% of the average value of its portfolio.

Principal Investment Strategies

To achieve its investment objective, the Fund invests at least 95% of its assets in U.S. Government and agency mortgage-backed securities (“MBS”) and other securities issued or guaranteed by the U.S. Government, its agencies or instrumentalities (including Ginnie Mae, Fannie Mae and Freddie Mac, as defined below), and collateralized mortgage obligations (“CMOs”), backed by U.S. Government and agency MBS. Some of the Fund’s investments may be backed by the full faith and credit of the U.S. Government, while others may be supported only by the discretionary authority of the U.S. Government or only by the credit of the issuing agency or instrumentality.

Under normal market conditions, the target dollar-weighted average effective duration for the Fund is expected to range between one and three years. Duration is a measure of a fixed income security’s price sensitivity to changes in interest rates. Duration takes into account a security’s cash flows over time, including the possibility that a security might be prepaid by the issuer or redeemed by the holder prior to its stated maturity date. In contrast, maturity measures only the time until final payment is due. The duration of the Fund’s portfolio is expressed in years and measures the portfolio’s change in value for changes in interest rates. The Fund may also invest in U.S. Treasury bills. The securities held by the Fund may be fixed or variable rate obligations. The Fund may also purchase securities on a when-issued or delayed-delivery basis.

To construct the Fund’s investment portfolio, the Fund’s investment sub-adviser, M.D. Sass, LLC (“M.D. Sass” or “Sub-Adviser”), utilizes a process based on rigorous quantitative tests. These tests include projecting underlying mortgage prepayment rates under a variety of interest rate scenarios and demographic trends, with regard to any given security’s sensitivity to cash flow risk. The nature of such testing is to measure homeowner refinancing/prepayment behavior, relative to mortgage rate changes, and other factors influencing such behavior. The Sub-Adviser’s process is primarily structured to create value through intensive (i.e. bottom-up) security selection, portfolio construction and relative value trading. Top-down macro issues and factors are incorporated into the process when considered by the Sub-Adviser to be appropriate.

The Sub-Adviser may sell a security if its value becomes unattractive, such as when its fundamentals deteriorate, or when other investment opportunities exist that may have more attractive yields. The Fund may engage in frequent and active trading of securities as a part of its principal investment strategy.

Principal Risks

As with all mutual funds, there is the risk that you could lose money through your investment in the Fund. Many factors affect the Fund’s net asset value and performance. An investment in the Fund is not a deposit of a bank and is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency.

Risks of U.S. Government Securities: Securities issued by U.S. Government agencies and instrumentalities have different levels of U.S. Government credit support. Some are backed by the full faith and credit of the U.S. Government, while others are supported by only the discretionary authority of the U.S. Government or only by the credit of the agency or instrumentality. No assurance can be given that the U.S. Government will provide financial support to U.S. Government-sponsored instrumentalities because they are not obligated to do so by law. Guarantees of timely prepayment of principal and interest do not assure that the market prices and yields of the securities are guaranteed nor do they guarantee the net asset value or performance of the Fund, which will vary with changes in interest rates and other market conditions.

Mortgage-Backed Securities Risks:

Prepayment Risk of Mortgage-Backed Securities. In times of declining interest rates, the Fund’s higher yielding securities are more likely to be prepaid and the Fund will have to replace them with securities having a lower yield.

Extension Risk of Mortgage-Backed Securities. In times of rising interest rates, mortgage prepayments will slow causing portfolio securities considered short or intermediate term to be long-term securities which fluctuate more widely in response to changes in interest rates than shorter term securities.

Credit Risk: Credit risk is the risk that the credit strength of an issuer will weaken and/or an issuer of a security will fail to pay principal and interest in a timely manner, reducing the Fund’s total return. Changes in an issuer’s financial strength or in a security’s credit rating may affect its value.

Interest Rate Risk: Interest rate risk is the risk that debt securities will decline in value because of changes in interest rates. As nominal interest rates rise, the value of certain debt securities held by the Fund is likely to decrease. Debt securities with longer durations tend to be more sensitive to changes in interest rates, usually making them more volatile than securities with shorter durations.

Income Risk: Income risk is the risk that the income from the Fund’s portfolio will decline because of falling market interest rates. This can result when the Fund invests the proceeds from new share sales, or from matured or called bonds, at market interest rates that are below the portfolio’s current earnings rate.

Variable Rate Securities Risk: Variable rate securities pay interest at rates that reset periodically (typically, daily, monthly, quarterly, or semi-annually) in response to changes in the market rate of interest on which the interest rate is based. Variable rate securities generally are less price sensitive to interest rate changes than fixed rate debt securities. When interest rates fall, there may be a reduction in the payments of interest received by the Fund from its variable rate securities.

When-Issued Securities Risk: There is a risk that the price or yield obtained in a when-issued transaction may be less favorable than the price or yield available in the market when the security is delivered, or that failure of a party to a transaction to consummate the trade may result in a loss to the Fund or missed opportunity to obtain a price considered advantageous.

Liquidity Risk: Certain securities in which the Fund invests may be less readily marketable and may be subject to greater fluctuation in price than other securities. These features may make it more difficult to sell or buy a security at a favorable price or time.

General Market Risk: There is no assurance that the Fund will meet its investment objective. The prices of the securities in which the Fund invests may fluctuate and the Fund’s share price and the value of your investment may change. Since the value of the Fund’s shares can go up or down, it is possible to lose money by investing in the Fund. The value of a security or other asset may decline due to changes in general market conditions, economic trends or events that are not specifically related to the issuer of the security, including factors that affect certain countries, regions, markets, or sectors to which the issuer is not directly exposed. Local, regional or global events such as war, acts of terrorism, the spread of infectious illness or other public health issues, recessions, or other events could have a significant impact on the Fund and its investments.

Management Risk: The ability of the Fund to meet its investment objective is directly related to the effectiveness of the sub-adviser’s research, analysis and asset allocation among portfolio securities. If the sub-adviser’s investment strategies do not produce the expected results, the value of your investment could be diminished or even lost entirely.

High Portfolio Turnover Risk: High portfolio turnover may result in increased transaction costs to the Fund and realization of substantial capital gains, including short-term capital gains (which are generally taxed as ordinary income for federal income tax purposes). As a result, high portfolio turnover may adversely affect Fund performance.

Valuation Risk: The sales price the Fund could receive for any particular portfolio investment may differ from the Fund’s valuation of the investment, particularly for securities that trade in thin or volatile markets or that are valued using a fair value methodology.

Cybersecurity Risk: Cybersecurity breaches may allow an unauthorized party to gain access to Fund assets, customer data, or proprietary information, or cause the Fund and/or its service providers to suffer data corruption or lose operational functionality. The Fund’s share price may decline as a result of unauthorized actions taken during a security breach or subsequent market activity in response to the security breach.

Fund Performance

As a result of the reorganization of the M.D. Sass Short Term U.S. Government Agency Income Fund (the “Predecessor Fund”) into Class I of the Fund on January 17, 2020 (the “Reorganization”), the performance and accounting history of the Predecessor Fund was assumed by Class I shares of the Fund. The performance information of Class I shares prior to completion of the Reorganization is that of the Predecessor Fund’s Institutional Class shares.

The following bar chart and table provide some indication of the risks of investing in the Fund by showing changes in the performance of the Fund’s Class I shares from calendar year to calendar year and by showing how the average annual total returns for 1, 5, and 10 years for Class I shares, and for 1 year and since inception for Class A shares, and how they compare with those of a broad measure of market performance.

During the periods shown in the bar chart, the highest return for a quarter was 3.90% (quarter ended January 31, 2023) and the lowest return for a quarter was -5.73% (quarter ended October 31, 2022). The year-to-date return of the Fund's Class I shares through September 30, 2023 is 1.12%.

Average Annual Total Returns
(for the periods ended December 31, 2022)

	<u>1 Year</u>	<u>5 Years</u>	<u>10 Years</u>	<u>Since Inception</u>
Class I (inception date: June 30, 2011)				
Return Before Taxes	-6.92%	0.06%	0.31%	—
Return After Taxes on Distributions	-7.37%	-1.14%	-0.76%	—
Return After Taxes on Distributions and Sale of Fund Shares	-5.44%	-0.43%	-0.21%	—
Class A (inception date: January 17, 2020)				
Return Before Taxes	-8.94%	—	—	-2.76%
Bank of America/Merrill Lynch 1-3 Year U.S. Treasury Index ⁽¹⁾ (reflects no deduction for fees, expenses, or taxes)	-3.65%	0.77%	0.67%	-1.29% (Class A)

⁽¹⁾ The Bank of America Merrill Lynch 1-3 Year U.S. Treasury Index is composed of U.S. Treasury notes and bonds with maturities greater than or equal to one year and less than three years.

After-tax returns are calculated using the historical highest individual federal marginal income tax rates and do not reflect the impact of any state and local taxes. After-tax returns are shown for Class I shares only; after-tax returns for Class A shares will vary. Actual after-tax returns depend on an investor's tax situation and may differ from those shown here, and after-tax returns shown are not relevant to investors who hold their Fund shares through tax-advantaged arrangements, such as 401(k) plans or individual retirement accounts ("IRAs").

The Fund's past performance (before and after taxes) is not necessarily an indication of how the Fund will perform in the future. Updated performance information is available at www.integrityvikingfunds.com or by calling 800-276-1262.

Management

Investment Adviser—Viking Fund Management, LLC is the Fund's investment adviser.

Investment Sub-Adviser—M.D. Sass, LLC (previously defined as "M.D. Sass") is the Fund's investment sub-adviser.

Portfolio Managers—Mr. Lipkee Lu, CFA, Director of Fixed Income Investments of M.D. Sass, has served as portfolio manager (including the Predecessor Fund) since June 2011. Steve Clancy, CFA, Managing Director, Fixed Income of M.D. Sass, has served as portfolio manager (including the Predecessor Fund) since September 2012. Nancy Persoons, Senior Vice President, Fixed Income of M.D. Sass, has served as portfolio manager (including the Predecessor Fund) since June 2011.

Purchase and Sale of Fund Shares

You may purchase, redeem, or exchange shares of the Fund on any day the New York Stock Exchange is open for business. You may purchase, redeem, or exchange shares of the Fund either through a financial advisor or directly from the Fund.

The minimum initial purchase or exchange into the Fund is \$1,000 (\$50 for accounts opened through an automatic investment plan account and \$250 for an IRA account). The minimum subsequent investment is \$50. The Fund may, however, accept investments of smaller initial or subsequent amounts at its discretion. Class I shares are not available for IRAs or employer sponsored IRAs, unless purchased through a fee-based advisory account with a financial intermediary. You may contact the Fund's transfer agent, Integrity Fund Services, LLC, by mail at PO Box 759, Minot, ND 58702, or by calling 800-601-5593.

Tax Information

The Fund's distributions will generally be taxed as ordinary income or capital gains, unless you are investing through a tax-advantaged arrangement, such as a 401(k) plan or an IRA. Such tax-advantaged arrangements may be taxed later upon a withdrawal from those arrangements.

Payments to Broker-Dealers and Other Financial Intermediaries

If you purchase the Fund through a broker-dealer or other financial intermediary (such as a bank), the Fund and its related companies may pay the intermediary for the sale of Fund shares and related services. These payments may create a conflict of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend the Fund over another investment. Ask your salesperson or visit your financial intermediary's Web site for more information.

ADDITIONAL INFORMATION—INVESTMENT OBJECTIVES, PRINCIPAL INVESTMENT STRATEGIES, AND RELATED RISKS

The Integrity Dividend Harvest Fund (“Dividend Harvest Fund”), Integrity Dividend Summit Fund (“Dividend Summit Fund”), Integrity Growth & Income Fund (“Growth & Income Fund”), Integrity High Income Fund (“High Income Fund”), Integrity Mid-North American Resources Fund (the “MNA Resources Fund”), and Integrity Short Term Government Fund (“Short Term Government Fund”) are each referred to separately as a “Fund” and collectively as the “Funds.”

Investment Objectives

Each Fund’s investment objective or objectives are non-fundamental, which means the objective or objectives may be changed without shareholder vote. Shareholders would be given at least 60 days’ notice prior to any such change.

Additional Information about the Funds’ Principal Investment Strategies

Dividend Harvest Fund:

To pursue its objective, the Fund normally invests at least 80% of its net assets, plus the amount of any borrowings for investment purposes, in dividend-paying equity securities, including common stock and preferred stock, of companies. In addition, under normal market conditions, the Fund invests at least 65% of its net assets in equity securities that have consistently increased dividends for a period of at least 10 years. In determining whether a company has increased its dividend for a period of at least 10 years, the Fund’s Portfolio Management Team (“Team”) will account for the effect of any stock splits or spin-offs and exclude special dividends.

Although the investment process results in the Fund holding primarily large-cap companies, the Fund may invest in companies of any size. In selecting securities, the Team considers a combination of factors, including, but not limited to, dividend yield, dividend growth rate, earnings growth, price-to-earnings (P/E) multiples, valuation, credit rating, balance sheet strength, and volatility. The Team emphasizes dividend yield in selecting stocks for the Fund because the Team believes that, over time, dividend income can contribute significantly to total return and is a more consistent source of investment return than capital appreciation.

While the Fund does not concentrate in any one industry, from time to time, based on economic conditions, it may make significant investments in certain sectors.

The Fund may invest up to 30% of its net assets in foreign equity securities, including common stock and preferred stock.

The Team may consider selling a security if, among other considerations, its business fundamentals have deteriorated or if it fails to raise its dividend.

Dividend Summit Fund:

To pursue its objective, the Fund normally invests at least 80% of its net assets, plus the amount of any borrowings for investment purposes, in dividend-paying equity securities, including common stock and preferred stock. For the purpose of this policy, the Fund considers dividend-paying equity securities are to be common or preferred stock of a company that has paid a dividend in the current or preceding calendar year or has announced a dividend in the current calendar year. In addition, under normal conditions, the Fund invests at least 65% of its net assets in equity securities that pay current dividends at a rate (yield) at least double that of the current yield S&P 500.

Although the investment process results in the Fund holding primarily large-cap companies, the Fund may invest in companies of any size. In selecting securities, the Fund’s portfolio management team (“Team”) considers a combination of factors, including, but not limited to, dividend yield, dividend growth rate, earnings growth, price-to-earnings (P/E) multiples, valuation, credit rating, balance sheet strength, and volatility. The Team emphasizes dividend yield in selecting stocks for the Fund as income is the primary objective of the of the Fund and the Team believes that, over time, dividend income can contribute significantly to total return and is a more consistent source of investment return than capital appreciation. The Team will primarily seek companies whose dividends are deemed qualified for federal income tax purposes and meet the criteria to be taxed at capital gains tax rates, which are lower than income tax rates for some taxpayers. In addition to its emphasis on income, the Team seeks companies with strong balance sheets and potential for earnings growth in an effort to achieve long term appreciation as a secondary objective.

In determining whether to invest in common or preferred stock, the Team will consider a number of factors including macroeconomic and market outlook. The Team will generally favor common stock as it may provide greater potential for capital appreciation. Although the Team will invest in both value and growth stocks, it will emphasize value stocks as they generally pay higher dividends than growth stocks.

While the Fund does not concentrate in any one industry, from time to time, it may make significant investments in certain economic sectors as a result of the investment process. The Team's macroeconomic and market outlook will drive sector selection.

The Fund may invest up to 30% of its net assets in foreign equity securities, including common stock and preferred stock. The Team's macroeconomic and market outlook, along with geographic location and other factors, will drive the Adviser's selection of and allocation among foreign securities.

The Team may consider selling a security if, among other considerations, its business fundamentals have deteriorated.

Growth & Income Fund:

Under normal conditions, the Fund is managed using a blended growth and income investment strategy. The Fund seeks to invest primarily in domestic common stocks, balancing its investments between growth and dividend-paying stocks, depending on where value is in the stock market. The Fund may also invest in stocks that are currently not paying dividends, but offer prospects for future income or capital appreciation.

The Fund may invest in companies of any size. The Investment Adviser makes its investment decisions utilizing a top-down approach which focuses on sector weightings given the Investment Adviser's broader economic and market outlook. Individual companies are then selected by considering a number of factors that may include, but are not limited to, revenue growth, earnings growth rate, dividend yield, cash flow growth rate, price-to-earnings (P/E) multiples and price-to-cash flow (P/CF) multiples, strength of balance sheet, and price momentum. Subject to its attention to responsible investment criteria described below, the Fund is not constrained by investments in any particular segment of the stock market.

As described below, the Investment Adviser seeks to emphasize companies that it believes both offer attractive investment opportunities and demonstrate a positive awareness of their impact on the society in which they operate.

Responsible Investment Criteria

Potential investments for the Fund are selected for both financial soundness and according to the Fund's responsible investment criteria. The Investment Adviser seeks to emphasize companies that it believes offer both attractive investment opportunities and exhibit positive awareness of their impact on society. Factors considered may include:

- fairness of employment policies and labor relations;
- involvement in the community;
- efforts and strategies to minimize the negative impact of business activities and products on the environment and to embrace alternatives to reduce polluting and unnecessary animal suffering; and
- management and board governance.

In addition, the Investment Adviser does not intend to invest in companies that it believes derive material revenue from gambling, firearms, pornography, or from the production of alcohol or tobacco.

As a component of the selection process, the Investment Adviser considers whether a company that meets the Fund's financial investment criteria also demonstrates awareness of the impact of such company's products, services, or methods of doing business.

Although the Investment Adviser seeks to invest the Fund's assets according to the Fund's responsible investment criteria, no assurances can be made that a company in which the Fund invests will meet such criteria. The Fund's portfolio management team will consider selling a security if, among other considerations, its business fundamentals have deteriorated.

High Income Fund:

The Fund invests in a group of low-quality, high-risk, high yield corporate debt obligations. As the name implies, corporate debt obligations (usually called bonds) represent loans by an investor to a corporation. Under normal circumstances, at least 80% of the Fund's net assets (plus any borrowings made for investment purposes) will be invested in corporate bonds rated Baa by Moody's Investors Service, Inc. ("Moody's") or BBB by S&P Global Ratings ("S&P") or lower. As a result, this includes high yield/lower-rated debt securities (also known as "junk" bonds) that are rated by an independent rating agency to be non-investment grade (e.g., BB or lower by S&P or Ba or lower by Moody's). Because of their low credit quality, these securities typically pay higher interest rates to compensate investors for the substantial credit risk they assume. The Fund may also invest in corporate issues that have defaulted. In addition, the Fund may invest in Rule 144A securities, which are generally privately placed securities purchased by qualified institutional buyers. While there are no restrictions on maturity, the Fund generally holds an average maturity of less than ten years. Capital appreciation is derived from selling bonds above the purchase price.

To select the securities in which to invest, the Fund's sub-adviser conducts fundamental credit research on each issuer. The Fund will buy securities that are attractively priced relative to current and expected fundamentals. The Fund's portfolio management team may consider selling a security if, among other considerations, its business fundamentals have deteriorated.

MNA Resources Fund:

Under normal market conditions, the Fund will invest at least 80% of its net assets (plus any borrowings made for investment purposes) in the stock of domestic and foreign issuers that are participating or benefitting from the development of the resources in the Mid-North America area, encompassing the states of Arkansas, Colorado, Illinois, Iowa, Kansas, Louisiana, Minnesota, Mississippi, Missouri, Montana, Nebraska, New Mexico, North Dakota, Oklahoma, South Dakota, Texas, Wisconsin, and Wyoming; and the Canadian provinces of Alberta, Manitoba, and Saskatchewan (herein referred to as the “Region”). To pursue this strategy, the Fund invests primarily in companies that are (i) headquartered or maintain their principal place of business in the Region, or (ii) during the issuer’s most recent fiscal year, derived at least 50% of their revenues from goods produced or sold, investments made, or services performed in the Region, or (iii) during the issuer’s most recent fiscal year, have at least 50% of their assets in the Region, each as determined at the time of purchase.

The Fund may invest in companies of any size. The companies in which the Fund invests may include smaller companies that have recently commenced operations and do not have significant revenues. Viking Fund Management, LLC (“Viking Management” or the “Investment Adviser” or the “Adviser”) will invest a significant amount of the Fund’s assets (although not exclusively) in companies it believes to have investment potential in the natural resources area (primarily energy and to a lesser extent, agribusiness, precious metals, and metal and mining), as well as in the companies that serve these sectors and/or service the Region. In connection with investing in companies engaged in the energy sector, the Fund may invest in companies that engage in hydraulic fracturing (which involves the injection of water, sand, and chemicals under pressure into rock formations to stimulate oil or natural gas production). Current income will not be a factor in selecting investments for the Fund. The Fund will invest primarily in the securities of U.S. issuers but it may also invest in the securities of foreign issuers. The Fund’s investments in the securities of foreign issuers are typically in the form of depositary receipts, such as American Depositary Receipts (“ADRs”).

The focus of the Fund is based on the Investment Adviser’s expectation that increased global development (especially in developing economies such as Brazil, Russia, India, China, southeastern Asia, and eastern Europe) will create long term supply-demand imbalances in globally fungible natural resources such as fossil fuels, metals and non-metals mining, and agricultural products. The Investment Adviser believes that shortages in all these areas may drive up prices, and therefore profits, of the companies involved.

The Fund’s portfolio management team considers a variety of factors when choosing investments for the Fund such as: (i) identifying companies and industries that appear to have the potential for above-average long-term performance based on projections of supply and demand of a resource and the state of the market; and/or (ii) identifying companies that are expected to show above-average growth over the long term as well as those that appear to be trading below their true worth. The Fund’s portfolio management team may consider selling a security if, among other considerations, its business fundamentals have deteriorated.

Short Term Government Fund:

Investments in U.S. Government and Agency Securities; Mortgage-Backed Securities. To achieve its investment objective, the Fund invests at least 95% of its assets in U.S. Government and agency MBS and other securities issued or guaranteed by the U.S. Government, its agencies or instrumentalities (including Ginnie Mae, Fannie Mae and Freddie Mac). MBS represent direct or indirect participations in, or are secured by and payable from, mortgage loans secured by real property, and include single- and multi-class pass-through securities and CMOs. Such securities may be backed by the full faith and credit of the U.S. Government, such as the Government National Mortgage Association, commonly known as “Ginnie Mae,” while other such securities may be supported only by the discretionary authority of the U.S. Government, such as the Federal National Mortgage Association, commonly known as “Fannie Mae,” and the Federal Home Loan Mortgage Corporation, commonly known as “Freddie Mac.” Moreover, other such securities may only be supported by the credit of the issuing agency or instrumentality. U.S. Government obligations include securities issued or guaranteed as to principal and interest by the U.S. Government. U.S. Treasury obligations differ mainly in the length of their maturity. Treasury bills, the most frequently issued marketable government securities, have a maturity of up to one year and are issued on a discount basis.

MBS are subject to variability of cash flows or maturity uncertainty. This derives from homeowners’ options in timing the repayment of their mortgage debt. Many MBS differ in their vulnerability to this degree of maturity uncertainty. The Fund will seek to invest in MBS with relatively limited degrees of cash flow volatility and, thereby, typically have a relatively stable value in volatile markets. M.D. Sass believes that a focus on U.S. Government and U.S. Government agency securities will provide the Fund with a high credit quality profile that historically has had benefits in turbulent market dislocations.

To construct the Fund’s investment portfolio, M.D. Sass utilizes a process based on rigorous quantitative tests. These tests include projecting underlying mortgage prepayment rates under a variety of interest rate scenarios and demographic trends, with regard to any given security’s sensitivity to cash flow risk. The nature of such testing is to measure homeowner refinancing/prepayment behavior, relative to mortgage rate changes, and other factors influencing such behavior. M.D. Sass’ process is primarily structured to create value through intensive (i.e. bottom-up) security selection, portfolio construction and relative value trading. Top-down macro issues and factors are incorporated into the process when considered by M.D. Sass to be appropriate. M.D. Sass may sell a security if its value becomes unattractive, such as when its fundamentals deteriorate, or when other investment opportunities exist that may have more attractive yields.

Duration. Duration is a measure of a fixed income security’s price sensitivity to changes in interest rates. Duration takes into account a security’s cash flows over time, including the possibility that a security might be prepaid by the issuer or redeemed by the holder prior to its stated maturity date. In contrast, maturity measures only the time until final payment is due, and does not take into account a

security's cash flow over time. The duration of the Fund's portfolio is expressed in years and measures the portfolio's change in value for changes in interest rates. Given the Fund's one to three year duration target, it is estimated that a 1% change in the general level of interest rates will generate a 1% to 3% change in the market value of the Fund's holdings. For example, if interest rates decline by 1%, the market value of a portfolio with a duration of two years would rise by approximately 2% and conversely, if interest rates increase by 1%, the market value of the portfolio would decline by approximately 2%. (Note that this does not include the income earned during the period of increasing or decreasing interest rates).

Variable and Floating Rate Obligations. Certain of the obligations in which the Fund may invest may be variable or floating rate obligations in which the interest rate is adjusted either at predesignated periodic intervals (variable rate) or when there is a change in the index rate of interest on which the interest rate payable on the obligation is based (floating rate). The Fund determines the maturity of variable or floating rate instruments in accordance with Securities and Exchange Commission ("SEC") rules that allow the Fund to consider certain of such instruments as having maturities that are less than the maturity date on the face of the instrument.

When-Issued Securities. The Fund may purchase securities on a when-issued or delayed-delivery basis. The Fund may purchase securities in this manner in order to secure an advantageous price and yield, but the value of the security could change before settlement. Therefore, although the Fund will make such commitments only with the intention of actually acquiring the securities, it may sell the securities before settlement if it is deemed advisable for investment reasons.

Temporary Defensive Positions, Cash Management Investments, and Certain Other Investments

Each Fund may, from time to time, take temporary defensive positions that are inconsistent with its principal investment strategies in order to respond to adverse market, economic, political, or other unfavorable conditions. Under these circumstances, the Fund may invest a substantial portion of its assets in money market mutual funds, high quality short-term fixed income securities, and money market instruments that include: commercial paper, certificates of deposit, repurchase agreements, bankers' acceptances, and U.S. government securities. During such times, the Fund may be unable to pursue its investment objective, and such positions could reduce the benefit from any upswing in the market. In addition, each Fund may, from time to time, invest in shares of money market mutual funds and/or high quality short-term fixed income securities without any percentage limitation for cash management purposes to keep cash on hand fully invested.

Each Fund may invest in other investment companies to the extent permitted by federal law and any exemptions granted by the Securities and Exchange Commission upon which the Fund may rely.

Each Fund other than the Dividend Harvest Fund and Dividend Summit Fund may enter into certain hedging transactions. Hedging is a means of seeking to transfer risk that an investor does not wish to assume during an uncertain market environment. The Funds (other than the Dividend Harvest Fund and Dividend Summit Fund) are permitted to enter into these transactions solely (i) to hedge against changes in the market value of portfolio securities and against changes in the market value of securities intended to be purchased; (ii) to close out or offset existing positions; or (iii) for the High Income Fund, to manage the portfolio's duration. The instruments used to implement these strategies may include, among other things, financial futures contracts and options on financial futures. No Fund will invest in financial futures contracts or options on financial futures as part of its principal investment strategies.

Growth & Income Fund:

In addition to its principal investment strategies described above, the Growth & Income Fund may from time to time engage in active and frequent trading of its portfolio securities.

High Income Fund:

In addition to its principal investment strategies described above, the High Income Fund may also invest in various other securities, which may include:

Convertible securities: Bonds or preferred stocks that are convertible into, or exchangeable for, common stocks are known as convertible securities.

Preferred stocks: Preferred stock is corporate stock that pays set dividends to its holders. Preferred stock has a superior claim on the issuer's income and assets relative to common stock but a lower claim on assets than corporate bondholders.

Asset-backed securities: Asset-backed securities are generally securities issued by trusts and special purpose entities that are backed by pools of assets, which pass through the payments on the underlying securities to the security holders (less servicing fees paid to the originator or fees for any credit enhancement).

Collateralized mortgage obligations: Collateralized mortgage obligations ("CMOs") are securities that are collateralized by mortgages or mortgage pass-through securities. When CMOs are created, the rights to receive principal and interest payments on the underlying mortgages are divided up to create short, intermediate and long-term CMO bonds. These rights are delegated and divided among the various maturity structures of the CMOs based

on assumptions made by the creators concerning the timing of cash flows on the underlying mortgages, including expected prepayment rates.

MNA Resources Fund:

In addition to its principal investment strategies described above, the Fund may:

- invest in U.S. and foreign government and corporate debt obligations and money market instruments. Under abnormal market conditions, the Fund may invest without limit in these securities, which may cause the Fund to fail to achieve its investment objective. The Fund has not established minimum quality standards for its investments in debt securities.
- buy and sell (write) put and call options on stocks and stock indexes; invest in shares of exchange-traded funds (“ETFs”); invest in futures contracts for the purchase or sale of stock indexes; and buy and sell options on such futures contracts for hedging purposes. These investment strategies are used to hedge against changes in the values of securities the Fund owns or expects to purchase and are not used for speculation.
- enter into repurchase agreements.
- invest in securities of: companies in the basic materials sector; companies involved in the precious metals business; and companies involved in the metals and mining business.
- engage in active and frequent trading of its portfolio securities.

Principal Risks

Risk is inherent in all investing. Investing in the Funds involves risk, including the risk that you may receive little or no return on your investment or that you may even lose part or all of your investment. An investment in the Funds is not a deposit of a bank and is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. Before you invest in a Fund, you should consider its principal risks. Below is additional information about certain of the principal risks that are described in the Fund Summaries:

All Funds:

Cybersecurity Risk: As the use of technology has become more prevalent in the course of business, the Funds have become potentially more susceptible to operational and financial risks through breaches in cybersecurity. These risks include theft, loss, misuse, improper release, corruption and destruction of, or unauthorized access to, confidential or highly restricted data relating to a Fund and its shareholders; and compromises or failures to systems, networks, devices and applications relating to the operations of a Fund and its service providers. Cybersecurity issues may result in, among other things, financial losses to a Fund and its shareholders; the inability of a Fund to transact business with its shareholders or to engage in portfolio transactions; delays or mistakes in the calculation of a Fund’s net asset value or other materials provided to shareholders; the inability to process transactions with shareholders or other parties; violations of privacy and other laws; regulatory fines, penalties and reputational damage; and compliance and remediation costs, legal fees and other expenses. A Fund’s service providers, financial intermediaries, entities in which a Fund invests and parties with which a Fund engages in portfolio or other transactions also may be adversely impacted by cybersecurity risks, resulting in losses to a Fund or its shareholders. There can be no guarantee that any risk management systems established to address to reduce cybersecurity risks will succeed, and the Funds cannot control such systems put in place by service providers, issuers or other third parties whose operations may affect the Funds and/or their shareholders.

Valuation Risk: The sales price a Fund could receive for any particular portfolio investment may differ from the Fund’s valuation of the investment, particularly for securities that trade in thin or volatile markets or that are valued using a fair value methodology. Investors who purchase or redeem Fund shares on days when a Fund is holding fair-valued securities may receive fewer or more shares or lower or higher redemption proceeds than they would have received if the Fund had not fair-valued the security or had used a different valuation methodology.

Dividend Harvest Fund:

Market and Economic Risk: Market risk is the risk that one or more markets in which the Fund invests will go down in value, including the possibility that the markets will go down sharply and unpredictably. Securities may decline in value due to factors affecting the securities markets generally or individual issuers. The value of a security may change in value due to general market conditions that are not related to a particular issuer, such as real or perceived adverse economic conditions, changes in the general outlook for revenues or corporate earnings, changes in interest or currency rates or adverse investor sentiment generally. The value of a security may also change in value due to factors that affect an individual issuer or a particular sector or industry. During a general downturn in the securities markets, multiple asset classes may decline in value simultaneously. When markets perform well, there can be no assurance that securities held by the Fund will participate in or otherwise benefit from the advance. Any market disruptions, including those arising out of geopolitical events or natural/environmental disasters, could also prevent the Fund from executing advantageous investment decisions in a timely manner.

Preferred Stock Risk: The Fund may invest in preferred stocks. Preferred stocks are subject to the risks associated with other types of equity securities, such as potential volatility, as well as additional risks, such as risks related to deferral and omission of distributions; credit and subordination risk; interest rate risk; call, reinvestment and income risk; liquidity risk; risks related to limited voting rights; and risks related to special redemption rights.

Dividend-Paying Stock Risk: Income provided by the Fund may be affected by changes in the dividend policies of the companies in which the Fund invests and the capital resources available for such payments at such companies. Issuers that have paid regular dividends or distributions to shareholders may not continue to do so at the same level or at all in the future. In addition, securities that pay dividends as a group can fall out of favor with the market, causing the Fund during such periods to underperform funds that do not focus on dividend-paying companies. The Fund's focus on dividend-paying investments may cause the Fund's share price and total return to fluctuate more than the share price and total return of funds that do not focus their investments on dividend-paying securities.

Sector Risk: To the extent that the Fund focuses on particular sectors from time to time, the Fund may be subject to greater risk of the adverse developments in such areas of focus than a fund that invests in a wider variety of sectors.

Risks of Investments in Smaller Companies: The securities of mid-capitalization and small-capitalization companies involve greater risks than those associated with larger, more established companies and may be subject to more abrupt or erratic price movements. Securities of such issuers may lack sufficient market liquidity to enable the Fund to effect sales at an advantageous time or without a substantial drop in price. Both mid-capitalization and small-capitalization companies often have narrower markets and more limited managerial and financial resources than larger, more established companies. As a result, their performance can be more volatile and they face greater risk of business failure, which could increase the volatility of the Fund's portfolio. Generally, the smaller the company size, the greater these risks become.

Risks of Foreign Securities (Including Depositary Receipts): The Fund may invest in securities of non-U.S. issuers, which have special risks. These risks include international economic and political developments, foreign government actions including restrictions on payments to non-domestic persons such as the Fund, less regulation, less information, currency fluctuations, and interruptions in currency flow. The value of the Fund's assets may be affected favorably or unfavorably by currency exchange rates, currency exchange control regulations, and restrictions or prohibitions on the repatriation of foreign currencies. Foreign currency exchange rates may have significant volatility. Investments in foreign securities also entail higher costs. The Fund's investments in foreign securities may be in the form of sponsored or unsponsored depositary receipts, such as ADRs, Global Depositary Receipts and European Depositary Receipts, which are subject to risks similar to those associated with other foreign securities. In addition, ownership of unsponsored depositary receipts may not entitle the Fund to financial and other reports from the issuer of the underlying security and certain costs related to the receipts that would otherwise be borne by the issuer of a sponsored depositary receipt may be passed through, in whole or in part, to holders of unsponsored receipts. Moreover, investments in depositary receipts may be less liquid and more volatile than the underlying shares in their primary trading market. If a depositary receipt is denominated in a different currency than its underlying securities, the Fund will be subject to the currency risk of both the investment in the depositary receipt and the underlying security. Any distributions paid to the holders of depositary receipts are usually subject to a fee charged by the depositary. Holders of depositary receipts may have limited voting rights, and investment restrictions in certain countries may adversely impact the value of depositary receipts because such restrictions may limit the ability to convert the equity shares into depositary receipts and vice versa. Such restrictions may cause the equity shares of the underlying issuer to trade at a discount or premium to the market price of the depositary receipts.

Dividend Summit Fund:

Dividend-Paying Stock Risk: Income provided by the Fund may be affected by changes in the dividend policies of the companies in which the Fund invests and the capital resources available for such payments at such companies. Issuers that have paid regular dividends or distributions to shareholders may not continue to do so at the same level or at all in the future. In addition, securities that pay dividends as a group can fall out of favor with the market, causing the Fund during such periods to underperform funds that do not focus on dividend-paying companies. The Fund's focus on dividend-paying investments may cause the Fund's share price and total return to fluctuate more than the share price and total return of funds that do not focus their investments on dividend-paying securities. Key factors that might cause a company to reduce or eliminate its dividend include deteriorating fundamentals or changes in priority of the uses of capital, among other factors.

Market and Economic Risk: Market risk is the risk that one or more markets in which the Fund invests will go down in value, including the possibility that the markets will go down sharply and unpredictably. Securities may decline in value due to factors affecting the securities markets generally or individual issuers. The value of a security may change in value due to general market conditions that are not related to a particular issuer, such as real or perceived adverse economic conditions, changes in the general outlook for revenues or corporate earnings, changes in interest or currency rates or adverse investor sentiment generally. The value of a security may also change in value due to factors that affect an individual issuer or a particular sector or industry. During a general downturn in the securities markets, multiple asset classes may decline in value simultaneously. When markets perform well, there can be no assurance that securities held by the Fund will participate in or otherwise benefit from the advance. Any market disruptions, including those arising out of geopolitical events or natural/environmental disasters, could also prevent the Fund from executing advantageous investment decisions in a timely manner.

Sector Risk: To the extent that the Fund focuses on particular sectors from time to time, the Fund may be subject to greater risk of the adverse developments in such areas of focus than a fund that invests in a wider variety of sectors.

Non-Diversified Fund Risk: The Fund is non-diversified and as such, may invest a relatively high percentage of its assets in the securities of a single issuer. As a result, the Fund is exposed to greater market risk, as its portfolio securities may be more susceptible to any single economic, business, political, or regulatory occurrence than the portfolio securities of a diversified fund.

Preferred Stock Risk: The Fund may invest in preferred stocks. Preferred stocks are subject to the risks associated with other types of equity securities, such as potential volatility, as well as additional risks, such as risks related to deferral and omission of distributions; credit and subordination risk; interest rate risk; call, reinvestment and income risk; liquidity risk; risks related to limited voting rights; and risks related to special redemption rights.

Risks of Foreign Securities: Foreign markets can be more volatile than U.S. markets. The Fund's returns and net asset value may be affected by fluctuations in currency exchange rates or political or economic conditions in a particular country or region. In some foreign markets, it may not be possible for the Fund to repatriate capital, dividends, interest and other income from a particular country or governmental entity.

Risks of Depositary Receipts: The Fund's investments in foreign securities are typically in the form of sponsored or unsponsored depositary receipts, such as American Depositary Receipts ("ADRs"), which are subject to risks similar to those associated with other foreign securities. In addition, ownership of unsponsored depositary receipts may not entitle the Fund to financial and other reports from the issuer of the underlying security and certain costs related to the receipts that would otherwise be borne by the issuer of a sponsored depositary receipt may be passed through, in whole or in part, to holders of unsponsored receipts. Moreover, investments in depositary receipts may be less liquid and more volatile than the underlying shares in their primary trading market. If a depositary receipt is denominated in a different currency than its underlying securities, the Fund will be subject to the currency risk of both the investment in the depositary receipt and the underlying security. Any distributions paid to the holders of depositary receipts are usually subject to a fee charged by the depositary. Holders of depositary receipts may have limited voting rights, and investment restrictions in certain countries may adversely impact the value of depositary receipts because such restrictions may limit the ability to convert the equity shares into depositary receipts and vice versa. Such restrictions may cause the equity shares of the underlying issuer to trade at a discount or premium to the market price of the depositary receipts.

Risks of Investments in Smaller Companies: The securities of mid-capitalization and small-capitalization companies involve greater risks than those associated with larger, more established companies and may be subject to more abrupt or erratic price movements. Securities of such issuers may lack sufficient market liquidity to enable the Fund to effect sales at an advantageous time or without a substantial drop in price. Both mid-capitalization and small-capitalization companies often have narrower markets and more limited managerial and financial resources than larger, more established companies. As a result, their performance can be more volatile and they face greater risk of business failure, which could increase the volatility of the Fund's portfolio. Generally, the smaller the company size, the greater these risks become.

Growth & Income Fund:

Market and Economic Risk: Market risk is the risk that one or more markets in which the Fund invests will go down in value, including the possibility that the markets will go down sharply and unpredictably. Securities may decline in value due to factors affecting the securities markets generally or individual issuers. The value of a security may change in value due to general market conditions that are not related to a particular issuer, such as real or perceived adverse economic conditions, changes in the general outlook for revenues or corporate earnings, changes in interest or currency rates or adverse investor sentiment generally. The value of a security may also change in value due to factors that affect an individual issuer or a particular sector or industry. During a general downturn in the securities markets, multiple asset classes may decline in value simultaneously. When markets perform well, there can be no assurance that securities held by the Fund will participate in or otherwise benefit from the advance. Any market disruptions, including those arising out of geopolitical events or natural/environmental disasters, could also prevent the Fund from executing advantageous investment decisions in a timely manner.

Style Risk: The Fund is managed according to an investment strategy that at times reflects either growth or value style investing, and therefore is subject to the risks associated with these styles. One risk is that a growth investing style may fall out of favor with investors for a period of time during which the Fund may underperform other funds that employ a different style. In addition, growth stocks typically are more volatile than value stocks due to their relatively high valuations and sensitivity to investor perceptions of the issuer's growth potential. As a result, the price of a growth stock may experience a larger decline on a forecast of lower earnings or other negative development, than would a value stock. Furthermore, because the value of growth companies is a function of their expected earnings growth, there is a risk that such earnings growth may not occur or cannot be sustained. Value stocks may continue to be undervalued by the market for extended periods, including the entire period during which the stock is held by the Fund. Additionally, the events that the Investment Adviser believed would cause the stock price to increase may not occur as anticipated or at all. Moreover, a stock judged to be undervalued actually may be appropriately priced at a low level.

Dividend-Paying Stock Risk: Because the Fund can only distribute what it earns, the Fund's distributions to shareholders could decline when dividend income from the dividend-paying stocks in the Fund's portfolio declines. Investments in dividend-paying stocks involve the risk that such stocks may fall out of favor with investors and underperform the market. Also, a company may reduce or eliminate its dividend, which could affect the Fund's ability to generate income. Key factors that might cause a company to reduce or eliminate its dividend include deteriorating fundamentals or changes in priority of the uses of capital, among other factors.

Risks of Investments in Smaller Companies: The securities of mid-capitalization and small-capitalization companies involve greater risks than those associated with larger, more established companies and may be subject to more abrupt or erratic price movements. Securities of such issuers may lack sufficient market liquidity to enable the Fund to effect sales at an advantageous time or without a substantial drop in price. Both mid-capitalization and small-capitalization companies often have narrower markets and more limited managerial and financial resources than larger, more established companies. As a result, their performance can be more volatile and they face greater risk of business failure, which could increase the volatility of the Fund's portfolio. Generally, the smaller the company size, the greater these risks become.

Market Valuation Risk: Some companies that are growing very fast have unreasonable valuations by traditional valuation techniques. Since these companies' stock prices do not reflect the usual relationships between price and corporate earnings or income, their stocks tend to be extraordinarily volatile and speculative.

Responsible Investing Risk: The Fund's responsible investment criteria could cause it to underperform similar funds that do not have such criteria. Among the reasons for this are: ethically aware companies could fall out of favor with investors or fail to perform as well as companies that do not fit the Fund's responsible investment criteria; stocks that do not meet the responsible investment criteria could outperform those that do; and the responsible investment criteria could cause the Fund to sell or avoid stocks that subsequently perform well.

Liquidity Risk: Liquidity risk is the risk that the Fund may invest to a greater degree in instruments that trade in lower volumes and may make investments that may be less liquid than other investments. It is also the risk that the Fund may make investments that may become less liquid in response to market developments or adverse investor perceptions. When there is no willing buyer and investments cannot be readily sold at the desired time or price, the Fund may have to accept a lower price or may not be able to sell the instruments at all. An inability to sell a portfolio position could adversely affect the Fund's value or prevent the Fund from being able to take advantage of other investment opportunities. Liquidity risk may also refer to the risk that the Fund's ability to pay redemption proceeds may be adversely affected by unusual market conditions, an unusually high volume of redemption requests, or other reasons. To meet redemption requests, the Fund may be forced to sell liquid securities at unfavorable times and conditions.

High Income Fund:

Credit Risk: If an issuer defaults, the Fund may lose money. The degree of credit risk depends on both the financial condition of the issuer and the terms of the obligation. Changes in an issuer's credit rating or the market's perception of an issuer's credit risk can adversely affect the prices of the securities the Fund owns. A corporate event such as a restructuring, merger, leveraged buyout, takeover, or similar action may cause a decline in market value of an issuer's securities or credit quality of its debt obligations due to factors including an unfavorable market response or a resulting increase in the company's debt. Added debt may reduce significantly the credit quality and market value of a company's debt obligations. High yield bonds, which are rated below investment grade, generally are more exposed to credit risk than investment grade securities.

Interest Rate Risk: Interest rate risk is the risk that debt securities will decline in value because of changes in interest rates. As nominal interest rates rise, the value of certain debt securities held by the Fund is likely to decrease. Debt securities with longer durations tend to be more sensitive to changes in interest rates, usually making them more volatile than securities with shorter durations. Rising interest rates also may lengthen the duration of debt securities with call features, since exercise of the call becomes less likely as interest rates rise, which in turn will make the securities more sensitive to changes in interest rates and result in even steeper price declines in the event of further interest rate increases.

Income Risk: Income risk is the risk that the income from the Fund's portfolio will decline because of falling market interest rates. This can result when the Fund invests the proceeds from new share sales, or from matured or called bonds, at market interest rates that are below the portfolio's current earnings rate.

Lower-Quality Debt Risk: Investments in high yield bonds (also known as "junk" bonds) and other lower-rated securities involve substantial risk of loss. These securities are considered to be speculative with respect to the issuer's ability to pay interest and principal when due and are susceptible to default or decline in market value due to adverse economic and business developments. The market values of high yield securities tend to be very volatile, and these securities are typically less liquid than investment-grade debt securities. Therefore, investments in lower-quality debt securities are subject to the following risks:

- increased price sensitivity to changing interest rates and to adverse economic and business developments;
- greater risk of loss due to default or declining credit quality;
- greater likelihood that adverse economic or company-specific events will make the issuer unable to make interest and/or principal payments when due; and

- negative market sentiments toward high yield securities may depress their price and liquidity. If this occurs, it may be difficult to price or dispose of a particular security.

Management Risk: The Fund's overall success depends on the sub-adviser's ability to choose productive securities for the Fund. If the sub-adviser is unable to successfully choose productive securities, the Fund may underperform other funds with similar investment objectives.

Market Volatility Risk: It is possible that one or more markets in which the Fund invests may go down in value, potentially sharply and unpredictably. Securities may decline in value due to factors affecting the securities markets generally or individual issuers. The value of a security may change in value due to general market conditions that are not related to a particular issuer, such as real or perceived adverse economic conditions, changes in the general outlook for revenues or corporate earnings, changes in interest or currency rates or adverse investor sentiment generally. The value of a security may also change in value due to factors that affect an individual issuer or a particular sector or industry. During a general downturn in the securities markets, multiple asset classes may decline in value simultaneously. When markets perform well, there can be no assurance that securities held by the Fund will participate in or otherwise benefit from the advance. Any market disruptions, including those arising out of geopolitical events or natural/environmental disasters, could also prevent the Fund from executing advantageous investment decisions in a timely manner.

Liquidity Risk: Liquidity risk is the risk that the Fund may invest to a greater degree in instruments that trade in lower volumes and may make investments that may be less liquid than other investments. It is also the risk that the Fund may make investments that may become less liquid in response to market developments or adverse investor perceptions. When there is no willing buyer and investments cannot be readily sold at the desired time or price, the Fund may have to accept a lower price or may not be able to sell the instruments at all. An inability to sell a portfolio position could adversely affect the Fund's value or prevent the Fund from being able to take advantage of other investment opportunities. Liquidity risk may also refer to the risk that the Fund's ability to pay redemption proceeds may be adversely affected by unusual market conditions, an unusually high volume of redemption requests, or other reasons. To meet redemption requests, the Fund may be forced to sell liquid securities at unfavorable times and conditions.

MNA Resources Fund:

Market and Economic Risk: Market risk is the risk that one or more markets in which the Fund invests will go down in value, including the possibility that the markets will go down sharply and unpredictably. Securities may decline in value due to factors affecting the securities markets generally or individual issuers. The value of a security may change in value due to general market conditions that are not related to a particular issuer, such as real or perceived adverse economic conditions, changes in the general outlook for revenues or corporate earnings, changes in interest or currency rates or adverse investor sentiment generally. The value of a security may also change in value due to factors that affect an individual issuer or a particular sector or industry. During a general downturn in the securities markets, multiple asset classes may decline in value simultaneously. When markets perform well, there can be no assurance that securities held by the Fund will participate in or otherwise benefit from the advance. Any market disruptions, including those arising out of geopolitical events or natural/environmental disasters, could also prevent the Fund from executing advantageous investment decisions in a timely manner.

Style Risk: The Fund is managed according to an investment strategy that at times reflects either growth or value style investing, and therefore is subject to the risks associated with these styles. One risk is that a growth investing style may fall out of favor with investors for a period of time during which the Fund may underperform other funds that employ a different style. In addition, growth stocks typically are more volatile than value stocks due to their relatively high valuations and sensitivity to investor perceptions of the issuer's growth potential. As a result, the price of a growth stock may experience a larger decline on a forecast of lower earnings or other negative development, than would a value stock. Furthermore, because the value of growth companies is a function of their expected earnings growth, there is a risk that such earnings growth may not occur or cannot be sustained. Value stocks may continue to be undervalued by the market for extended periods, including the entire period during which the stock is held by the Fund. Additionally, the events that the Investment Adviser believed would cause the stock price to increase may not occur as anticipated or at all. Moreover, a stock judged to be undervalued actually may be appropriately priced at a low level.

Geographic or Regional Risk: The Fund is managed to take advantage of what the Investment Adviser views as unique opportunities within the Region. The geographic limitations of such an approach pose special risks that should be understood by investors. Geographic limitations prevent the Fund from investing in other places where the opportunities may be greater. The economy of the Region may underperform that of other areas, creating a drag on performance relative to more geographically diverse funds. Moreover, the Fund will be more susceptible to events negatively affecting the Region than more geographically diverse funds. The geographic limitation may limit the degree of business diversification of the Fund, thus making returns more volatile than in more geographically diversified investments.

Sector and Sector Weightings Risk: Market conditions, interest rates, and economic, regulatory, or financial developments could significantly affect a single sector and the securities of companies in that sector could react similarly to these or other developments. Since the Fund invests significantly in relatively few sectors, primarily the energy sector, it has more exposure to the price movements of this sector than funds that diversify their investments among many sectors.

Regulatory Risk: The Fund may invest in companies that are subject to significant federal, state, and local government regulation in virtually every aspect of their operations, including how facilities are constructed, maintained, and operated, environmental and safety controls, and the prices they may charge for the products and services they provide. Various governmental authorities have the power to enforce compliance with these regulations and the permits issued under them, and violators are subject to administrative, civil and criminal penalties, including civil fines, injunctions, or both. Stricter laws, regulations, or enforcement policies could be enacted in the future which would likely increase compliance costs and may adversely affect the operations and financial performance of a significant number of the companies in which the Fund invests.

Risks of the Energy Sector: The Fund may invest significantly in securities of companies in the energy sector, and will therefore be susceptible to adverse economic, business, political, environmental, regulatory, or other occurrences affecting that sector. The energy sector has historically experienced substantial price volatility. At times, the performance of these investments may lag the performance of other sectors or the market as a whole. Companies operating in the energy sector are subject to specific risks, including, among others: fluctuations in commodity prices and/or interest rates; increased governmental or environmental regulation; reduced availability of natural gas or other commodities for transporting, processing, storing or delivering; declines in domestic or foreign production; slowdowns in new construction; extreme weather or other natural disasters; and threats of attack by terrorists on energy assets. Energy companies can be significantly affected by the supply of, and demand for, particular energy products (such as oil and natural gas), which may result in overproduction or underproduction. Additionally, changes in the regulatory environment for energy companies may adversely impact their profitability. Over time, depletion of natural gas reserves and other energy reserves may also affect the profitability of energy companies. The price of oil, natural gas and other fossil fuels could decline significantly and experience significant volatility, and adversely impact companies operating in the energy sector. There can be no assurance that the price of oil, natural gas and other fossil fuels will not decline further and have a further adverse effect.

Risks of Legislation and Regulatory Initiatives Relating to Hydraulic Fracturing: The Fund may invest in companies that engage in hydraulic fracturing. Federal and state, and local legislation and regulatory initiatives relating to hydraulic fracturing (also referred to as “fracking”) could result in increased costs and additional operating restrictions or delays affecting a significant portion of the companies in which the Fund invests. Hydraulic fracturing involves the injection of water, sand, and chemicals under pressure into rock formations to stimulate oil or natural gas production. Due to concerns raised relating to potential impacts of hydraulic fracturing on groundwater quality, regulations have been enacted at the federal level and legislative and regulatory efforts in some states have been initiated or implemented to render permitting, disclosure and compliance requirements more stringent for hydraulic fracturing or prohibit the activity altogether. Additionally, the Environmental Protection Agency has been, and continues to be involved in studies relating to hydraulic fracturing. Further, Congress has, from time to time, considered adoption of legislation to provide for federal regulation of hydraulic fracturing and to require the disclosure of chemicals used in the hydraulic fracturing process. Any federal, state or local laws, implementing regulations or other legal requirements imposing disclosure, regulatory or reporting obligations on, or otherwise limiting, the hydraulic fracturing process, may make it more difficult and expensive to perform hydraulic fracturing, which, for affected companies, could result in limitations on the productive capability of certain oil and gas wells, operational delays, and increased costs of compliance and doing business and, in addition, could adversely affect the value of such companies’ securities.

Risks of the Agribusiness Sector: The Fund may invest in companies involved in agribusiness. Companies involved in agribusiness are subject to numerous risks, including cyclicalities of revenues and earnings, economic recession, currency fluctuations, changing consumer tastes, extensive competition, weather conditions, quotas, product liability litigation, and governmental policies, regulation and subsidies. Generally, agribusiness is affected by the economic health of consumers. A weak economy and its effect on consumer spending would adversely affect agribusiness companies. Other risks of the agribusiness sector include consolidation, domestic and international politics, and excess capacity. In addition, agribusiness companies may be significantly affected by volatility of commodity prices, import controls, liability for environmental damage, depletion of resources, and mandated expenditures for safety and pollution control devices.

Risks of the Basic Materials Sector: The Fund may invest in securities of companies in the basic materials sector. General risks of the basic materials sector include the general state of the economy, domestic and international politics, price and supply fluctuations, labor relations, government regulations, volatile interest rates, consumer spending trends, overall capital spending levels, and excess capacity. In addition, basic materials companies may also be significantly affected by volatility of commodity prices, currency exchange rates, import controls, worldwide competition, depletion of resources, and mandated expenditures for safety and pollution control devices. These companies are also at risk for environmental damage and product liability claims.

Risks of Precious Metals: The Fund may invest in securities of companies involved in the precious metals business. Precious metals companies are subject to risks associated with the exploration, development, and production of precious metals including competition for land, difficulties in obtaining required governmental approval to mine land, inability to raise adequate capital, increases in production costs, and political unrest in nations where sources of precious metals are located. In addition, the price of gold and other precious metals is subject to wide fluctuation, can swing sharply in response to cyclical economic conditions, political events and the monetary policies of various countries, and may be influenced by limited markets, fabricator demand, expected inflation, return on assets, central bank demand, and availability of substitutes.

Risks of Metals and Mining: The Fund may invest in securities of companies involved in the metals and mining business. Risks of investing in metals and mining company stocks include inaccurate estimates of mineral reserves and future production levels, varying expectations of mine production costs, unexpected changes in mineral prices, technological and operational hazards in mining and mine development activities, increased regulatory and environmental costs, uncertainties inherent in the calculation of mineral reserves, mineral resources and metal recoveries, the timing and availability of financing, governmental, and other approvals, domestic and international politics, and mandated expenditures for safety and pollution control.

Risks of Investments in Smaller Companies: The securities of mid-capitalization and small-capitalization companies involve greater risks than those associated with larger, more established companies and may be subject to more abrupt or erratic price movements. Securities of such issuers may lack sufficient market liquidity to enable the Fund to effect sales at an advantageous time or without a substantial drop in price. Both mid-capitalization and small-capitalization companies often have narrower markets and more limited managerial and financial resources than larger, more established companies. As a result, their performance can be more volatile and they face greater risk of business failure, which could increase the volatility of the Fund's portfolio. Generally, the smaller the company size, the greater these risks become.

Risks of Foreign Securities (including Depositary Receipts): The Fund may invest in securities of non-U.S. issuers (including Canadian issuers), which have special risks. These risks include international economic and political developments, foreign government actions including restrictions on payments to non-domestic persons such as the Fund, less regulation, less information, currency fluctuations, and interruptions in currency flow. The value of the Fund's assets may be affected favorably or unfavorably by currency exchange rates, currency exchange control regulations, and restrictions or prohibitions on the repatriation of foreign currencies. Foreign currency exchange rates may have significant volatility. Investments in foreign securities also entail higher costs. The Fund's investments in foreign securities are typically in the form of sponsored or unsponsored depositary receipts, such as ADRs, which are subject to risks similar to those associated with other foreign securities. In addition, ownership of unsponsored depositary receipts may not entitle the Fund to financial and other reports from the issuer of the underlying security and certain costs related to the receipts that would otherwise be borne by the issuer of a sponsored depositary receipt may be passed through, in whole or in part, to holders of unsponsored receipts. Moreover, investments in depositary receipts may be less liquid and more volatile than the underlying shares in their primary trading market. If a depositary receipt is denominated in a different currency than its underlying securities, the Fund will be subject to the currency risk of both the investment in the depositary receipt and the underlying security. Any distributions paid to the holders of depositary receipts are usually subject to a fee charged by the depositary. Holders of depositary receipts may have limited voting rights, and investment restrictions in certain countries may adversely impact the value of depositary receipts because such restrictions may limit the ability to convert the equity shares into depositary receipts and vice versa. Such restrictions may cause the equity shares of the underlying issuer to trade at a discount or premium to the market price of the depositary receipts.

Liquidity Risk: Liquidity risk is the risk that the Fund may invest to a greater degree in instruments that trade in lower volumes and may make investments that may be less liquid than other investments. It is also the risk that the Fund may make investments that may become less liquid in response to market developments or adverse investor perceptions. When there is no willing buyer and investments cannot be readily sold at the desired time or price, the Fund may have to accept a lower price or may not be able to sell the instruments at all. An inability to sell a portfolio position could adversely affect the Fund's value or prevent the Fund from being able to take advantage of other investment opportunities. Liquidity risk may also refer to the risk that the Fund's ability to pay redemption proceeds may be adversely affected by unusual market conditions, an unusually high volume of redemption requests, or other reasons. To meet redemption requests, the Fund may be forced to sell liquid securities at unfavorable times and conditions.

Short Term Government Fund:

General Market Risk: The Fund's net asset value, yield and total return will fluctuate based upon changes in the value of its portfolio securities, and it is possible to lose money by investing in the Fund. The market value of securities in which the Fund invests is based upon the market's perception of the underlying value and is not necessarily an objective measure of the securities' values. The value of a security or other asset may decline due to changes in general market conditions, economic trends or events that are not specifically related to the issuer of the security or other asset, including factors that affect certain countries, regions, markets, or sectors to which the issuer is not directly exposed. Local, regional or global events such as war, acts of terrorism, the spread of infectious illness or other public health issue, recessions, or other events could have a significant impact on the portfolio and its investments. There is no assurance that the Fund will achieve its investment objective. An investment in the Fund is not by itself a complete or balanced investment program.

Management Risk: The ability of the Fund to meet its investment objective is directly related to the effectiveness of the sub-adviser's research, analysis and asset allocation among portfolio securities. If the sub-adviser's investment strategies do not produce the expected results, the value of your investment could be diminished or even lost entirely.

Interest Rate Risk: Interest rate risk is the risk that debt securities will decline in value because of changes in interest rates. As nominal interest rates rise, the value of certain debt securities held by the Fund is likely to decrease. Debt securities with longer durations tend to be more sensitive to changes in interest rates, usually making them more volatile than securities with shorter durations. Rising interest rates also may lengthen the duration of debt securities with call features, since exercise of the call becomes less likely as interest rates rise, which in turn will make the securities more sensitive to changes in interest rates and result in even steeper price declines in the event of further interest rate increases.

Income Risk: Income risk is the risk that the income from the Fund's portfolio will decline because of falling market interest rates. This can result when the Fund invests the proceeds from new share sales, or from matured or called bonds, at market interest rates that are below the portfolio's current earnings rate.

Risks of U.S. Government Securities: Treasury obligations may differ in their interest rates, maturities, times of issuance and other characteristics. Securities backed by the U.S. Treasury or the full faith and credit of the United States are guaranteed only as to the timely payment of interest and principal when held to maturity. Accordingly, the current market values for these securities will fluctuate with changes in interest rates. Obligations of U.S. government agencies and authorities are supported by varying degrees of credit, but generally are not backed by the full faith and credit of the U.S. government. No assurance can be given that the U.S. government will provide financial support to its agencies and authorities if it is not obligated by law to do so. In addition, the value of U.S. government securities may be affected by changes in the credit rating of the U.S. government. U.S. government securities are also subject to default risk, that is the risk that the U.S. Treasury will be unable to meet its payment obligations. The maximum potential liability of the issuers of some U.S. government securities may greatly exceed their current resources, including their legal right to support from the U.S. Treasury. It is possible that these issuers will not have the funds to meet their payment obligations in the future.

Mortgage-Backed Securities Risk: Mortgage-backed securities (previously defined as "MBS") are subject to the risks generally associated with fixed income securities listed above. The risk of prepayment is more likely to occur when interest rates fall because many borrowers refinance mortgages to take advantage of more favorable rates. Prepayments on MBS are also affected by other factors, such as the volume of home sales. The Fund's yield will be reduced if cash from prepaid securities is reinvested in securities with lower interest rates. The risk of prepayment may also decrease the value of MBS. The value of these securities may decline in value because of mortgage foreclosures or defaults on the underlying obligations.

Prepayment and Extension Risk: Many types of fixed income securities, including MBS, are subject to prepayment risk. Prepayment occurs when the issuer of a fixed income security can repay principal prior to the security's maturity. Fixed income securities subject to prepayment can offer less potential for gains during a declining interest rate environment and similar or greater potential for loss in a rising interest rate environment. In addition, the potential impact of prepayment features on the price of a fixed income security can be difficult to predict and result in greater volatility. On the other hand, rising interest rates could cause prepayments of the obligations to decrease, extending the life of mortgage- and asset-backed securities with lower payment rates. This is known as extension risk and may increase the Fund's sensitivity to rising rates and its potential for price declines.

Credit Risk: If an issuer defaults, the Fund may lose money. The degree of credit risk depends on both the financial condition of the issuer and the terms of the obligation. Changes in an issuer's credit rating or the market's perception of an issuer's credit risk can adversely affect the prices of the securities the Fund owns.

Variable Rate Securities Risk: Variable rate obligations are debt instruments issued by companies or other entities with interest rates that reset periodically (typically, daily, monthly, quarterly, or semi-annually) in response to changes in the market rate of interest on which the interest rate is based. There may be a lag between an actual change in the underlying interest rate benchmark and the reset time for an interest payment of such an obligation, which could harm or benefit the Fund, depending on the interest rate environment or other circumstances. In a rising interest rate environment, for example, a variable rate obligation that does not reset immediately would prevent the Fund from taking full advantage of rising interest rates in a timely manner. However, in a declining interest rate environment, the Fund may benefit from a lag due to an obligation's interest rate payment not being immediately impacted by a decline in interest rates. Certain variable rate obligations have an interest rate floor feature, which prevents the interest rate payable by the security from dropping below a specified level as compared to a reference interest rate (the "reference rate"), such as LIBOR. Such a floor protects the Fund from losses resulting from a decrease in the reference rate below the specified level. However, if the reference rate is below the floor, there will be a lag between a rise in the reference rate and a rise in the interest rate payable by the obligation, and the Fund may not benefit from increasing interest rates for a significant amount of time.

Liquidity Risk: Liquidity risk is the risk that the Fund may invest to a greater degree in instruments that trade in lower volumes and may make investments that may be less liquid than other investments. It is also the risk that the Fund may make investments that may become less liquid in response to market developments or adverse investor perceptions. When there is no willing buyer and investments cannot be readily sold at the desired time or price, the Fund may have to accept a lower price or may not be able to sell the instruments at all. An inability to sell a portfolio position could adversely affect the Fund's value or prevent the Fund from being able to take advantage of other investment opportunities. Liquidity risk may also refer to the risk that the Fund's ability to pay redemption proceeds may be adversely affected by unusual market conditions, an unusually high volume of redemption requests, or other reasons. To meet redemption requests, the Fund may be forced to sell liquid securities at unfavorable times and conditions.

When-Issued Securities Risk: The price of securities purchased on a when-issued basis, which may be expressed in yield terms, is fixed at the time the commitment to purchase is made, but delivery and payment for the when-issued securities take place at a later date. When-issued securities involve the risk that the price or yield obtained in a transaction (and therefore the value of a security) may be less favorable than the price or yield (and therefore the value of a security) available in the market when the security is delivered. In

addition, when the Fund engages in when-issued transactions, it relies on the other party to consummate the trade. Failure of such party to do so may result in the Fund incurring a loss or missing an opportunity to obtain a price considered advantageous.

High Portfolio Turnover Risk: The Fund may engage in frequent and active trading of its portfolio securities. High portfolio turnover may result in increased transaction costs to the Fund, including brokerage commissions, dealer mark-ups and other transaction costs on the sale of the securities and on reinvestment in other securities. The sale of Fund portfolio securities may result in the realization of greater amounts of capital gains or losses, and may result in larger capital gain distributions to shareholders, as compared to a fund with less active trading policies. The effects of higher than normal portfolio turnover may adversely affect Fund performance.

Additional Risks

In addition to the principal risks discussed in the Fund Summary sections and above, you should also consider carefully the following risks that you assume when you invest in the Funds:

Dividend Summit Fund:

Risks of U.S. Government Securities: The Fund may invest in U.S. government securities. Treasury obligations may differ in their interest rates, maturities, times of issuance and other characteristics. Securities backed by the U.S. Treasury or the full faith and credit of the United States are guaranteed only as to the timely payment of interest and principal when held to maturity. Accordingly, the current market values for these securities will fluctuate with changes in interest rates. Obligations of U.S. government agencies and authorities are supported by varying degrees of credit, but generally are not backed by the full faith and credit of the U.S. government. No assurance can be given that the U.S. government will provide financial support to its agencies and authorities if it is not obligated by law to do so. In addition, the value of U.S. government securities may be affected by changes in the credit rating of the U.S. government. U.S. government securities are also subject to default risk, that is the risk that the U.S. Treasury will be unable to meet its payment obligations. The maximum potential liability of the issuers of some U.S. government securities may greatly exceed their current resources, including their legal right to support from the U.S. Treasury. It is possible that these issuers will not have the funds to meet their payment obligations in the future.

Risks of Repurchase Agreements: The Fund may enter into certain types of repurchase agreements. Repurchase agreements are generally subject to counterparty risk, which is the risk that the counterparty to the agreement could default on the agreement. If a seller defaults, the Fund could realize a loss on the sale of the underlying security to the extent that the proceeds of the sale including accrued interest are less than the resale price provided in the agreement, including interest. In addition, if the seller becomes involved in bankruptcy or insolvency proceedings, the Fund may incur delay and costs in selling the underlying security or may suffer a loss of principal and interest if, for example, the Fund is treated as an unsecured creditor and required to return the underlying collateral to the seller or its assigns.

Risks Related to Investments in Other Investment Companies: The Fund may invest in other investment companies (including exchange-traded funds (“ETFs”)). The risks of investing in a particular investment company will generally reflect the risks of the securities in which it invests and the investment techniques it employs. The securities of other investment companies may also be leveraged and therefore will be subject to leverage risk. If the Fund invests in investment companies that utilize leverage, the net asset value and market value of such shares will be more volatile and the yield to shareholders will tend to fluctuate more than the yield generated by shares of companies that do not use leverage. By investing in the Fund, you will indirectly bear fees and expenses charged by the underlying ETFs and other investment companies in which the Fund invests in addition to the Fund’s direct fees and expenses. Shareholders would, therefore, be subject to duplicative fees and expenses to the extent the Fund invests in other investment companies.

Growth & Income Fund:

High Portfolio Turnover Risk: The Fund may engage in active and frequent trading of its portfolio securities. High portfolio turnover may result in increased transaction costs to the Fund, including brokerage commissions, dealer mark-ups and other transaction costs on the sale of the securities and on reinvestment in other securities. The sale of Fund portfolio securities may result in the realization and distribution to shareholders of higher capital gains or losses as compared to a fund with less active trading policies. The effects of higher than normal portfolio turnover may adversely affect Fund performance.

High Income Fund:

Asset-Backed Securities Risk: The Fund may invest in asset-backed securities. Asset-backed securities present certain risks that are not presented by other securities in which the Fund may invest. With asset-backed securities, payment of interest and repayment of principal may be impacted by the cash flows generated by the assets backing these securities. The value of the Fund’s asset-backed securities may also be affected by changes in interest rates, the availability of information concerning the interests in and structure of the pools of purchase contracts, financing leases or sales agreements that are represented by these securities, the creditworthiness of the servicing agent for the pool, the originator of the loans or receivables, or the entities that provide any supporting letters of credit, surety bonds, or other credit enhancements.

Convertible Securities Risk: The Fund may invest in convertible securities. Convertible securities are subject to the risks of both debt securities and equity securities. The values of convertible securities tend to decline as interest rates rise and, due to the conversion feature, tend to vary with fluctuations in the market value of the underlying common or preferred stock.

Preferred Stock Risk: The Fund may invest in preferred stocks. Preferred stocks are subject to the risks associated with other types of equity securities, such as potential volatility, as well as additional risks, such as risks related to deferral and omission of distributions; credit and subordination risk; interest rate risk; call, reinvestment and income risk; liquidity risk; risks related to limited voting rights; and risks related to special redemption rights.

Risks of CMOs: The Fund may invest in CMOs. There are risks associated with CMOs that relate to the risks of the underlying mortgage pass-through securities (i.e., an increase or decrease in prepayment rates, resulting from a decrease or increase in mortgage interest rates, will affect the yield, average life, and price of CMOs). In addition, CMOs are more volatile and may be subject to a higher risk of non-payment than other mortgage-related securities. They may also be subject to greater interest rate, prepayment and liquidity risks than other mortgage-related securities.

MNA Resources Fund:

Risks of Debt Obligations: To the extent that the Fund invests in debt obligations, it will be subject to related risks, including:

- credit risk: generally, the risk that an issuer of a security will fail to pay principal and interest in a timely manner (and lower-rated bonds have greater credit risk);
- income risk: generally, the risk that falling interest rates will cause the Fund's income to decline; and
- interest rate risk: generally the risk that bond prices overall will decline over short or even long periods of time due to rising interest rates.

Risks of the Basic Materials Sector: The Fund may invest in securities of companies in the basic materials sector. General risks of the basic materials sector include the general state of the economy, domestic and international politics, price and supply fluctuations, labor relations, government regulations, volatile interest rates, consumer spending trends, overall capital spending levels, and excess capacity. In addition, basic materials companies may also be significantly affected by volatility of commodity prices, currency exchange rates, import controls, worldwide competition, depletion of resources, and mandated expenditures for safety and pollution control devices. These companies are also at risk for environmental damage and product liability claims.

Risks of Precious Metals Companies: The Fund may invest in securities of companies involved in the precious metals business. Precious metals companies are subject to risks associated with the exploration, development, and production of precious metals including competition for land, difficulties in obtaining required governmental approval to mine land, inability to raise adequate capital, increases in production costs, and political unrest in nations where sources of precious metals are located. In addition, the price of gold and other precious metals is subject to wide fluctuations, can swing sharply in response to cyclical economic conditions, political events and the monetary policies of various countries, and may be influenced by limited markets, fabricator demand, expected inflation, return on assets, central bank demand, and availability of substitutes.

Risks of Metals and Mining Companies: The Fund may invest in securities of companies involved in the metals and mining business. Risks of investing in metals and mining company stocks include inaccurate estimates of mineral reserves and future production levels, varying expectations of mine production costs, unexpected changes in mineral prices, technological and operational hazards in mining and mine development activities, increased regulatory and environmental costs, uncertainties inherent in the calculation of mineral reserves, mineral resources and metal recoveries, the timing and availability of financing, governmental, and other approvals, domestic and international politics, and mandated expenditures for safety and pollution control.

High Portfolio Turnover Risk: The Fund may engage in active and frequent trading of its portfolio securities. High portfolio turnover may result in increased transaction costs to the Fund, including brokerage commissions, dealer mark-ups and other transaction costs on the sale of the securities and on reinvestment in other securities. The sale of Fund portfolio securities may result in the realization and distribution to shareholders of higher capital gains or losses as compared to a fund with less active trading policies. The effects of higher than normal portfolio turnover may adversely affect Fund performance.

All Funds Other than the Dividend Harvest Fund, Dividend Summit and the Short Term Government Fund:

Hedging Risk: The ability of a Fund to benefit from options and futures is largely dependent on the Investment Adviser's (or sub-adviser's, as applicable) ability to use these strategies successfully. If the Investment Adviser's (or sub-adviser's, as applicable) judgment about the general direction of markets is wrong, the overall performance of the Fund will be poorer than if no such futures and options had been used. In addition, the Fund's ability to effectively hedge all or a portion of its portfolio through transactions in futures and options depends on the degree to which price movements in the futures and options correlate with the price movements in the Fund's portfolio. Consequently, if the price of the futures contract or option moves more or less than the price of the security that is subject to the hedge, the Fund will experience a gain or loss that will not be completely offset by movements in the price of the security. The Fund could lose money on futures transactions and will lose money if a purchased option expires worthless. Losses (or gains) involving futures contracts can sometimes be substantial in part because a relatively small price movement in a futures contract may result in an immediate and substantial loss (or gain) for the Fund. Use of options may also (i) result in losses to the Fund, (ii) force the purchase or sale of portfolio securities at inopportune times or for purchase prices higher than, or sale prices lower than, current market values, (iii) limit the amount of appreciation the Fund can realize on its investments, (iv) increase the cost of holding a security and/or reduce the returns

on securities, or (v) cause the Fund to hold a security it might otherwise sell or sell a security it might otherwise hold. In addition, it is possible that rules and regulations adopted as the result of a new regulatory framework for the derivatives market may impact the Funds' hedging strategies. The Funds (including the Dividend Harvest Fund and Dividend Summit Fund) are operated by a person who has claimed an exclusion from the definition of the term "commodity pool operator" under the Commodity Exchange Act, as amended (the "CEA"), and, therefore, who is not subject to registration or regulation as a commodity pool operator under the CEA.

All Funds:

The Funds currently do not intend to invest in futures, forwards, swaps, or other derivatives transactions.

Risks of U.S. Government Securities: The Funds may invest in U.S. government securities. Treasury obligations may differ in their interest rates, maturities, times of issuance and other characteristics. Securities backed by the U.S. Treasury or the full faith and credit of the United States are guaranteed only as to the timely payment of interest and principal when held to maturity. Accordingly, the current market values for these securities will fluctuate with changes in interest rates. Obligations of U.S. government agencies and authorities are supported by varying degrees of credit, but generally are not backed by the full faith and credit of the U.S. government. No assurance can be given that the U.S. government will provide financial support to its agencies and authorities if it is not obligated by law to do so. In addition, the value of U.S. government securities may be affected by changes in the credit rating of the U.S. government. U.S. government securities are also subject to default risk, that is the risk that the U.S. Treasury will be unable to meet its payment obligations. The maximum potential liability of the issuers of some U.S. government securities may greatly exceed their current resources, including their legal right to support from the U.S. Treasury. It is possible that these issuers will not have the funds to meet their payment obligations in the future.

Risks of Repurchase Agreements: The Funds may enter into certain types of repurchase agreements. Repurchase agreements are generally subject to counterparty risk, which is the risk that the counterparty to the agreement could default on the agreement. If a seller defaults, the Fund could realize a loss on the sale of the underlying security to the extent that the proceeds of the sale including accrued interest are less than the resale price provided in the agreement, including interest. In addition, if the seller becomes involved in bankruptcy or insolvency proceedings, the Fund may incur delay and costs in selling the underlying security or may suffer a loss of principal and interest if, for example, the Fund is treated as an unsecured creditor and required to return the underlying collateral to the seller or its assigns.

Risks Related to Investments in Other Investment Companies: The Funds may invest in other investment companies (including exchange-traded funds ("ETFs")). The risks of investing in a particular investment company will generally reflect the risks of the securities in which it invests and the investment techniques it employs. The securities of other investment companies may also be leveraged and therefore will be subject to leverage risk. If a Fund invests in investment companies that utilize leverage, the net asset value and market value of such shares will be more volatile and the yield to shareholders will tend to fluctuate more than the yield generated by shares of companies that do not use leverage. By investing in a Fund, you will indirectly bear fees and expenses charged by the underlying ETFs and other investment companies in which the Fund invests in addition to the Fund's direct fees and expenses. Shareholders would, therefore, be subject to duplicative fees and expenses to the extent the Fund invests in other investment companies.

Portfolio Holdings

The Funds have established policies and procedures with respect to the disclosure of portfolio holdings and other information concerning Fund characteristics. Such policies and procedures regarding disclosure of portfolio holdings are designed to prevent the misuse of material, non-public information about the Funds. A description of these policies and procedures is provided in the SAI.

FUND MANAGEMENT

Investment Adviser

The overall management of the business and affairs of the Funds is the responsibility of the Funds' Board of Trustees. Viking Fund Management, LLC, PO Box 500, Minot, ND 58702, a registered investment adviser under the Investment Advisers Act of 1940, has served as the investment adviser to the MNA Resources Fund, the High Income Fund, and the Growth & Income Fund since August 1, 2009, and as the investment adviser to the Dividend Harvest Fund since its inception. As discussed below, since May 5, 2008, J.P. Morgan Investment Management Inc. ("JPMIM"), 383 Madison Avenue, New York, New York 10179, has served as the investment sub-adviser to the High Income Fund and since January 17, 2020, M.D. Sass, LLC, 55 West 46th Street, 28th Floor, New York, New York 10036, has served as the investment sub-adviser to the Short Term Government Fund.

Since July 31, 2009, Viking Management has been a wholly-owned subsidiary of Corridor Investors, LLC ("Corridor"). Corridor is a North Dakota limited liability company that was organized in January 2009 by Robert E. Walstad, the chairman of the Board of Trustees of the Fund, and Shannon D. Radke, the president of Viking Management. Mr. Walstad and Mr. Radke are governors of Corridor and Mr. Radke is the president and chief executive officer of Corridor. Viking Management has served as investment adviser to The Integrity Funds and Viking Mutual Funds since 1999. The Integrity Funds consist of the Fund and six other series known as Integrity Dividend

Harvest Fund, Dividend Summit Fund, Integrity Growth & Income Fund, Integrity High Income Fund, Integrity Mid-North American Resources Fund, and Integrity Short Term Government Fund. Viking Mutual Funds consist of six series known as Viking Tax-Free Fund for Montana, Viking Tax-Free Fund for North Dakota, Kansas Municipal Fund, Maine Municipal Fund, Nebraska Municipal Fund, and Oklahoma Municipal Fund. Viking Management serves as investment adviser to The Integrity Funds and Viking Mutual Funds (collectively, the “Integrity/Viking Funds” or “Fund Complex”). As of November 7, 2023, Viking Management had net assets under management of approximately \$800 million.

Viking Management is responsible for (a) providing a program of continuous investment management for each Fund in accordance with the Fund’s investment objectives, policies and limitations; (b) making investment decisions for each Fund; and (c) placing orders to purchase and sell securities for each Fund. Each Fund’s investment advisory agreement with the Investment Adviser (each, an “Investment Advisory Agreement”) provides for an annual fund management fee computed daily and paid monthly at the following annual rates as a percentage of each Fund’s average daily net assets:

Fund	Annual Rate (as a percentage of average daily net assets)
Dividend Harvest Fund	0.75%
Dividend Summit Fund	0.75%
Growth & Income Fund	1.00%
High Income Fund	0.85%
MNA Resources Fund	0.50%
Short Term Government Fund	0.30%

For the fiscal year ended July 31, 2023, the Funds paid, after contractual fee waivers and expense reimbursements, if any, the following management fees to Viking Management, as a percentage of average net assets:

Fund	Fee Paid to Viking Management (as a percentage of average daily net assets)
Dividend Harvest Fund	0.27%
Dividend Summit Fund	0.00%
Growth & Income Fund	0.41%
High Income Fund	0.16%
MNA Resources Fund	0.44%
Short Term Government Fund	0.00%

Each Fund generally pays its own operating expenses, including but not limited to the costs associated with custodian, administrative, transfer agent, accounting, legal and audit services. (Please refer to the SAI for an additional discussion of Fund expenses.) A portion of these costs may be reimbursed by the Investment Adviser, either at its discretion or pursuant to a contractual fee waiver and expense reimbursement agreement. Viking Management has contractually agreed to waive fees and reimburse expenses through November 29, 2024 so that each Fund’s total annual operating expenses (excluding taxes, brokerage fees, commissions, extraordinary and non-recurring expenses, and acquired fund fees and expenses) do not exceed the percentage of average daily net assets set forth below. The terms of the expense limitation agreement provide that Viking Management is entitled to recoup from a Fund such amounts waived or reimbursed for a period of up to three years from the date on which Viking Management waived fees or reimbursed expenses for the Fund. Viking Management may recoup such amounts waived or reimbursed for a period of up to three years from the date of the reimbursement or waiver. The Fund will make repayments to the Adviser only if such repayment does not cause the annual Fund operating expenses (after the repayment is taken into account) to exceed both (1) the expense limitation in place when such amounts were waived or reimbursed and (2) the Fund’s current expense limitation.

In addition, certain affiliated service providers, including Integrity Fund Services, LLC and Integrity Funds Distributor, LLC, may voluntarily waive from time to time all or a portion of their respective fees, which waiver may occur before Viking Management waives any of its fee or reimburses any expenses to satisfy its contractual expense limitation agreement. Amounts voluntarily waived are not eligible for repayment. The contractual fee waivers currently in effect are as follows:

Fund	Class A	Class C	Class I
Dividend Harvest Fund	0.95%	1.70%	0.70%
Dividend Summit Fund	0.99%	1.74%	0.74%
Growth & Income Fund	1.24%	1.99%	0.99%
High Income Fund	0.99%	1.74%	0.74%
MNA Resources Fund	1.50%	2.00%	1.00%
Short Term Government Fund	0.80%	n/a	0.55%

With respect to the High Income Fund and Short Term Government Fund, the Investment Adviser pays any sub-advisory fees from its management fee, and not from the assets of such Fund.

Board Approval of Investment Advisory and Sub-Advisory Agreements

A discussion regarding the basis for the Board of Trustees' approval of the Funds' Investment Advisory Agreements and, with respect to the High Income Fund and the Short Term Government Fund, such Fund's sub-advisory agreement, is available in the Funds' semi-annual report to shareholders for the period ended January 31, 2023.

Portfolio Managers—Dividend Harvest Fund, Growth & Income Fund, and MNA Resources Fund

Viking Management provides advisory services to the Dividend Harvest Fund, Dividend Summit Fund, Growth & Income Fund, and MNA Resources Fund under a portfolio management team ("Team") that is jointly and primarily responsible for the day-to-day management of these Funds' portfolios. For the Dividend Harvest Fund, the Team currently consists of Shannon Radke, Josh Larson, Michael Morey, and Trey Welstad. For the Growth & Income Fund, the Team currently consists of Josh Larson and Trey Welstad. For the MNA Resources Fund, the Team currently consists of Shannon Radke, and Michael Morey.

Mr. Radke (Senior Portfolio Manager) is a governor and president of Viking Management and a governor of Corridor. He holds a Bachelor of Business Administration degree in Banking and Finance from the University of North Dakota and has been engaged in the securities business since 1988 as a securities representative and as operations manager and later as chief operating officer of an investment advisory firm. Mr. Radke founded Viking Management in September 1998 and has been a portfolio manager for over 20 years. In addition to the Funds, Mr. Radke serves as a co-portfolio manager to various other funds currently advised by Viking Management.

Mr. Larson (Portfolio Manager) holds Bachelor of Science degrees in Finance and Management from Minot State University. He joined Integrity Viking Funds in 2010 in the fund accounting division and as a research analyst for certain funds advised by Viking Management. Since May 2012, Mr. Larson has served as a co-portfolio manager of the Dividend Harvest Fund, since May 2013, he has served as a co-portfolio manager of the Growth & Income Fund, and since November 2014, he has served as a co-portfolio manager of funds under Viking Mutual Funds.

Mr. Morey (Portfolio Manager) holds a Bachelor of Science degree in Finance from Minot State University. He joined the fund accounting division of Integrity Viking Funds in 2009 and has been a research analyst for certain funds advised by Viking Management since February 2010. Since May 2012, Mr. Morey has served as a co-portfolio manager of the Dividend Harvest Fund, since May 2013, and he has served as a co-portfolio manager of the MNA Resources Fund.

Mr. Welstad (Portfolio Manager) holds Bachelor of Science degrees in Finance, Management, and Marketing from Minot State University. In May 2012, he graduated from Minot State University and, in June 2012, he began his work at Integrity Viking Funds as a research analyst for certain funds advised by Viking Management. Mr. Welstad is a CFA charterholder. He has served as a co-portfolio manager of the Growth & Income Fund and the Dividend Harvest Fund since May 2015.

Sub-Adviser and Portfolio Managers—High Income Fund

J.P. Morgan Investment Management Inc.

Since May 5, 2008, JPMIM has served as sub-adviser to the High Income Fund. JPMIM, located at 383 Madison Avenue, New York, New York 10179, is a registered investment adviser under the Investment Advisers Act of 1940, as amended, and provides investment advisory services to a substantial number of institutional and other investors. JPMIM is a wholly-owned subsidiary of J.P. Morgan Asset Management Holdings Inc., which is a wholly-owned subsidiary of JPMorgan Chase & Co. ("JPMC"), a bank holding company.

As compensation for sub-advisory services provided to the High Income Fund, the Investment Adviser is required to pay JPMIM a fee computed at an annual rate of 0.35% of the Fund's average daily net assets (allocated proportionally between Class A, Class C, and Class I shares of the High Income Fund).

Portfolio Manager Information

The portfolio managers identified below are jointly responsible for the day-to-day management of the Fund's portfolio.

Robert L. Cook, managing director, is the global head of the Global High Yield team in the Global Fixed Income, Currency & Commodities (GFICC) group. Based in Indianapolis, he is the lead portfolio manager and is responsible for overseeing all high yield total return strategies, sub-advised mutual fund assets and absolute return credit products. Mr. Cook is also a member of the Global Fixed Income Macro Strategy Team. Prior to joining JPMIM in 2004, Mr. Cook was co-head of the fixed income investment process at 40|86 Advisors, where he was responsible for managing high yield total return assets and was the director of credit research. Prior to joining 40|86 Advisors in 1994, he worked at PNC Bank's investment banking division in Pittsburgh, Pennsylvania, where he was

involved with syndicated loans, mergers and acquisitions, private placements and structured products. Mr. Cook holds a B.S. in finance from Indiana University. He is a CFA charterholder and a member of the Indianapolis Society of Financial Analysts.

Thomas Hauser, managing director, is a member of the Global Fixed Income, Currency & Commodities (GFICC) group. Based in Indianapolis, he is the co-lead portfolio manager within the High Yield Fixed Income Team and is responsible for overseeing high yield total return strategies, sub-advised mutual fund assets and absolute return credit products. Prior to joining JPMIM in 2004, Mr. Hauser was a co-portfolio manager on three mutual funds and co-head of the Collateralized Bond Obligation (CBO) Group at 40|86 Advisors. Prior to joining 40|86 Advisors in 2001, he had been with Van Kampen Investments since 1993, where he was a vice president responsible for co-managing several high yield mutual funds and was head of the high yield trading desk. Mr. Hauser holds a B.S. in finance from Miami (Ohio) University. He is a CFA charterholder and a member of the Indianapolis Society of Financial Analysts.

Sub-Adviser and Portfolio Managers—Short Term Government Fund

M.D. Sass, LLC

M.D. Sass serves as investment sub-adviser to the Fund pursuant to an investment sub-advisory agreement between Viking Management and M.D. Sass (the “Sub-Advisory Agreement”). M.D. Sass, located at 55 W. 46th Street, 28th Floor, New York, New York 10036, is a registered investment adviser under the Investment Advisers Act of 1940, as amended, and together with its affiliates manage over \$5 billion in separate account, hedge fund and private equity fund assets as of October 31, 2023.

As compensation for sub-advisory services provided to the Fund, Viking Management is required to pay M.D. Sass a fee computed at an annual rate of 0.15% of the Fund’s average daily net assets allocated to M.D. Sass.

Portfolio Manager Information

The portfolio managers identified below are jointly responsible for the day-to-day management of the Fund’s portfolio.

M.D. Sass uses a team approach for portfolio security selection and decision-making. Mr. Lipkee Lu, Mr. Steve Clancy, and Ms. Nancy Persoons are the Portfolio Managers for the Fund. The portfolio managers manage all accounts and investment vehicles on a team basis. Specifically, all portfolio managers are involved equally in all functional roles in the process of portfolio management, including strategy, trading, research, portfolio rebalancing, compliance and other portfolio-related functions. The collective decision making and implementation process is made effective due to the government/agency nature of the underlying investment securities.

Lipkee Lu, CFA®

Mr. Lu serves as the Director of Fixed Income Investments of M.D. Sass. Prior to joining M.D. Sass in 2009, Mr. Lu was Vice President/Senior Portfolio Manager at Alliance Bernstein Investments, Inc. from 2005 to 2008. Previously, he was a Senior Vice President and Structured Product Portfolio Manager at Deerfield Capital Management LLC from March 2001 to 2005 and a Portfolio Manager and Quantitative Analyst at Zurich Scudder Investments, Inc. from 1997 to 2001. Mr. Lu has 23 years of investment experience. He received a B.A. degree in Economics and a M.S. degree in Finance from the University of Wisconsin—Madison, and a M.B.A. in Quantitative Finance from the University of Chicago.

Steve Clancy, CFA®

Mr. Clancy serves as a Managing Director, Fixed Income of M.D. Sass. Prior to joining M.D. Sass in 2012, Mr. Clancy served as Vice President/Portfolio Manager at Dwight Asset Management where he helped to manage and trade a \$9 billion portfolio of Agency and non-Agency MBS. Mr. Clancy has 17 years of investment experience. Mr. Clancy holds a B.A. in Mathematics and Economics from Cornell University and also holds the CFA® designation.

Nancy Persoons

Ms. Persoons serves as the Senior Vice President, Fixed Income of M.D. Sass. Prior to joining M.D. Sass in 1989, Ms. Persoons was on the Fixed Income trading desk at Prudential-Bache Securities. Ms. Persoons has 37 years of investment experience. She holds a B.A., Economics and Business from State University of New York, Plattsburgh.

CFA® is a registered trademark owned by the CFA Institute.

Additional Information about Portfolio Managers

The SAI contains additional information about the compensation of the portfolio managers, other accounts managed by each portfolio manager, and each portfolio manager’s ownership of securities of the Funds with respect to which such person has or shares management responsibility.

Manager-of-Managers

Under the Investment Advisory Agreement between Viking Management and the Funds, Viking Management is authorized, at its own cost and expense, to enter into a sub-advisory agreement with a sub-adviser with respect to the respective Fund. If an investment adviser delegates portfolio management duties to a sub-adviser, the Investment Company Act of 1940 (the “1940 Act”) generally requires that the sub-advisory agreement between the adviser and the sub-adviser be approved by the Board and by Fund shareholders. Specifically, Section 15 of the 1940 Act, in relevant part, makes it unlawful for any person to act as an investment adviser (including as a sub-adviser) to a mutual fund, except pursuant to a written contract that has been approved by shareholders.

In 2009, shareholders of the then-existing funds of The Integrity Funds approved a “manager-of-managers” structure for their fund. The initial shareholder of the Fund approved the structure for the Fund. Under the terms of an order from the Securities and Exchange Commission (“SEC”), the Fund may be managed under a “manager-of-managers” structure (the “SEC Order”). The SEC Order generally permits Viking Management to enter into and materially amend sub-advisory agreements with unaffiliated sub-advisers subject to approval by the Board of Trustees, but without obtaining shareholder approval. If a sub-adviser is hired to provide sub-advisory services to the Fund, the Fund will provide information concerning the sub-adviser to shareholders.

Under the “manager-of-managers” structure for a Fund, Viking Management would remain the primary provider of investment advisory services to the Fund, would be permitted to hire or change sub-advisers, as appropriate, and would have ultimate responsibility (subject to oversight by the Funds’ Board of Trustees) to oversee sub-advisers and recommend to the Board their hiring, termination, and replacement. Viking Management would remain responsible for providing general management services to a Fund utilizing the manager-of-managers structure, including overall supervisory responsibility for the general management and investment of the Fund’s assets, and, subject to review and approval of the Board of Trustees, would, among other things: (i) set the Fund’s overall investment strategies; (ii) evaluate, select, and recommend sub-advisers to manage all or a part of the Fund’s assets; (iii) when appropriate, allocate and reallocate the Fund’s assets among multiple sub-advisers; (iv) monitor and evaluate the performance of sub-advisers; and (v) implement procedures reasonably designed to ensure that the sub-advisers comply with the Fund’s investment objectives, policies, and restrictions.

THE SHARES OFFERED

Each Fund (except for the Short Term Government Fund) offers Class A shares, Class C shares, and Class I shares. The Short Term Government Fund offers Class A shares and Class I shares. As described below, Class A shares, Class C shares, and Class I shares differ in certain ways, including with respect to sales charges and fees. Information about the manner in which the Funds offer shares is set forth below in this section and subsequent sections of the prospectus. Information relating to eligibility to invest in a particular share class, minimum investment amounts, special services, and sales charge reductions and waivers applies if you are transacting directly with the Funds. Shares of the Funds are also available through certain financial intermediaries, such as a bank or broker-dealer. If you invest through an intermediary, you are not transacting directly with a Fund and you must follow that intermediary’s transaction procedures which may include different requirements to invest in a particular share class, minimum investment amounts, special services, and sales charge reductions and waivers. Appendix A to the prospectus sets forth a description of the sales charge reductions and waivers applicable to Fund shares purchased through Edward Jones, Raymond James, Oppenheimer & Co. Inc., Robert W. Baird & Co., and Morgan Stanley Wealth Management, as such information was provided to the Funds by the intermediary.

Your intermediary may impose charges for its services in addition to the fees charged by the Funds. You should consult with your intermediary for information regarding its conditions, procedures, and fees for transacting in Fund shares. The Funds are not responsible for the implementation of any intermediary’s transaction procedures or sales charge reductions and waivers.

Class A Shares

You can buy Class A shares at the offering price, which is the net asset value (“NAV”) per share plus an up-front sales charge; however, if you are a shareholder of the Growth & Income Fund and you were also a shareholder of that Fund on April 30, 2011 (a “Pre-May 2011 Existing Shareholder”), you will not be subject to an up-front sales charge on purchases of additional Class A shares of the Growth & Income Fund. Each Fund has adopted a plan under Rule 12b-1 under the 1940 Act with respect to its Class A shares that authorizes each Fund to compensate its distributor, Integrity Funds Distributor, LLC (“Integrity Funds Distributor” or the “Distributor”) for services performed and expenses incurred by the Distributor in connection with the distribution of Class A shares of the Fund and for providing personal services and the maintenance of shareholder accounts. Under its respective plan, with respect to its Class A shares, the Dividend Harvest Fund, Dividend Summit Fund, Growth & Income Fund, High Income Fund, and Short Term Government Fund each may pay an annual Rule 12b-1 fee of up to 0.25%, of its average daily net assets for distribution and shareholder services, and the MNA Resources Fund may pay an annual Rule 12b-1 fee of up to 0.50% (up to 0.25% for distribution and up to 0.25% for shareholder services). The Distributor may pay a portion of the distribution and services fees to your financial adviser for providing distribution and ongoing services to you, respectively. The Distributor retains the up-front sales charge and the service fee on accounts with no authorized dealer

of record. Because these fees are paid out of a Fund's assets on an on-going basis, over time these fees will increase the cost of your investment and may cost you more than paying other types of sales charges.

Please see Appendix A—Intermediary-Specific Sales Charge Waivers and Discounts in the prospectus for a description of variations in sales charges and waivers for Fund shares purchased through Edward Jones, Raymond James, Oppenheimer & Co. Inc., Robert W. Baird & Co., and Morgan Stanley Wealth Management.

The up-front sales charge and the commissions paid to dealers for the Dividend Harvest Fund, Dividend Summit, Growth & Income Fund, and MNA Resources Fund are as follows:

Amount of Purchase	Sales Charge as % of Public Offering Price	Sales Charge as % of Net Amount Invested	Authorized Dealer Commission as % of Public Offering Price
Less than \$50,000	5.00%	5.26%	4.25%
\$50,000 but less than \$100,000	4.50%	4.71%	3.75%
\$100,000 but less than \$250,000	3.50%	3.63%	2.75%
\$250,000 but less than \$500,000	2.50%	2.56%	1.75%
\$500,000 but less than \$1,000,000	1.75%	1.78%	1.25%
\$1,000,000 and above ⁽¹⁾	0.00%	0.00%	1.00%

⁽¹⁾ In the case of investments at or above the \$1 million breakpoint (where you do not pay an initial sales charge), a 1% Contingent Deferred Sales Charge ("CDSC"), based on the cumulative cost of the Class A shares being sold or the current account market value, whichever is less, may be assessed on shares redeemed within 24 months of purchase (excluding shares purchased with reinvested dividends and/or distributions); however, a CDSC will not be assessed on redemptions of Class A shares of the Growth & Income Fund that were purchased by Pre-May 2011 Existing Shareholders.

The up-front sales charge and the commissions paid to dealers for the High Income Fund are as follows:

Amount of Purchase	Sales Charge as % of Public Offering Price	Sales Charge as % of Net Amount Invested	Authorized Dealer Commission as % of Public Offering Price
Less than \$50,000	4.25%	4.44%	3.50%
\$50,000 but less than \$100,000	3.75%	3.90%	3.00%
\$100,000 but less than \$250,000	3.25%	3.36%	2.50%
\$250,000 but less than \$500,000	2.75%	2.83%	2.00%
\$500,000 but less than \$750,000	2.00%	2.04%	1.50%
\$750,000 but less than \$1,000,000	1.00%	1.01%	0.75%
\$1,000,000 and above ⁽¹⁾	0.00%	0.00%	1.00%

⁽¹⁾ In the case of investments at or above the \$1 million breakpoint (where you do not pay an initial sales charge), a 1% CDSC, based on the cumulative cost of the Class A shares being sold or the current account market value, whichever is less, may be assessed on shares redeemed within 24 months of purchase (excluding shares purchased with reinvested dividends and/or distributions).

For each Fund shown above, with respect to Class A shares, if you invest \$1 million or more, either as a lump sum or through the rights of accumulation quantity discount or letter of intent programs, you can buy Class A shares without an initial sales charge. The Distributor may pay a commission of 1%, out of its own resources, to broker-dealers who initiate and are responsible for the purchase of Class A shares for qualified retirement plans or of \$1 million or more.

The up-front sales charge and the commissions paid to dealers for Class A shares of the Short Term Government Fund are as follows:

Amount of Purchase	Sales Charge as % of Public Offering Price	Sales Charge as % of Net Amount Invested	Authorized Dealer Commission as % of Public Offering Price
Less than \$50,000	2.00%	2.04%	1.50%
\$50,000 but less than \$100,000	1.75%	1.78%	1.50%
\$100,000 but less than \$200,000	1.50%	1.52%	1.25%
\$200,000 and above ⁽¹⁾	0.00%	0.00%	0.40%

⁽¹⁾ In the case of investments at or above the \$200,000 breakpoint (where you do not pay an initial sales charge), a 0.40% CDSC, based on the cumulative cost of the Class A shares being sold or the current account market value, whichever is less, may be assessed on shares redeemed within 24 months of purchase (excluding shares purchased with reinvested dividends and/or distributions).

If you invest \$200,000 or more in Class A shares of the Short Term Government Fund, either as a lump sum or through the rights of accumulation quantity discount or letter of intent programs, you can buy Class A shares without an initial sales charge. The Distributor may pay a commission of 0.40%, out of its own resources, to broker-dealers who initiate and are responsible for the purchase of Class A shares for qualified retirement plans of \$200,000 or more.

Class C Shares

You can buy Class C shares of each Fund (except the Short Term Government Fund) at the offering price, which is the NAV per share. Each of the Funds (except the Short Term Government Fund) has adopted a plan under Rule 12b-1 with respect to its Class C shares that authorizes it to compensate the Distributor for services performed and expenses incurred by the Distributor in connection with the distribution of its Class C shares, for providing personal services, and for the maintenance of shareholder accounts. Under the plan of each Fund (except the Short Term Government Fund), with respect to its Class C shares, the Fund may pay an annual Rule 12b-1 fee of up to 1% (up to 0.75% for distribution and up to 0.25% for shareholder services) of its allocable average daily net assets for distribution and shareholder services. The Distributor may pay a portion of the distribution and services fees to your financial adviser for providing distribution and ongoing services to you, respectively. Because these fees are paid out of the Fund's assets on an on-going basis, over time these fees will increase the costs of your investment and may cost you more than paying other types of sales charges. There is a 1% CDSC on any Class C shares you sell within 12 months of purchase. The CDSC for the Class C shares is based on the current value of the shares being sold or their NAV when purchased, whichever is less. There is no CDSC on shares you acquire by reinvesting your dividends or capital gains distributions.

The holding period for the CDSC begins on the day you buy your shares. Your shares will age one month on that same date the next month and each following month. For example, if you buy shares on the 18th of the month, they will age one month on the 18th day of the next month and each following month.

To keep your CDSC as low as possible, each time you place a request to sell shares, the Fund will first sell any shares in your account that are not subject to a CDSC. If there are not enough of these to meet your request, the Fund will sell the shares in the order they were purchased.

Automatic Conversion of Class C Shares

Class C shares held for eight years after purchase are eligible for automatic conversion into Class A shares of the same Fund (the Conversion Feature). The automatic conversion pursuant to the Conversion Feature will generally occur in the month of, or the month following, the eighth anniversary after a purchase of Class C shares (the Conversion Date).

Automatic conversions pursuant to the Conversion Feature will be on the basis of the NAV per share, without the imposition of any sales charge (including a CDSC), fee or other charge. All such automatic conversions of Class C shares are expected to constitute a tax-free exchange for federal income tax purposes. Shareholders should consult with their tax advisor regarding the state and local tax consequences of such conversion.

Class C shares of a Fund acquired through a reinvestment of dividends and distributions from the Fund will convert to Class A shares of the Fund at the same time as the conversion of the Class C shares from which the reinvested dividends and distributions were received.

Class C shares held through a financial intermediary in omnibus accounts may be converted pursuant to the Conversion Feature by the financial intermediary once it is determined that the Class C shares have been held for the required holding period. It is the financial intermediary's (and not the Fund's) responsibility to keep records and to ensure that the shareholder is credited with the proper holding period, as the Fund and its agents may not have transparency into how long a shareholder has held Class C shares for purposes of determining whether such Class C shares are eligible to automatically convert pursuant to the Conversion Feature. In order to determine eligibility for automatic conversion in these circumstances, it is the responsibility of the shareholder or their financial intermediary to determine that the shareholder is eligible to exercise the Conversion Feature, and the shareholder or their financial intermediary may be required to maintain records that substantiate the holding period of Class C shares.

In addition, a financial intermediary may sponsor and/or control programs or platforms that impose a different conversion schedule or eligibility requirements for conversions of Class C shares. In these cases, Class C shares of certain shareholders may not be eligible for automatic conversion pursuant to the Conversion Feature as described above. The Fund has no responsibility for overseeing, monitoring or implementing a financial intermediary's process for determining whether a shareholder meets the required holding period for automatic conversion. Please consult with your financial intermediary if you have any questions regarding the Conversion Feature.

Please see Appendix A—Intermediary-Specific Sales Charge Waivers and Discounts in the prospectus for a description of variations in sales charges and waivers for Fund shares purchased through Edward Jones, Raymond James, Oppenheimer & Co. Inc., Robert W. Baird & Co., and Morgan Stanley Wealth Management.

Class I Shares

You can buy Class I shares of each Fund at the offering price, which is the net asset value ("NAV") per share without any up-front sales charge. As Class I shares are not subject to sales charges or ongoing service or distribution fees, they have lower ongoing expenses than the other classes.

Class I shares may also be available on certain brokerage platforms. An investor transacting in Class I shares through a broker acting as an agent for the investor may be required to pay a commission and/or other forms of compensation to the broker. Fund shares are available in other share classes that have different fees and expenses.

In addition to certain categories of investors listed below, Class I shares are available for purchase by clients of financial intermediaries who charge such clients an ongoing fee for advisory, investment, consulting or related services. Such clients may include individuals, corporations, endowments and foundations. The minimum initial investment is \$1,000 (\$50 for accounts opened through an automatic investment plan account and \$250 for an IRA account).

Class I shares are available for purchase by the following categories of investors:

- investors who purchase through a fee-based advisory account with a financial intermediary (as described above);
- employer sponsored retirement and benefit plans, endowments, or foundations;
- banks or bank trust departments investing for their own account or for funds over which they exercise exclusive discretionary investment authority and that are held in a fiduciary, agency, advisory, custodial, or similar capacity;
- subject to applicable law and/or exemptive relief, any registered investment company that is not affiliated with the Integrity/Viking Funds and which invest in securities of other investment companies;
- any plan organized under Section 529 under the Internal Revenue Code of 1986, as amended (the “Code”) (*i.e.*, a 529 plan);
- any person who, for at least the last 90 days, has been an officer, director, or employee of any financial intermediary for themselves, their immediate family members (“immediate family members” are defined as spouses or domestic partners, parents, children, grandparents, grandchildren, parents-in-law, sons-in-law and daughters-in-law, siblings, a sibling’s spouse, and a spouse’s siblings), their IRAs or employer sponsored IRAs;
- current, former, and retired trustees/directors, employees, and officers of any Integrity/Viking Fund for themselves, their immediate family members, their IRAs or employer sponsored IRAs;
- current, former, and retired officers, directors, and governors of Corridor and its affiliates, for themselves, their immediate family members, their IRAs, or employer sponsored IRAs;
- current, former, and retired employees of Corridor and its affiliates for themselves, their immediate family members, their IRAs or employer sponsored IRAs or any corporation, partnership, sole proprietorship, or other business organization in which such persons own a 25% or greater stake; and
- persons who retain an ownership interest in or who are the beneficial owners of an interest in Corridor for themselves, their immediate family members, their IRAs or employer sponsored IRAs, any corporation, sole partnership, or other business organization in which such person owns a 25% or greater stake.

Unless otherwise noted above, Class I shares are not available for IRAs or employer sponsored IRAs unless purchased through a fee-based advisory account with a financial intermediary.

Holders of Class I shares may purchase additional Class I shares using dividends and capital gains distributions on their shares.

Please refer to the SAI for more information about Class I shares, including more detailed eligibility requirements. Additional information is also available from your financial advisor, who can also help you prepare any necessary application forms.

HOW TO REDUCE YOUR SALES CHARGE

There are a number of ways to reduce or eliminate the up-front sales charge on Class A shares of the Funds. To receive a reduction in your initial sales charge, you must let your financial advisor know that you are eligible for a reduction, or else you may not receive a sales charge discount to which you are otherwise entitled. In order to determine your eligibility to receive a sales charge discount, it may be necessary to provide your adviser with information and records (including account statements) of all relevant accounts invested in a Fund and other funds in the Integrity/Viking Funds, such as:

- information or records regarding shares of the Funds or other Integrity/Viking Funds held in all accounts (e.g., retirement accounts) of the shareholder at the financial intermediary;
- information or records regarding shares of the Funds or other Integrity/Viking Funds held in any account of the shareholder at another financial intermediary; and
- information or records regarding shares of the Funds or other Integrity/Viking Funds held at any financial intermediary by related parties of the shareholder, such as members of the same family or household.

The Integrity/Viking Funds include: (1) the six series of The Integrity Funds known as the Integrity Dividend Harvest Fund, the Integrity Dividend Summit Fund, the Integrity Growth & Income Fund, the Integrity High Income Fund, the Integrity Mid-North American Resources Fund, and the Integrity Short Term Government Fund; and (2) the six series of Viking Mutual Funds known as the Viking Tax-Free Fund for Montana, the Viking Tax-Free Fund for North Dakota, the Kansas Municipal Fund, the Maine Municipal Fund, the Nebraska Municipal Fund, and the Oklahoma Municipal Fund.

Please retain any records necessary to substantiate your historical costs because the Funds, their transfer agent, and financial intermediaries may not maintain this information. The Funds may modify or discontinue these programs at any time.

Class A Sales Charge Reductions

Rights of Accumulation

A right of accumulation (“ROA”) permits an investor to aggregate shares owned by you, your spouse, and your children or grandchildren, if they are under the age of 21 (cumulatively, the “Investor”) in some or all of the Integrity/Viking Funds to reach a breakpoint discount. Your retirement plan accounts, family trust accounts, and solely-controlled business accounts may also be included. The value of shares eligible for a cumulative quantity discount equals the cumulative cost of the shares purchased (including reinvested dividends) or the current account market value, whichever is greater. The current market value of the shares is determined by multiplying the number of shares by the previous day’s net asset value.

Letter of Intent

An investor may qualify for a reduced sales charge immediately by stating his or her intention to invest in one or more of the Integrity/Viking Funds, during a 13-month period, an amount that would qualify for a reduced sales charge and by signing a nonbinding Letter of Intent, which may be signed at any time within 90 days after the first investment to be included under the Letter of Intent. However, if an investor does not buy enough shares to qualify for the lower sales charge by the end of the 13-month period (or when the investor sells his or her shares, if earlier), the sales charge will be adjusted upward and shares that were purchased under the reduced sales charge schedule will be liquidated to pay the additional sales charge owed to the extent unpaid by the investor.

Group Purchases

Each Fund has a group investment and reinvestment program (the “Group Program”) that allows investors to purchase shares of a Fund with a lower minimum initial investment and with a lower sales charge if the investor and the Group Programs of which he or she is a participant meet certain cost saving criteria set forth in the SAI.

Investments of \$1 Million or More

For each Fund, if you invest \$1 million or more (\$200,000 or more for Short Term Government Fund), either as a lump sum, through the rights of accumulation quantity discount, or through the letter of intent program, you can buy Class A shares without an initial sales charge. However, you may be subject to a 1% CDSC on shares redeemed within 24 months of purchase; a CDSC will not be assessed on redemptions of shares of the Growth & Income Fund by Pre-May 2011 Existing Shareholders. For each Fund, the CDSC is based on the cumulative cost of the shares being sold or the current account market value, whichever is less. The CDSC does not apply to shares acquired by reinvesting dividends and/or distributions in the applicable Fund. Each time you place a redemption request, the Funds will sell any shares in your account that are not subject to a CDSC first. If there are not enough of these shares to meet your request, the Funds will sell the shares in the order in which they were purchased. The same method will be used if you exchange your shares into another Integrity/Viking Fund.

Please refer to the SAI for detailed program descriptions and eligibility requirements of the sales charge reduction programs. Additional information is available from your financial adviser or by calling 800-276-1262. Your financial adviser can also help you prepare any necessary application forms. You or your financial adviser must notify the Distributor at the time of each purchase if you are eligible for any of these programs. The Funds may modify or discontinue these programs at any time.

CDSC Waivers

For each Fund, a CDSC may not be assessed on redemptions of such Fund:

- following the death of the last surviving shareholder on the account or the post-purchase disability of all registered shareholders, as defined in Section 729(m)(7) of the Code (the beneficiary on an account with a Transfer on Death registration is deemed the last surviving shareholder on the account);
- due to the termination of a trust following the death of the trustor/grantor or beneficiary, provided that the trust document specifically states that the trust is terminated upon death;

- representing minimum required distributions from an IRA or other retirement plan as required under the Code.

Please see Appendix A—Intermediary-Specific Sales Charge Waivers and Discounts in the prospectus for a description of variations in sales charges and waivers for Fund shares purchased through Edward Jones, Raymond James, Oppenheimer & Co. Inc., Robert W. Baird & Co., and Morgan Stanley Wealth Management.

Class A Sales Charge Waivers

Class A shares may be purchased without an initial sales charge by particular classes of investors, including:

- current and former registered representatives and employees, including their immediate families, of broker-dealers having selling group agreements with Integrity Funds Distributor or any trust, pension, profit-sharing, or other benefit plan for such persons (immediate family is defined to include the individual, his/her spouse, and their children, their parents, and their siblings);
- current and former employees (including their spouses and dependent children) of banks and other financial services firms that provide advisory, custody, or administrative services related to the Fund pursuant to an agreement with the Fund, Corridor or one of its affiliates, or any trust, pension, profit-sharing, or other benefit plan for such persons;
- individuals and institutions purchasing shares in connection with the acquisition of the assets of or merger or consolidation with another investment company;
- investors purchasing through certain asset- or transaction-fee based investment advisers, broker-dealers, bank trust departments, and other financial services firms;
- 401(k), 403(b), 457, profit-sharing, and defined benefit plans; excluded from this waiver are SEPs, SARSEPs, and SIMPLE IRAs; and
- foundations and endowments, provided the foundation or endowment has assets of \$1 million or more.

The elimination of the up-front sales charge for certain individuals and institutions is provided because of anticipated economies of scale and reduced sales-related efforts. A Fund must be notified in advance that you believe your investment qualifies for a sales charge reduction or waiver. Additional information is also available from the SAI or from your financial adviser.

Please see Appendix A—Intermediary-Specific Sales Charge Waivers and Discounts in the prospectus for a description of variations in sales charges and waivers for Fund shares purchased through Edward Jones, Raymond James, Oppenheimer & Co. Inc., Robert W. Baird & Co., and Morgan Stanley Wealth Management.

HOW TO BUY SHARES

Fund shares may be purchased on any business day, which is any day the New York Stock Exchange (“NYSE”) is open for business. Generally, the NYSE is closed on weekends, federal holidays, and Good Friday. The close of regular trading on the NYSE is normally 3:00 p.m., Central Time. Each Fund will process purchase orders that it receives in proper form prior to the close of regular trading on a day on which the NYSE is open at the NAV determined on that day. An order is in “proper form” if the Fund’s transfer agent, Integrity Fund Services, LLC (“Integrity Fund Services” or the “Transfer Agent”), has all of the information and documentation it deems necessary to effect your order, which would typically mean that it has received federal funds, a wire, a check or Automated Clearing House (“ACH”) transaction, together with a completed account application. Should you wish to purchase shares via wire transfer, please call the Transfer Agent at 800-601-5593 for wire instructions. The wire must be received by 3:00 p.m., Central time, for you to receive that day’s share price. Each Fund will process purchase orders that it receives in proper form after the close of regular trading on the next day that the NYSE is open for regular trading.

You may buy shares through investment dealers who have sales agreements with the Distributor or directly from the Distributor. If you do not have a dealer, call 800-276-1262 and the Distributor can refer you to one. Shares may also be purchased through banks and certain other financial institutions that have agency agreements with the Distributor. If you buy, hold, or sell Fund shares through an investment dealer, bank, or other financial institution or intermediary, the transaction policies of the intermediary will apply, which may vary from those described below. In addition, your intermediary may charge you fees for executing transactions and for other services that are not described in the prospectus. These shareholders should contact their financial intermediary for additional information regarding its transaction policies, procedures, and fees.

Purchase requests should be addressed to the authorized dealer or agent from whom you received this prospectus. Such dealers or agents may place a telephone order with the Distributor for the purchase of shares. Checks should be made payable to the name of the applicable

Fund. The Transfer Agent will charge a \$15.00 fee against a shareholder's account for any payment returned for insufficient funds. The shareholder will also be responsible for any losses suffered by the Fund as a result.

A Fund may reject any purchase orders, including exchanges, for any reason. A Fund will reject any purchase orders, including exchanges, from investors that, in the Investment Adviser's opinion, may constitute excessive trading. For these purposes, the Investment Adviser may consider an investor's trading history in the Fund or other Integrity/Viking Funds, and accounts under common ownership or control.

The Funds may not be available for purchase in every state. Please consult your investment representative or Integrity Fund Services concerning the availability of a particular Fund in your state.

To make any ownership changes to any accounts over \$100,000, a signature guarantee will be required.

Minimum Investments and Share Price

You may open an account with a minimum initial investment of \$1,000 (\$50 for the Automatic Investment Plan (described below) and \$250 for an IRA) and make additional investments at any time with as little as \$50. The Funds may change these minimum investments at any time and may accept investments of smaller amounts at their discretion.

Each Fund reserves the right to redeem Fund accounts that are reduced to a value of less than \$1,000 for any reason, including market fluctuation. Should a Fund elect to exercise this right, the investor will be notified before such redemption is processed that the value of the investor's account is less than \$1,000 and that the investor will have sixty days to increase the account to at least the \$1,000 minimum amount before the account is redeemed. The investor will not be assessed a CDSC if the account is redeemed.

The price you pay for shares will depend on how and when the Fund receives your order. You will receive the share price next determined after the Fund has received your order. If you place your order by contacting the Fund directly, your order must be received by the Fund prior to the close of regular trading of the NYSE (normally 3:00 p.m., Central Time) for you to receive that day's price. However, if you place your order through a dealer prior to the close of regular trading of the NYSE, you will receive that day's price. Dealers are obligated to transmit orders promptly. See "Net Asset Value" for a discussion of how shares are priced.

IMPORTANT INFORMATION ABOUT PURCHASES

Customer Identification Procedures

The Funds are required under the Uniting and Strengthening America by Providing Appropriate Tools Required to Intercept and Obstruct Terrorism Act of 2001 ("USA PATRIOT Act") to adopt certain policies and programs to prevent money-laundering activities, including procedures to verify the identity of customers opening new accounts, including legal entity customers. When completing a new account application, you will be required to supply your full name, date of birth, social security number or other taxpayer identification number, and permanent street address (not a P.O. box) to assist in verifying your identity. Effective May 11, 2018, these anti-money laundering and customer identification procedures apply with respect to new accounts opened by legal entity customers, and the Funds require similar identifying information for each individual that directly or indirectly owns 25% or more of the equity interests in the legal entity or that has managerial control of the legal entity. However, the requirements to look through to and obtain identifying information of the beneficial owners and controlling managers of legal entity customers generally do not apply to financial institutions regulated by a federal or state regulator, entities registered with the SEC, and omnibus accounts of financial intermediaries, among other excluded entities. As required by law, the Funds may employ various procedures, such as comparing the information to fraud databases or requesting additional information or documentation from you, to ensure that the information supplied by you is correct. Under certain circumstances, it may be appropriate for the Funds to close or suspend further activity in an account.

Shares of the Funds have not been registered for sale outside of the United States. The Funds generally do not sell shares to investors residing outside of the United States, even if they are United States citizens or lawful permanent residents, except to investors with United States military APO (Army Post Office) or FPO (Fleet Post Office) addresses.

Each Fund reserves the right to redeem Fund accounts that are reduced to a value of less than \$1,000 for any reason, including market fluctuation. Should a Fund elect to exercise this right, the investor will be notified before such redemption is processed that the value of the investor's account is less than \$1,000 and that the investor will have sixty days to increase the account to at least the \$1,000 minimum amount before the account is redeemed.

Purchases Made Through a Financial Adviser

Financial advisers or other dealer firms may charge their customers a processing or service fee in connection with the purchase or redemption of Fund shares. The amount and applicability of such a fee are determined and disclosed to its customers by each individual dealer. Processing or service fees typically are fixed, nominal dollar amounts and are in addition to the sales charges and Fund expenses described in the prospectus and SAI. Your dealer will provide you with specific information about any processing or service fees you will be charged.

If you purchase your Fund shares through a financial adviser, which includes any broker, dealer, bank, bank trust department, registered investment adviser, financial planner, retirement plan administrator, or any other institutions having a selling, administration, or similar agreement with the Investment Adviser, the Distributor, or one of its affiliates, the financial adviser may receive commissions or other concessions which are paid from various sources, such as from the sale charges and Rule 12b-1 distribution and service fees, or otherwise from the Investment Adviser or the Distributor. Please refer to the SAI for details.

In addition, the Investment Adviser, the Distributor, or one or more of their affiliates, out of their own resources, may make cash payments to certain financial advisers who support the sale of Fund shares in recognition of their marketing, transaction processing and/or administrative services support. This compensation is not reflected in the fees and expenses listed for each Fund under the heading “Fees and Expenses of the Fund” in its Fund Summary.

The Distributor or one or more of its affiliates may also from time to time make additional payments, out of their own resources, to certain authorized dealers that sell shares of the Integrity/Viking Funds distributed by the Distributor in order to promote the sales and retention of fund shares by those firms and their customers. The amounts of these payments vary by authorized dealer firm and, with respect to a given firm, are typically calculated by reference to the amount of the firm’s recent gross sales of Integrity/Viking Fund shares and/or total assets of Integrity/Viking Funds held by the firm’s customers. The level of payments that the Distributor is willing to provide to a particular authorized dealer firm may be affected by, among other factors:

- the firm’s total assets held in and recent investments in Integrity/Viking Funds;
- the firm’s level of participation in Integrity/Viking Funds sales and marketing programs;
- the firm’s compensation program for its registered representatives who sell Integrity/Viking Fund shares and provide services to Integrity/Viking Funds’ shareholders; and
- the asset class of the Integrity/Viking Funds for which these payments are provided.

For the twelve months ended July 31, 2023, these payments in the aggregate were approximately 0.002% to 0.012% of the assets in the Integrity/Viking Funds, although payments to particular authorized dealers can be significantly higher. The SAI contains additional information about these payments, including the names of the dealer firms to which the payments are expected to be made. This compensation is not reflected in the fees and expenses listed for each Fund under the heading “Fees and Expenses of the Fund” in its Fund Summary. The Distributor or one or more of its affiliates may also make payments to dealers and other financial intermediaries in connection with sales meetings, due diligence meetings, prospecting seminars and other meetings at which the Distributor promotes its products and services.

The amount of payments by the Distributor and/or its affiliates to a dealer or other financial intermediary could be significant and could create an incentive for the dealer or other intermediary or its representatives to recommend or offer shares of the Funds to you. The dealer or other financial intermediary may elevate the prominence or profile of the Funds within its organization by, for example, placing the Funds on a list of preferred or recommended funds and/or granting the Distributor and/or its affiliates preferential or enhanced opportunities to promote the Funds in various ways within the dealer’s or other financial intermediary’s organization.

Automatic Investment Plan—The Monthomatic Investment Plan

Once you have established a Fund account, systematic investing allows you to make monthly investments through automatic deductions from your bank account (the “Monthomatic Plan”). Simply complete the appropriate section of the account application form or call Integrity Fund Services at 800-601-5593 for the appropriate forms.

With the Monthomatic Plan, you can make monthly investments of \$50 or more per month by authorizing Integrity Fund Services to take money out of your bank, savings and loan association, or credit union (“financial institution”) account. If an investor has expedited wire transfer redemption privileges with his or her fund account, such investor must designate the same financial institution account for both the Monthomatic Plan and the wire redemption programs. If you redeem shares within fifteen days after purchasing them under the Monthomatic Plan and your account does not have sufficient funds, your redemption proceeds may not be sent until your account has sufficient funds, which may take up to fifteen days. You can stop the withdrawals at any time by sending a written notice to Integrity Fund Services at P.O. Box 759, Minot, ND 58702. The termination will become effective within seven days after Integrity Fund Services has received the request. The Funds may terminate or modify the Monthomatic Plan at any time and may immediately terminate a shareholder’s Monthomatic Plan if any item is unpaid by the shareholder’s financial institution. There is no charge for the Monthomatic Plan.

SPECIAL SERVICES

To help make investing with Integrity Funds Distributor easy and efficient, the following services are offered.

Exchanging Shares

You can exchange Class A shares between any Integrity/Viking Fund with an up-front sales charge structure without paying any additional sales charges. Additionally, you can exchange Class C shares of a Fund for Class C shares of another Fund that offers Class C shares. However, owners of Class A shares of a Fund may not exchange their Class A shares for Class C shares, and owners of Class C shares of a Fund may not exchange their Class C shares for Class A shares. Before requesting an exchange, review the prospectus of the Integrity/Viking Fund you wish to acquire. Exchange purchases are subject to eligibility requirements as well as the minimum investment requirements of the fund shares purchased. Exchange redemptions and purchases are processed simultaneously at the share prices next determined after the exchange order is received. If you purchased shares subject to the CDSC, the CDSC will not be assessed at the time of the exchange. However, you will be required to pay any remaining deferred sales charge owed on the exchanged shares at the time the acquired shares are redeemed, if any. For purposes of calculating the CDSC, your holding period will begin on the date you purchased the shares being exchanged.

For federal income tax purposes, an exchange is a sale of shares and may result in a taxable gain or loss followed by a purchase of shares of the fund into which you exchange. The Internal Revenue Service could however assert that a loss could not be currently deducted. Special rules may apply to determine the amount of gain or loss on an exchange occurring within 90 days after the purchase of the exchanged shares.

The terms of an employee-sponsored retirement plan may affect a shareholder's right to exchange shares as described above. Contact your plan sponsor or administrator to determine if the exchange options discussed above are available under your plan.

Exchanges are made upon receipt of a properly completed exchange request form or letter of instruction. Alternatively, you may make exchanges by telephone by calling Integrity Fund Services at 800-601-5593. The exchange privilege may be changed or discontinued at any time upon 60 days' notice to shareholders.

Please see Appendix A—Intermediary-Specific Sales Charge Waivers and Discounts in the prospectus for a description of variations in sales charges and waivers for Fund shares purchased through Edward Jones, Raymond James, Oppenheimer & Co. Inc., Robert W. Baird & Co., and Morgan Stanley Wealth Management.

Share Class Conversions

Class I shares of a Fund may be converted into Class A or Class C shares of the same Fund, and Class A or Class C shares of a Fund may be converted into Class I shares of the same Fund, provided that you are eligible to buy the new share class. (However, Class A shares of a Fund may not be converted into Class C shares.) Class C shares may be automatically converted into Class A shares pursuant to the procedures discussed in the section of this prospectus entitled "The Shares Offered—Class C Shares— Automatic Conversion of Class C Shares".

Investors who hold Fund shares through a financial intermediary that does not have an agreement to make certain share classes of the Funds available or that cannot systematically support the conversion may not be eligible to convert their shares. Furthermore, your financial intermediary may have discretion to effect a conversion on your behalf. Consult with your financial intermediary for details.

In general, the conversion of shares of one class of a Fund for shares of another class of the same Fund is not considered a taxable event for federal income tax purposes. Any CDSC associated with the shares being converted will be assessed immediately prior to the conversion into shares of the new share class. Shares redeemed to pay the CDSC would be considered a taxable redemption. Please consult your own tax advisor for further information.

Fees and expenses differ between share classes of each Fund. See the "Summary" section of this prospectus applicable to each Fund for information on the fees and expenses that you may pay if you buy, hold, and sell shares of the Fund. See the section of this prospectus entitled "The Shares Offered" for additional information regarding each share class. You should read the sections of this prospectus applicable to the share class for which you are seeking to convert your shares prior to the conversion.

Share class conversions are made upon receipt of a properly completed request form or letter of instruction. Alternatively, you may request share class conversions by calling Integrity Fund Services at 800-601-5593. The conversion right may be changed or discontinued at any time upon 60 days' notice to shareholders.

Please see Appendix A—Intermediary-Specific Sales Charge Waivers and Discounts in the prospectus for a description of variations in sales charges and waivers for Fund shares purchased through Edward Jones, Raymond James, Oppenheimer & Co. Inc., Robert W. Baird & Co., and Morgan Stanley Wealth Management.

Reinstatement Privilege

If you redeem Fund shares, you may reinstate all or part of your redemption proceeds within 365 days at NAV without incurring any additional charges. You may only reinstate into the same share class from which you redeemed. If you paid a CDSC, the Funds will refund your CDSC as additional shares in proportion to the reinstatement amount of your redemption proceeds, and your holding period will also be reinstated. The Funds may modify or terminate this privilege at any time. You should consult your tax advisor about the tax consequences of exercising your reinstatement privilege. The Funds must be notified that an investment is a reinstatement.

Please see Appendix A—Intermediary-Specific Sales Charge Waivers and Discounts in the prospectus for a description of variations in sales charges and waivers for Fund shares purchased through Edward Jones, Raymond James, Oppenheimer & Co. Inc., Robert W. Baird & Co., and Morgan Stanley Wealth Management.

Telephone Privileges

You will automatically receive telephone privileges when you open your account, allowing you and your investment representative to buy, sell, or exchange your shares and make certain other changes to your account by phone.

For accounts with more than one registered owner, telephone privileges also allow the Funds to accept written instructions signed by only one owner for transactions and account changes that could otherwise be made by phone. For all other transactions and changes, all registered owners must sign the instructions.

As long as Integrity Fund Services takes certain measures to verify telephone requests, Integrity Fund Services will not be responsible for any losses that may occur from unauthorized requests. Of course, you can decline telephone exchange or redemption privileges on your account application.

HOW TO SELL SHARES

You may sell (redeem) your shares on any day the NYSE is open. Generally, the NYSE is closed on weekends, federal holidays and Good Friday. You will receive the share price based on the NAV next determined after the applicable Fund has received your properly completed redemption request as described below. Your redemption request must be received before the close of regular trading for you to receive that day's price. While the Funds do not charge a redemption fee, you may be assessed a CDSC, as discussed above, on the redemption of certain Fund shares. If you redeem shares through your investment representative, please note that your investment representative may charge a processing or service fee.

Requests to sell \$100,000 worth of shares or less generally can be made over the telephone by calling Integrity Fund Services at 800-601-5593 or by written request addressed to Integrity Fund Services, LLC, P.O. Box 759, Minot, ND 58702. Sometimes, however, to protect you and the Funds, we will need written instructions signed by all registered owners, with a signature guarantee for each owner, if:

- you are selling more than \$100,000 worth of shares;
- you want your proceeds paid to someone who is not a registered owner;
- you want to send your proceeds somewhere other than the address of record, or pre-authorized bank or brokerage firm account; or
- you have changed the address on your account by phone within the last 30 days.

To properly complete your redemption request, your request must include the following information:

- the Fund's name;
- your name and account number;
- the dollar or share amount you wish to redeem;
- any required signatures;
- the name of the person to whom you want your redemption proceeds paid (if other than to the shareholder of record);
- the address where you want your redemption proceeds sent (if other than the address of record);
- any certificates you have for the shares (signed certificate or a duly endorsed stock power); and
- any required signature guarantees.

Redemption Proceeds

Redemption payments will be made in the form of a check or can be sent to your bank account through the ACH network. In addition, redemption checks may be sent by overnight mail for a fee which will reduce the amount of your redemption proceeds. Redemption proceeds may be transmitted through a wire transfer for a fee which will reduce the amount of your redemption proceeds. Normally, your redemption proceeds will be sent the next business day after Integrity Fund Services receives your request in proper form, but it may take up to seven days if making immediate payment would adversely affect the Fund. Integrity Fund Services is not able to pay out redemption proceeds in the form of currency. If you purchased your shares by check, your redemption proceeds will not be mailed until your check has cleared, which may take up to fifteen days from the date of purchase. A certified or cashier's check may clear in less time. Signature guarantees must be obtained from a commercial bank, trust company, savings and loan association or brokerage firm; a notary public cannot provide a signature guarantee.

In addition, a Fund may suspend the right of redemption under the following unusual circumstances:

- when the NYSE is closed (other than for weekends and holidays) or trading is restricted, as determined by the SEC;
- when an emergency exists as determined by the SEC, making disposal of portfolio securities or the valuation of net assets not reasonably practicable; or
- during any period when the SEC has by order permitted a suspension of redemption for the protection of shareholders.

In case of any such suspension, you may either withdraw your request for redemption or receive payment based on the NAV per share next determined after the termination of the suspension.

Under normal conditions, each Fund typically expects to meet redemption requests through the use of the Fund's holdings of cash or cash equivalents or by selling other portfolio assets. The Funds reserve the right to satisfy an order to sell Fund shares with liquid securities rather than cash, for certain very large orders. If the Fund pays redemption proceeds by distributing securities in kind, you could incur brokerage costs and/or other transaction costs and charges, as well as tax liability, when converting the distributed securities to cash. You may also be subject to market risk, which means that the value of the distributed securities may decline as a result of unfavorable market-induced changes affecting particular industries, sectors, or issuers.

Systematic Withdrawal Program

If the value of your Fund account is at least \$5,000, you may request to have a specific amount withdrawn automatically from your account, subject to any CDSC, with the Systematic Withdrawal Program (the "Program"). You may elect to receive payments monthly, quarterly, semi-annually, or annually. Shares will be redeemed from your account for the specified withdrawal amount plus any CDSC on approximately the first or 25th of the applicable month. If withdrawals exceed reinvested dividends and distributions, an investor's shares will be reduced and eventually depleted. You must complete the appropriate section of the account application to participate in the Program. A shareholder who participates in the Monthomatic Plan is ineligible to participate in the Program. To participate in the Program, shares may not be in certificated form. You may terminate participation in the Program at any time. The Funds may terminate or modify the Program at any time.

FREQUENT PURCHASES AND REDEMPTIONS OF FUND SHARES

Market Timing Policy

The Funds are designed for long-term investors and are not intended for investors that engage in excessive short-term trading activity (including purchases and sales of Fund shares in response to short-term market fluctuations) that may be harmful to the Funds, including but not limited to market timing. Short-term or excessive trading into and out of a Fund can disrupt portfolio management strategies, harm performance, and increase Fund expenses for all shareholders, including long-term shareholders who do not generate these costs. A Fund may be more or less affected by short-term trading in Fund shares, depending on various factors such as: the size of the Fund; the amount of assets the Fund typically maintains in cash or cash equivalents; the dollar amount, number, and frequency of trades in Fund shares; and other factors. Arbitrage market timing may also be attempted in funds that hold significant investments in securities and other types of investments that may not be frequently traded. There is the possibility that arbitrage market timing, under certain circumstances, may dilute the value of Fund shares if redeeming shareholders receive proceeds (and buying shareholders receive shares) based on NAVs that do not reflect appropriate fair value prices. Each Fund may refuse to sell shares to market timers, and will take such other actions necessary to stop excessive or disruptive trading activities, including closing an account to new purchases believed to be held by or for a market timer, and as further set out below. The Funds' Board of Trustees has adopted and implemented the following

policies and procedures to discourage and prevent market timing or excessive short-term trading in the Funds: (i) trade activity monitoring; (ii) restricting certain transactions; and (iii) using fair value pricing in certain instances. Each of these procedures is described in more detail below.

Although these procedures are designed to discourage excessive short-term trading, none of these procedures alone nor all of them taken together eliminate the possibility that excessive short-term trading activity in a Fund may occur. Moreover, each of these procedures involves judgments that are inherently subjective. Viking Management and its agents seek to make these judgments to the best of their abilities in a manner that they believe is consistent with shareholder interests. The Funds may modify these procedures in response to changing regulatory requirements imposed by the SEC, or to enhance the effectiveness of these procedures and to further restrict trading activities by market timers. Although the Funds and their service providers seek to use these methods to detect and prevent abusive trading activities, there can be no assurances that such activities can be mitigated or eliminated.

Trade Activity Monitoring

The Funds, Viking Management, and their agents monitor selected trades and flows of money into and out of the Funds in an effort to detect excessive short-term trading activities, and for consistent enforcement of the procedures. If, as a result of this monitoring, a Fund, Viking Management, or one of their agents believes that a shareholder has engaged in excessive short-term trading, the Transfer Agent will, at its discretion, ask the shareholder to stop such activities or refuse to process purchases or exchanges in the shareholder's account. The Fund may reject purchase or exchange orders for any reason, without prior notice, particularly purchase or exchange orders that the Fund believes are made on behalf of market timers.

Restrictions on Certain Transactions

In order to prevent market timing, the Funds will impose the following restrictions:

- the Funds will restrict or refuse purchase or exchange orders, for any reason, by those persons that the Funds or the Distributor believes constitute excessive trading;
- the Funds will reject transactions that violate the Funds' excessive trading policies or their exchange limits;
- in order to limit excessive exchange activity and otherwise to promote the best interests of the Funds, the Funds will monitor all redemptions that take place within 30 days of purchase; and
- the Funds will process trades received after the close of regular trading on the NYSE (generally 3:00 p.m., Central Time) at the NAV next calculated.

However, trades transmitted through National Securities Clearing Corporation ("NSCC") that are received by Integrity Fund Services after 3:00 p.m. Central Time but received by the broker-dealer, bank, or other financial institution transmitting the trade through NSCC before 3:00 p.m. Central Time are processed with the date the trade is received by such financial institution.

Investors are subject to this market timing policy whether a direct shareholder of the Funds or investing indirectly in the Funds through a financial intermediary such as a broker-dealer, a bank, an insurance company separate account, an investment adviser, an administrator or trustee of an IRS recognized tax-deferred savings plan such as a 401(k) retirement plan and a 529 college savings plan that maintains an omnibus account with the Funds for trading on behalf of its customers.

While the Funds will encourage financial intermediaries to apply the market timing trading policy to their customers who invest indirectly in the Funds, the Funds are limited in their ability to monitor the trading activity or enforce the market timing trading policy with respect to customers of financial intermediaries. For example, should it occur, the Funds may not be able to detect market timing that may be facilitated by financial intermediaries or is difficult to identify because of the omnibus accounts used by those intermediaries for aggregated purchases, exchanges, and redemptions on behalf of all their customers. More specifically, unless the financial intermediaries have the ability to apply the market timing trading policy to their customers (for example, participants in a 401(k) retirement plan) through such methods as implementing short-term trading limitations or restrictions and monitoring trading activity for what might constitute market timing, the Funds may not be able to determine whether or not the trading by customers of financial intermediaries is contrary to the Funds' market timing trading policy. However, under federal securities law, funds are generally required to enter into shareholder information agreements with certain financial intermediaries that hold fund shares in "omnibus accounts" on behalf of others. Pursuant to these arrangements, the financial intermediary agrees to, among other things, provide certain information upon fund request about shareholders and transactions in these accounts to help enable funds to enforce restrictions on market timing and similar abusive transactions. The financial intermediary will also execute any instructions from the fund to restrict or prohibit purchases or exchanges by a shareholder the fund has identified as violating its market timing policies.

Additional Policies

Please note that the Funds maintain additional policies and reserve certain rights including:

- The Funds may refuse any order to buy shares, including any purchase under the exchange privilege or conversion right.

- At any time, the Funds may change their investment minimums or waive or lower their minimums for certain purchases.
- The Funds may modify or discontinue the exchange privilege or conversion right on 60 days' notice.
- The Funds are not available for purchase in every jurisdiction. Please consult your investment representative or Integrity Fund Services concerning the availability of a particular Fund.
- To permit investors to obtain the current price, dealers are responsible for transmitting all orders to the Funds promptly.
- The Funds may modify or discontinue the available sales charge reductions and waivers at any time.
- Integrity Fund Services will charge a \$15.00 fee against a shareholder's account for any payment returned for insufficient funds. The shareholder will also be responsible for any losses suffered by the Funds as a result.

DISTRIBUTIONS

Dividends and Distributions

The High Income Fund declares net investment income as dividends daily and payable monthly. The Dividend Harvest Fund declares net investment income as dividends quarterly and payable quarterly. The Dividend Harvest Fund and Dividend Summit Fund declares net investment income as dividends monthly and payable monthly. The MNA Resources Fund and Growth & Income Fund distribute substantially all of their net investment income annually. The MNA Resources Fund declares net investment income as dividends quarterly and payable quarterly. Each Fund pays substantially all of its capital gains annually prior to the close of the fiscal year in which the gains are earned. The Short Term Government Fund distributes net investment income, if any, monthly. The amount of any distributions will vary and there is no guarantee a Fund will pay either income dividends or a capital gain distribution.

Reinvestment Options

The Funds automatically reinvest your dividends and capital gains distributions in additional Fund shares at NAV unless you request distributions to be received in cash. You may change your selected method of distribution, provided such change will be effective only for distributions paid seven or more days after the Transfer Agent receives the request. Requests to change dividend options will be accepted when made by the shareholder(s), the shareholder's registered representative, or an assistant to the registered representative.

Dividends that are not reinvested are paid by check or transmitted electronically to your bank account, with the same names as the account registration, using the ACH network. You may have your distribution check paid to a third party or sent to an address other than your address of record, although a signature guarantee will be required. For further information, please contact Integrity Fund Services at 800-601-5593.

FEDERAL TAX MATTERS

This section summarizes some of the main U.S. federal income tax consequences of owning shares of a Fund. This section is current as of the date of this prospectus. Tax laws and interpretations change frequently and these summaries do not describe all of the tax consequences to all taxpayers. For example, these summaries generally do not describe your situation if you are a corporation, a non-U.S. person, a broker/dealer, or other investor with special circumstances. In addition, this section does not describe your state, local, or foreign tax consequences.

This federal income tax summary is based in part on the advice of counsel to the Funds. The Internal Revenue Service ("IRS") could disagree with any conclusions set forth in this section.

As with any investment, you should seek advice based on your individual circumstances from your own tax advisor, including the applicability and effect of state, local, foreign, and other tax laws.

Fund Status

Each Fund intends to qualify as a regulated investment company ("RIC") under the federal income tax laws. During periods when a Fund qualifies as a RIC and distributes all its income, the Fund generally will not pay federal income taxes.

Distributions

Fund distributions are generally taxable. Each Fund intends to make distributions that may be taxed as ordinary income or capital gains (which may be taxable at different rates depending on the length of time the Fund holds its assets). After the end of each year, you will receive a tax statement that separates your Fund's distributions into two categories: ordinary income distributions and capital gain dividends.

Ordinary income distributions are generally taxed at your ordinary tax rate, however, as further discussed below, certain ordinary income distributions received from the Funds may be taxed at the capital gains tax rates. Generally, you will treat all capital gain dividends as long-term capital gains regardless of how long you have owned your shares. To determine your actual tax liability for your capital gain dividends, you must calculate your total net capital gain or loss for the tax year after considering all of your other taxable transactions, as described below. In addition, the Funds may make distributions that represent a return of capital for federal income tax purposes. If a Fund makes a return of capital distribution, the distribution will not be taxable to you to the extent of your basis in your shares and thereafter will be treated as a capital gain. Because a return of capital distribution reduces the basis of your shares, a return of capital distribution may result in a higher capital gain or lower capital loss when you sell your shares. The tax status of your distributions from your Fund is not affected by whether you reinvest your distributions in additional shares or receive them in cash. The tax laws may require you to treat distributions made to you in January as if you had received them on December 31 of the previous year. Income from a Fund may also be subject to a 3.8 percent “Medicare tax.” This tax generally applies to your net investment income if your adjusted gross income exceeds certain threshold amounts, which are \$250,000 in the case of married couples filing joint returns and \$200,000 in the case of single individuals.

Dividends Received Deduction

A corporation that owns shares generally will not be entitled to the dividends received deduction with respect to any dividends received from a Fund because the dividends received deduction is generally not available for distributions from RICs. However, certain ordinary income dividends on shares that are attributable to qualifying dividends received by a Fund from certain corporations may be eligible for the dividends received deduction provided certain holding period and other requirements are satisfied by both the Fund and corporate shareholder.

Sale or Redemption of Shares

If you sell or redeem your shares, you will generally recognize a capital gain or loss that is taxable. To determine the amount of this gain or loss, you must subtract your tax basis in your shares from the amount you receive in the transaction. Your tax basis in your shares is generally equal to the cost of your shares, generally including sales charges. In some cases, however, you may have to adjust your tax basis after you purchase your shares.

Capital Gains and Losses and Certain Ordinary Income Dividends

If you are an individual, the maximum federal income tax rate for net capital gain is generally 20%. Capital gains may also be subject to the “Medicare tax” described above.

Net capital gain equals net long-term capital gain minus net short-term capital loss for the taxable year. Capital gain or loss is long-term if the holding period for the asset is more than one year and is short-term if the holding period for the asset is one year or less. You must exclude the date you purchase your shares to determine your holding period. However, if you receive a capital gain dividend from your Fund and sell your share at a loss after holding it for six months or less, any loss incurred by you related to the disposition of such share will be re-characterized as long-term capital loss to the extent of any capital gain dividends received. The tax rates for capital gains realized from assets held for one year or less are generally the same as for ordinary income. The Code treats certain capital gains as ordinary income in special situations and may limit your ability to use capital losses.

Ordinary income dividends received by an individual or other non-corporate shareholder from a RIC (such as the Funds) are generally taxed at the same rates that apply to net capital gain (as discussed above), provided certain holding period and other requirements are satisfied and provided the dividends are attributable to qualified dividend income received by the Fund itself. Each Fund will provide notice to its shareholders of the amount of any distribution which may be taken into account as a dividend which is eligible for the capital gains tax rates.

Exchanges

If you exchange shares of your Fund for shares of another fund, the exchange would generally be considered a sale of the exchanged shares for federal income tax purposes, and any gain on the transaction may be subject to federal income tax.

Buying Shares Close to a Record Date

Buying Fund shares shortly before the record date for a taxable dividend is commonly known as “buying the dividend.” The entire dividend may be taxable to you even though a portion of the dividend effectively represents a return of your purchase price.

Medicare Tax

An additional 3.8% Medicare tax is imposed on certain net investment income (including dividends and capital gain distributions received from a Fund and net gains from redemptions or other taxable dispositions of shares of the Fund) of U.S. individuals, estates and trusts to the extent that such person’s “modified adjusted gross income” (in the case of an individual) or “adjusted gross income” (in the case of an estate or trust) exceeds a threshold amount.

Foreign Tax Credit

Investment income and some capital gains received by the Funds on foreign securities may be subject to withholding or other foreign taxes. If your Fund is eligible to and makes an election under the Code, the tax statement that you receive may include an item showing foreign taxes your Fund paid to other countries. In this case, dividends taxed to you will include your share of the taxes your Fund paid to other countries. You may be able to deduct or receive a tax credit for your share of these taxes, subject in each case to certain limitations.

Investments in Certain Foreign Corporations

If a Fund holds an equity interest in any “passive foreign investment companies” (“PFICs”), which are generally certain foreign corporations that receive at least 75% of their annual gross income from passive sources (such as interest, dividends, certain rents and royalties or capital gains) or that hold at least 50% of their assets in investments producing such passive income, the Fund could be subject to U.S. federal income tax and additional interest charges on gains and certain distributions with respect to those equity interests, even if all the income or gain is timely distributed to its shareholders. A Fund will not be able to pass through to its shareholders any credit or deduction for such taxes. A Fund may be able to make an election that could ameliorate these adverse tax consequences. In this case, the Fund would recognize as ordinary income any increase in the value of such PFIC shares, and as ordinary loss any decrease in such value to the extent it did not exceed prior increases included in income. Under this election, the Fund might be required to recognize in a year income in excess of its distributions from PFICs and its proceeds from dispositions of PFIC stock during that year, and such income would nevertheless be subject to the distribution requirements that apply to the Fund. Dividends paid by PFICs are not treated as qualified dividend income.

Backup Withholding

A Fund may be required to withhold U.S. federal income tax at a rate of 24% from all distributions and redemption proceeds payable to shareholders who fail to provide the Fund with their correct taxpayer identification number or to make required certifications, or who have been notified by the IRS (or a Fund is notified) that they are subject to backup withholding. This withholding is not an additional tax. Any amounts withheld may be credited against the shareholder’s federal income tax liability, provided the required information is furnished to the IRS.

Foreign Investors

If you are a foreign investor (i.e., generally an investor other than a U.S. citizen or resident, or a U.S. corporation, partnership, estate, or trust), you should be aware that, generally, subject to applicable tax treaties, distributions from the Funds will be characterized as dividends for federal income tax purposes (other than dividends which the Funds properly report as capital gain dividends) and will be subject to U.S. income taxes (including withholding taxes) subject to certain exceptions described below. However, distributions received by a foreign investor from the Funds that are properly reported by the Funds as capital gain dividends may not be subject to U.S. federal income taxes (including withholding taxes) provided that the Funds make certain elections and certain other conditions are met. Distributions from the Funds that are properly reported by the Funds as an interest-related dividend attributable to certain interest income received by the Funds or as a short-term capital gain dividend attributable to certain net short-term capital gain income received by the Funds may not be subject to U.S. federal income taxes, including withholding taxes when received by certain foreign investors, provided that the Funds make certain elections and certain other conditions are met. In addition, distributions in respect of shares may be subject to a U.S. withholding tax of 30% in the case of distributions to (i) certain non-U.S. financial institutions that have not entered into an agreement with the U.S. Treasury to collect and disclose certain information and are not resident in a jurisdiction that has entered into such an agreement with the U.S. Treasury and (ii) certain other non-U.S. entities that do not provide certain certifications and information about the entity’s U.S. owners. Dispositions of shares and capital gain dividends received by such persons may be subject to such withholding after December 31, 2018. A Fund may elect not to report any amounts as interest-related dividends or as short-term capital gain dividends. You should also consult your tax advisor with respect to other U.S. tax withholding and reporting requirements.

Cost Basis Method

For shares acquired on or after January 1, 2012, you may elect a cost basis method to apply to existing and future accounts you may establish. The cost basis method you select will determine the order in which shares are redeemed and how your cost basis information is calculated and subsequently reported to you and to the IRS. Please contact your tax advisor to determine which cost basis method best suits your specific situation. If you hold your account directly with The Integrity Funds, please contact Integrity Fund Services at 800-601-5593 for instructions on how to make your election. If you hold your account with a financial intermediary, please contact that financial intermediary for instructions on how to make your election. If you hold your account directly with The Integrity Funds and do not elect a cost basis method, your account will default to the First In, First Out (FIFO) method. Under this method, the first shares purchased are treated as sold first. Financial intermediaries choose their own default method.

NET ASSET VALUE

The price of a Fund's shares is based on the Fund's NAV. Each Fund calculates its NAV per share each business day at the close of regular trading of the NYSE (normally 3:00 p.m., Central Time). Shares will not be priced on days when the NYSE is closed for trading.

Requests to buy and sell shares are processed based on the NAV next calculated after we receive your request in proper form.

Each Fund's NAV is generally based upon the market value of securities held in the Fund's portfolio by adding the value of that Fund's investments plus cash and other assets, deducting liabilities, and then dividing the results by the number of its shares outstanding. The Funds' investments are primarily valued using market quotations to the extent market quotations are readily available and reliable. Corporate debt securities (other than short-term instruments) are valued at prices furnished by a pricing service, subject to review and possible revision by Integrity Fund Services. Short-term securities with remaining maturities of less than 60 days may be fair valued at amortized cost or at original cost plus accrued interest, subject to Board supervision, as discussed below. To the extent a Fund invests in open-end management investment companies, such Fund's NAV will be calculated based upon the NAVs of the registered open-end management investment companies (other than ETFs, which are valued at their current market value) in which such Fund invests; the prospectuses for these companies would explain the circumstances under which those companies will use fair value pricing and the effects of fair value pricing. Other securities, including restricted securities and other assets, are valued at fair value as described below. If an event were to occur after the value of an instrument was established but before NAV per share was determined, which would likely materially change the NAV, then the instrument would be valued using fair value considerations as described below.

The Board has designated the Investment Adviser as the Funds' "valuation designee" to perform all fair valuations of the Funds' portfolio holdings, subject to the Board's oversight. The Investment Adviser, as the Funds' valuation designee, has established procedures for its fair valuation of the Funds' portfolio holdings, which address, among other things, determining when market quotations are not readily available or reliable and the fair valuation of such portfolio holdings, as well as the selection and oversight of third-party pricing services for fair valuation. In establishing the fair value of debt obligations, the Investment Adviser generally uses valuations provided by pricing services that consider factors such as: the yields and prices of comparable bonds; the type of issue, coupon, maturity, and rating; indications of value from dealers; and general market conditions. Pricing services may also use a computer based "matrix" system to compare securities to determine valuations.

Significant events, including new developments in the securities markets or major occurrences outside of the securities markets, such as natural disasters and armed conflicts, may result in market quotations for portfolio holdings not being reliable. These portfolio holdings will be fair valued. By fair valuing a security whose price may have been affected by events occurring after the close of trading in its respective market or by news after the last market pricing of the security, the Investment Adviser attempts to establish a price that the Fund might reasonably expect to receive upon the current sale of that security. Examples of circumstances which may require further consideration to be given to whether market quotations are available, valid, or reliable, include the lack of reported trades for or infrequent sales of a portfolio security, the suspension of trading on an exchange on which a portfolio security was traded and markets closing early. In addition, while the Funds do not generally invest in thinly traded securities, in the event that they do, such securities may be valued at fair value.

Fair valuation of the Funds' portfolio holdings is intended to ensure that the prices at which Fund shares are purchased and redeemed are fair, and do not result in dilution of shareholder interests or other harm to shareholders. Valuing securities at fair value involves greater reliance on judgment than valuation of securities based on readily available market quotations. The Investment Adviser, when using fair value methods to price securities, may value those securities higher or lower than another mutual fund using market quotations or fair value to price the same securities. There can be no assurance that a Fund could obtain the fair value assigned to a security if it were to sell the security at approximately the time at which the Fund determines its NAV.

To the extent that a Fund's assets are traded in other markets on days when the Fund is not open for business and does not price its shares, the NAV of the Fund's shares may be affected on those days when shareholders may not be able to purchase or sell the Fund's shares. In addition, trading in some of the Fund's assets may not occur on days when the Fund is open for business.

FUND SERVICE PROVIDERS

The custodian of the assets of the Funds, other than cash, is UMB Bank, N.A., Institutional Custody, 928 Grand Blvd, Kansas City, MO 64105.

Integrity Fund Services, a wholly owned subsidiary of Corridor, is the Funds' transfer agent and accounting and administrative services provider. As such, Integrity Fund Services performs pricing, data processing, accounting, and other administrative services for the operation of the Funds and the maintenance of shareholder accounts.

CERTAIN FEES PAID TO FINANCIAL INTERMEDIARIES

Financial intermediaries and retirement plans may have certain accounts and arrangements with the Funds. With respect to such accounts and arrangements, Integrity Fund Services may pay a financial intermediary certain amounts for sub-transfer agency or other administrative services, for which it may receive reimbursement from the Funds. Such sub-transfer agency or other administrative services may include, but are not limited to, the following: processing and mailing trade confirmations, monthly statements, prospectuses, annual reports, semiannual reports and shareholder notices and other required communications for current shareholders; capturing and processing tax data; issuing and mailing dividend checks to current shareholders who have selected cash distributions; preparing record date shareholder lists for proxy solicitations; collecting and posting distributions to shareholder accounts; and establishing and maintaining systematic withdrawals, automated investment plans and shareholder account registrations.

The payments the Funds make to Integrity Fund Services to reimburse it for a portion of the sub-transfer agency or other administrative services are in addition to the distribution and service fees that the Funds pay under their Rule 12b-1 plans and the fees that the Funds pay to Integrity Fund Services for the services it provides as the Funds' transfer agent and accounting and administrative services provider. The aggregate amount of these payments may be substantial and the amounts attributable to particular intermediaries may vary significantly.

SHAREHOLDER INQUIRIES AND MAILINGS

All inquiries regarding the Funds should be directed to:

Integrity Funds Distributor, LLC
PO Box 500
Minot, ND 58702
Phone: 800-276-1262

All inquiries regarding account information should be directed to:

Integrity Fund Services, LLC
PO Box 759
Minot, ND 58702
Phone: 800-601-5593

To reduce expenses, the Funds may mail only one copy of the prospectus and each annual and semi-annual report to those addresses shared by two or more accounts. If you wish to receive individual copies of these documents, please call Integrity Funds Distributor at 800-276-1262 (or contact your financial institution). We will begin sending you individual copies thirty days after receiving your request.

FINANCIAL HIGHLIGHTS

These financial highlights tables are intended to help you understand each Fund's financial performance for the past five fiscal periods. For all Funds, with respect to Class I shares, the financial highlights reflect financial performance for the fiscal periods since such shares were first offered. For Short Term Government Fund, performance of Class I shares prior to January 17, 2020 represents the performance of the Institutional Shares of the Predecessor Fund. Certain information reflects financial results for a single Fund share. The total returns in the tables represent the rate that an investor would have earned (or lost) on an investment in each such Fund (assuming reinvestment of all dividends and distributions).

The information shown in these tables has been audited by Cohen & Company, Ltd., the Funds' independent registered public accounting firm, whose report for the most recent fiscal period, along with the respective Funds' financial statements, is included in the respective Funds' annual report, which is available upon request.

Further information about each Fund's performance is contained in such Fund's latest annual or semi-annual shareholder report. You may obtain a free copy of the respective Fund's latest annual or semi-annual shareholder report upon request from the Fund.

or call 800-276-1262

The general public can review and copy information about the Funds (including the SAI) on the EDGAR Database on the SEC's website at <http://www.sec.gov>. Reports and other information about the Funds are also available for free on the EDGAR Database on the SEC's website at <http://www.sec.gov>. Copies of this information may be obtained, after payment of a duplicating fee, by electronic request at the following e-mail address: publicinfo@sec.gov.

APPENDIX A—INTERMEDIARY-SPECIFIC SALES CHARGE WAIVERS AND DISCOUNTS

The sales charge reductions and waivers applicable to Fund shares purchased through Edward Jones, Raymond James, Oppenheimer & Co. Inc., Robert W. Baird & Co., and Morgan Stanley Wealth Management are set forth below. The financial intermediary-specific information below is provided by, or based on information provided by, the financial intermediaries noted. Each financial intermediary's transaction procedures, including the sales charge reductions and waivers set forth below, are implemented by and are the responsibility of the applicable financial intermediary set forth below, not the Fund. You should consult with your intermediary for additional information or if you have questions regarding its sales charge reductions and waivers.

Policies Regarding Transactions through Edward D. Jones & Co., L.P. ("Edward Jones")

The following information has been provided by Edward Jones:

Effective on or after January 1st, 2024, the following information supersedes prior information with respect to transactions and positions held in fund shares through an Edward Jones system. Clients of Edward Jones (also referred to as "shareholders") purchasing fund shares on the Edward Jones commission and fee-based platforms are eligible only for the following sales charge discounts (also referred to as "breakpoints") and waivers, which can differ from discounts and waivers described elsewhere in the mutual fund prospectus or statement of additional information ("SAI") or through another broker-dealer. In all instances, it is the shareholder's responsibility to inform Edward Jones at the time of purchase of any relationship, holdings of Integrity/Viking Funds, or other facts qualifying the purchaser for discounts or waivers. Edward Jones can ask for documentation of such circumstance. Shareholders should contact Edward Jones if they have questions regarding their eligibility for these discounts and waivers.

Breakpoints

- Breakpoint pricing, otherwise known as volume pricing, at dollar thresholds as described in the prospectus.

Rights of Accumulation ("ROA")

- The applicable sales charge on a purchase of Class A shares is determined by taking into account all share classes (except certain money market funds and any assets held in group retirement plans) of Integrity/Viking Fund held by the shareholder or in an account grouped by Edward Jones with other accounts for the purpose of providing certain pricing considerations ("pricing groups"). If grouping assets as a shareholder, this includes all share classes held on the Edward Jones platform and/or held on another platform. The inclusion of eligible fund family assets in the ROA calculation is dependent on the shareholder notifying Edward Jones of such assets at the time of calculation. Money market funds are included only if such shares were sold with a sales charge at the time of purchase or acquired in exchange for shares purchased with a sales charge.
- The employer maintaining a SEP IRA plan and/or SIMPLE IRA plan may elect to establish or change ROA for the IRA accounts associated with the plan to a plan-level grouping as opposed to including all share classes at a shareholder or pricing group level.
- ROA is determined by calculating the higher of cost minus redemptions or market value (current shares x NAV).

Letter of Intent ("LOI")

- Through a LOI, shareholders can receive the sales charge and breakpoint discounts for purchases shareholders intend to make over a 13-month period from the date Edward Jones receives the LOI. The LOI is determined by calculating the higher of cost or market value of qualifying holdings at LOI initiation in combination with the value that the shareholder intends to buy over a 13-month period to calculate the front-end sales charge and any breakpoint discounts. Each purchase the shareholder makes during that 13-month period will receive the sales charge and breakpoint discount that applies to the total amount. The inclusion of eligible fund family assets in the LOI calculation is dependent on the shareholder notifying Edward Jones of such assets at the time of calculation. Purchases made before the LOI is received by Edward Jones are not adjusted under the LOI and will not reduce the sales charge previously paid. Sales charges will be adjusted if LOI is not met.
- If the employer maintaining a SEP IRA plan and/or SIMPLE IRA plan has elected to establish or change ROA for the IRA accounts associated with the plan to a plan-level grouping, LOIs will also be at the plan-level and may only be established by the employer.

Sales Charge Waivers

Sales charges are waived for the following shareholders and in the following situations:

- Associates of Edward Jones and its affiliates and other accounts in the same pricing group (as determined by Edward Jones under its policies and procedures) as the associate. This waiver will continue for the remainder of the associate's life if the associate retires from Edward Jones in good-standing and remains in good standing pursuant to Edward Jones' policies and procedures.
- Shares purchased in an Edward Jones fee-based program.
- Shares purchased through reinvestment of capital gains distributions and dividend reinvestment. Shares purchased from the proceeds of redeemed shares of the same fund family so long as the following conditions are met: the proceeds are from the sale of shares within 60 days of the purchase, the sale and purchase are made from a share class that charges a front load and one of the following:
 - The redemption and repurchase occur in the same account.
 - The redemption proceeds are used to process an: IRA contribution, excess contributions, conversion, recharacterizing of contributions, or distribution, and the repurchase is done in an account within the same Edward Jones grouping for ROA.
- Shares exchanged into Class A shares from another share class so long as the exchange is into the same fund and was initiated at the discretion of Edward Jones. Edward Jones is responsible for any remaining CDSC due to the fund company, if applicable. Any future purchases are subject to the applicable sales charge as disclosed in the prospectus.
- Exchanges from Class C shares to Class A shares of the same fund, generally, in the 84th month following the anniversary of the purchase date or earlier at the discretion of Edward Jones.
- Purchases of Class 529-A shares through a rollover from either another education savings plan or a security used for qualified distributions
- Purchases of Class 529 shares made for recontribution of refunded amounts.

Contingent Deferred Sales Charge (“CDSC”) Waiver

If the shareholder purchases shares that are subject to a CDSC and those shares are redeemed before the CDSC is expired, the shareholder is responsible to pay the CDSC except in the following conditions:

- The death or disability of the shareholder.
- Systematic withdrawals with up to 10% per year of the account value.
- Return of excess contributions from an Individual Retirement Account (IRA).
- Shares redeemed as part of a required minimum distribution for IRA and retirement accounts if the redemption is taken in or after the year the shareholder reaches qualified age based on applicable IRS regulations.
- Shares redeemed to pay Edward Jones fees or costs in such cases where the transaction is initiated by Edward Jones.
- Shares exchanged in an Edward Jones fee-based program.
- Shares acquired through NAV reinstatement.
- Shares redeemed at the discretion of Edward Jones for Minimum Balances, as described below.

Other Important Information Regarding Transactions Through Edward Jones

Minimum Purchase Amounts

- Initial purchase minimum: \$250
- Subsequent purchase minimum: none

Minimum Balances

- Edward Jones has the right to redeem at its discretion fund holdings with a balance of \$250 or less. The following are examples of accounts that are not included in this policy:
 - A fee-based account held on an Edward Jones platform
 - A 529 account held on an Edward Jones platform
 - An account with an active systematic investment plan or LOI

Exchanging Share Classes

- At any time it deems necessary, Edward Jones has the authority to exchange at NAV a shareholder's holdings in a fund to Class A shares of the same fund.

Shareholders Purchasing Fund Shares through Raymond James and its Affiliates

The following information is provided by Raymond James and its affiliates:

Intermediary-Defined Sales Charge Waiver Policies

The availability of certain initial or deferred sales charge waivers and discounts may depend on the particular financial intermediary or type of account through which you purchase or hold Fund shares.

Intermediaries may have different policies and procedures regarding the availability of front-end sales load waivers or contingent deferred (back-end) sales load ("CDSC") waivers, which are discussed below. In all instances, it is the purchaser's responsibility to notify the fund or the purchaser's financial intermediary at the time of purchase of any relationship or other facts qualifying the purchaser for sales charge waivers or discounts. For waivers and discounts not available through a particular intermediary, shareholders will have to purchase fund shares directly from the fund or through another intermediary to receive these waivers or discounts.

Raymond James & Associates, Inc., Raymond James Financial Services, Inc. and each entity's affiliates ("Raymond James")

Effective March 1, 2019, shareholders purchasing fund shares through a Raymond James platform or account, or through an introducing broker-dealer or independent registered investment adviser for which Raymond James provides trade execution, clearance, and/or custody services, will be eligible only for the following load waivers (front-end sales charge waivers and contingent deferred, or back-end, sales charge waivers) and discounts, which may differ from those disclosed elsewhere in this fund's prospectus or SAI.

Front-end sales load waivers on Class A Shares available at Raymond James

- Shares purchased in an investment advisory program.
- Shares purchased within the same fund family through a systematic reinvestment of capital gains and dividend distributions.
- Employees and registered representatives of Raymond James or its affiliates and their family members as designated by Raymond James.
- Shares purchased from the proceeds of redemptions within the same fund family, provided (1) the repurchase occurs within 90 days following the redemption, (2) the redemption and purchase occur in the same account, and (3) redeemed shares were subject to a front-end or deferred sales load (known as Rights of Reinstatement).

CDSC Waivers on Classes A, B and C Shares available at Raymond James

- Death or disability of the shareholder.
- Shares sold as part of a systematic withdrawal plan as described in the fund's prospectus.
- Return of excess contributions from an IRA Account.
- Shares sold as part of a required minimum distribution for IRA and retirement accounts due to the shareholder reaching age 70½ as described in the fund's prospectus.
- Shares sold to pay Raymond James fees but only if the transaction is initiated by Raymond James.
- Shares acquired through a right of reinstatement.

Front-end load discounts available at Raymond James: breakpoints, rights of accumulation, and/or letters of intent

- Breakpoints as described in this prospectus.
- Rights of accumulation which entitle shareholders to breakpoint discounts will be automatically calculated based on the aggregated holding of fund family assets held by accounts within the purchaser's household at Raymond James. Eligible fund family assets not held at Raymond James may be included in the calculation of rights of accumulation calculation only if the shareholder notifies his or her financial advisor about such assets.

- Letters of intent which allow for breakpoint discounts based on anticipated purchases within a fund family, over a 13-month time period. Eligible fund family assets not held at Raymond James may be included in the calculation of letters of intent only if the shareholder notifies his or her financial advisor about such assets.

Shareholders Purchasing Fund Shares through Oppenheimer & Co and its Affiliates

The following information is provided by Oppenheimer & Co. Inc. (“OPCO”) and its affiliates:

Effective on or after March 17, 2020, shareholders purchasing Fund shares through an OPCO platform or account are eligible only for the following load waivers (front-end sales charge waivers and contingent deferred, or back-end, sales charge waivers) and discounts, which may differ from those disclosed elsewhere in this Fund’s prospectus or SAI.

Front-end Sales Load Waivers on Class A Shares available at OPCO

- Employer-sponsored retirement, deferred compensation and employee benefit plans (including health savings accounts) and trusts used to fund those plans, provided that the shares are not held in a commission-based brokerage account and shares are held for the benefit of the plan
- Shares purchased by or through a 529 Plan
- Shares purchased through a OPCO affiliated investment advisory program
- Shares purchased through reinvestment of capital gains distributions and dividend reinvestment when purchasing shares of the same fund (but not any other fund within the fund family)
- Shares purchased from the proceeds of redemptions within the same fund family, provided (1) the repurchase occurs within 90 days following the redemption, (2) the redemption and purchase occur in the same account, and (3) redeemed shares were subject to a front-end or deferred sales load (known as Rights of Restatement).
- Employees and registered representatives of OPCO or its affiliates and their family members
- Directors or Trustees of the Fund, and employees of the Fund’s investment adviser or any of its affiliates, as described in this prospectus
- A shareholder in the Fund’s Class C shares will have their shares converted at net asset value to Class A shares (or the appropriate share class) of the Fund if the shares are no longer subject to a CDSC and the conversion is in line with the policies and procedures of OPCO

CDSC Waivers on A and C Shares available at OPCO

- Death or disability of the shareholder
- Shares sold as part of a systematic withdrawal plan as described in the Fund’s prospectus
- Return of excess contributions from an IRA Account
- Shares sold as part of a required minimum distribution for IRA and retirement accounts due to the shareholder reaching the qualified age based on applicable IRS regulations as described in the prospectus
- Shares sold to pay OPCO fees but only if the transaction is initiated by OPCO
- Shares acquired through a right of reinstatement

Front-end load Discounts Available at OPCO: Breakpoints, Rights of Accumulation & Letters of Intent

- Breakpoints as described in this prospectus.
- Rights of Accumulation (ROA) which entitle shareholders to breakpoint discounts will be automatically calculated based on the aggregated holding of fund family assets held by accounts within the purchaser’s household at OPCO. Eligible fund family assets not held at OPCO may be included in the ROA calculation only if the shareholder notifies his or her financial advisor about such assets.

Shareholders Purchasing Fund Shares through Robert W. Baird & Co. (“Baird”)

Effective on or after September 2, 2020, shareholders purchasing Fund shares through an Baird platform or account are eligible only for the following load waivers (front-end sales charge waivers and contingent deferred, or back-end, sales charge waivers) and discounts, which may differ from those disclosed elsewhere in this Fund’s prospectus or SAI.

Front-End Sales Waivers on Class A Shares Available at Baird

- Shares purchased through reinvestment of capital gains distributions and dividend reinvestment when purchasing shares of the same fund
- Shares purchased by employees and registered representatives of Baird or its affiliate and their family members as designated by Baird
- Shares purchased using the proceeds of redemptions from an Integrity/Viking Fund, provided (1) the repurchase occurs within 90 days following the redemption, (2) the redemption and purchase occur in the same accounts, and (3) redeemed shares were subject to a front-end or deferred sales charge (known as rights of reinstatement)
- Employer-sponsored retirement plans or charitable accounts in a transactional brokerage account at Baird, including 401(k) plans, 457 plans, employer-sponsored 403(b) plans, profit sharing and money purchase pension plans and defined benefit plans. For purposes of this provision, employer-sponsored retirement plans do not include SEP IRAs, Simple IRAs or SAR-SEPs
- A shareholder in the Fund's Class C Shares will have their share converted at net asset value to Class A shares of the same fund if the shares are no longer subject to CDSC and the conversion is in line with the policies and procedures of Baird

CDSC Waivers on Class A Shares Available at Baird

- Shares sold due to death or disability of the shareholder
- Shares sold as part of a systematic withdrawal plan as described in the Fund's Prospectus
- Shares bought due to returns of excess contributions from an IRA Account
- Shares sold as part of a required minimum distribution for IRA and retirement accounts due to the shareholder reaching the qualified age based on applicable Internal Revenue Service regulations as may be described in the Fund's prospectus
- Shares sold to pay Baird fees but only if the transaction is initiated by Baird
- Shares acquired through a right of reinstatement

Front-End Sales Charge Discounts Available at Baird: Breakpoints and/or Rights of Accumulations

- Breakpoints as described in this prospectus.
- Rights of accumulations which entitles shareholders to breakpoint discounts will be automatically calculated based on the aggregated holding of Integrity/Viking Fund assets held by accounts within the purchaser's household at Baird. Eligible Integrity/Viking Fund assets not held at Baird may be included in the rights of accumulations calculation only if the shareholder notifies his or her financial advisor about such assets
- Letters of Intent (LOI) allow for breakpoint discounts based on anticipated purchases of Integrity/Viking Funds through Baird, over a 13-month period of time

Shareholders Purchasing Fund Shares through Morgan Stanley Wealth Management ("Morgan Stanley")

The following information is provided by Morgan Stanley and its affiliates:

Front-end Sales Charge Waivers on Class A Shares Available at Morgan Stanley

- Employer-sponsored retirement plans (e.g., 401(k) plans, 457 plans, employer-sponsored 403(b) plans, profit sharing and money purchase pension plans and defined benefit plans). For purposes of this provision, employer-sponsored retirement plans do not include SEP IRAs, Simple IRAs, SAR-SEPs or Keogh plans
- Morgan Stanley employee and employee-related accounts according to MSSB's account linking rules
- Shares purchased through reinvestment of dividends and capital gains distributions when purchasing shares of the same fund
- Shares purchased through a Morgan Stanley self-directed brokerage account
- Class C (i.e., level-load) shares that are no longer subject to a contingent deferred sales charge and are converted to Class A shares of the same fund pursuant to Morgan Stanley Wealth Management's share class conversion program
- Shares purchased from the proceeds of redemptions within the same fund family, provided the repurchase occurs within 90 days' following the redemption, (ii) the redemption and purchase occur in the same account, and (iii) redeemed shares were subject to a front-end or deferred sales charge.
